Every effort is made to ensure the accuracy of the information contained in this Cleveland Institute of Art Catalog; however, the Catalog is not a contract but rather a guide for the convenience of students. The Cleveland Institute of Art reserves the right to change or withdraw courses; to change the fees, rules, and calendar for admission, registration, instruction and graduation; and to change any of its policies or other provisions listed in the Catalog at any time.
The Cleveland Institute of Art is an independent college of art and design committed to leadership and vision in all forms of visual arts education. Since 1882, we have been an educational cornerstone in Cleveland, Ohio, and have won widespread acclaim for the quality of our programs and achievements of our alumni. Students are encouraged to explore their vision and develop their skills through an interdisciplinary curriculum.

**Accreditation** The Cleveland Institute of Art is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools, the National Association of Schools of Art and Design (NASAD), and the State of Ohio. CIA is a member of the Association of Independent Colleges of Art and Design (AICAD), a consortium of America’s specialized art and design colleges.
Message from the President

Dear Students:

You bring the artistic talent, the passion and the commitment to learning and growing. CIA provides accomplished faculty members, excellent facilities, well-designed courses, a whole menu of services, and good-sense policies designed to ensure that you receive the best possible education.

In this catalog you’ll learn about the resources that are here for you. Please read through it now and keep it as a reference. It is the product of countless hours of labor by many dedicated faculty and staff members whose focus is your success. Take time also to look through our website, at cia.edu, and learn even more about our people and our programs.

As you discover the richness CIA has to offer, I will appreciate the creative, innovative, courageous, and ambitious artists and designers that you are becoming.

Best,

Grafton J. Nunes
President + CEO, Cleveland Institute of Art
About CIA

Institutional Statement
The Cleveland Institute of Art strives to nurture the intellectual, artistic, and professional development of students and community members through rigorous visual arts and design education, and in so doing to advance culture, community, and global quality of life. Our success is derived from a pursuit of excellence, the fostering of community, a holistic approach to education, a culture of accountability, and freedom of inquiry.

Vision
To advance culture, community, and global quality of life.

Mission
To nurture the intellectual, artistic, and professional development of students and community members through rigorous visual arts and design education.

Values
Excellence: To pursue academic rigor and leadership.

Community: To foster internal and external collaboration, cooperation, and communication.

Holism: To offer a comprehensive personal academic experience.

Accountability: To follow best practices in the management of human, financial, and the earth’s resources.
History

The Cleveland Institute of Art continues to build on an internationally recognized heritage of excellence and innovation that dates back to 1882. That year the school was chartered as the Western Reserve School of Design for Women. The school’s first name reflects the forward-thinking views of founder Sarah Kimball, who opened her home for the first class meetings, attended by just one teacher and one student. Open to male and female students alike, the Cleveland School of Art, as the school soon became known, blossomed under the influence of a dedicated and talented faculty, whose prize-winning art and award-winning commercial designs are known collectively, even today, as the “Cleveland School.”

Over time the school’s success prompted changes in facilities—from Mrs. Kimball’s sitting room to the attic of Old Cleveland City Hall, and then to the late Horace Kelley’s mansion on present-day E. 55th Street. In 1905 the Cleveland School of Art built a brick Italianate building in University Circle (razed as part of a 1960s site redevelopment), which boasted a grand exhibition gallery predating the Cleveland Museum of Art by a decade.

In 1949 the school became officially known as the Cleveland Institute of Art, and in 1956, classes moved into their new building at 11141 East Boulevard, named for George Gund, who served as CIA Board President for 24 years. Since 1946, the state of Ohio authorized the Cleveland Institute of Art to confer the Bachelor of Fine Arts degree.

The college purchased a former Ford automobile assembly factory in 1981, now listed on the National Register of Historic Places, which was renovated for classroom and studio space. The building was named the Joseph McCullough Center (JMC) for the Visual Arts, after CIA’s former president of 33 years. As part of the college’s Campus Unification Project, the JMC went through another renovation in 2010, and construction is underway on a new building that will be interconnected with the JMC and house classroom and studio space along with a new Cinematheque theater.
Section 1: 2014–15 Academic Calendar
Fall 2014

**August**

18–22  In-Person Tuition Payment/Registration for Fall semester.
18–29  Course drop-add period. Schedule changes.
25     Fall semester begins.
25–29  Late Registration. $350 late fee assessed.

**September**

19    Course proposals for new courses due to Curriculum Committee.

**October**

10    Spring 2014 course Schedule information due from Academic Affairs to Registrar's Office.
17    Mid-term grades due.
      Reopen for dinner Tue Oct 28.
31    Last day to withdraw from a course, Fall 2014.

**November**

3–7   Advising for Spring 2015 course pre-scheduling
10    Online scheduling opens to seniors for spring course pre-scheduling.
26    No classes. Offices open.

**December**

1–5   Liberal Arts Exams/Mid-year Crits for BFA candidates. Schedule to be determined.
8–12  Final Studio Critiques.
12    Final grades for weekday classes due by 5pm in Registrar’s Office.
13    Fall semester ends. Residence hall closes. Holiday recess begins.
Spring 2015

January
5–9  In-Person Tuition Payment/Registration for Spring semester.
5–16  Course drop-add period. Schedule changes.
11  Returning students move into residence hall.
12  Spring Semester begins.
12–16  Late Registration. $350 late fee assessed.
19  Martin Luther King Day. Institute holiday. Buildings closed.

March
2  Fall 2015 course schedule information due from Academic Affairs to Registrar’s Office.
6  Mid-term grades due.
7  Residence hall closes for spring break.
9–13  Spring Recess. No classes. Offices open.
15  Residence hall opens at noon.
16–20  Portfolio Review Week for Major Selection.
27  Last day to withdraw from a course, Spring 2015
30–April 3  Advising for Fall 2015 course pre-scheduling.

April
6  Online scheduling opens to seniors for fall course pre-scheduling.
24  Last day of regular classes, studio and liberal arts.
27–May 1  Academic Exam/Studio Critique Week. Schedule to be determined.

May
4–8  BFA Reviews + Exhibitions.
9  Spring semester ends. Residence hall closes for summer.
11  Final grades for graduating students due.
15  Final grades for all students due.
15  Commencement rehearsal.
18  Final studio clean out.

July
Section 2: Undergraduate Degree Majors and Programs

The Cleveland Institute of Art offers 15 majors in fine art, design, craft, and integrated media. Each of these four-year undergraduate programs leads to a Bachelor of Fine Arts degree (BFA).

And if you’re interested in teaching, we offer a 4+1 master’s degree program in Art Education, in partnership with Case Western Reserve University.
Cores + Connections

Cores + Connections is CIA’s academic philosophy, linking its core values, rigorous curriculum, and world-class faculty with its academic commitment to student engagement in community-based learning, real-world projects, and social practices. Beginning with your very first semester in the Foundation Charette courses and continuing throughout your education here, you can look forward to participating in off-site learning in your classes, as well as opportunities to complete professional work in industry and the community. This may occur through courses, extracurricular activities, and/or internships. For more info, visit cia.edu/academics/curriculum/cores--connections.

Engaged Practices

In support of Cores + Connections, “Engaged Practices” (EP) is a course listing category that cross-lists existing courses from other programs or majors. EP courses are primarily field-based, accessible to students from any major (sometimes with prerequisites), and are focused on real-world projects and authentic engagement with community partners. From time to time, special topics pilot courses, with these same qualities, may also be listed in the EP category. If taken outside of your major program, EP credits may be applied toward open studio elective requirements. For more info, see Engaged Practices in Section 8: Degree Requirements & Course Catalog. Some current EP courses include:

Environment, Art and Engaged Practice
Expand the boundaries of your studio experience into the outdoors, through intensive field studies at the Cleveland Metroparks. A significant amount of class time will occur at the Metroparks, and includes an on-site instructional space. Work collaboratively with fellow students, the instructor, and Metroparks staff to identify and research critical environmental issues and/or the aesthetics of nature, toward the realization of visual work that will engage and enlighten the public. Explore the media of your major, or a discipline that’s new to you. Fall semester, 3 credit hours

SEA Change (Socially Engaged Arts for Change) I & II
These year-long field-based practicums provide interested, eligible students from all majors an opportunity to engage with classmates in community-based and real-world projects, developing their social agency as professionals, while advancing their experience in the field of “social practice” in art and design. Each section of “SEA Change” is developed in advance by a faculty member in collaboration with community organizations, other institutions, and/or grass-roots partners, and is centered on a particular theme for a year-long project. Practicums are located in diverse social and physical contexts, all requiring meaningful, reciprocal interaction with a community of interest. Emphasized are practice and expansion of students’ existing art, design, interpersonal, and project management skills, while engaging with a community of interest in a positive mutual exchange. Students spend 2–4 hours per week on-site, working on the project under faculty or site supervision; meet periodically in seminar on campus; and maintain a reflection blog/portfolio. Open studio elective. 1.5 credits per semester. Fall and Spring enrollment required for 3 credits.

2014–15 SEA Change courses:
Drawn to Care: Portraiture and Medicine
EP 200X–300X–400X
projectFIND: People + Shelter + Food + Mapping
EP 201X–301X–401X

Other Engaged Practices courses:
The Artist and Social Practice
(see Sculpture + Expanded Media course descriptions)
Community Projects
(see Illustration course descriptions)
Design Center
(see Industrial Design course descriptions)
Putting Artists in the Classroom
(see General Studies course descriptions)
Foundation Year and Liberal Arts

Students begin with our Foundation program, a year-long introduction to forms, methods, media, and concepts crucial to your future academic and professional success. You will emerge from the program on technically equal footing with your peers—ready to concentrate on the study and practice of art and design.

Laying the Groundwork for Your Future

Our Foundation studio curriculum offers an intensive exploration of color, form, design, and creative problem solving. You will begin with core courses in drawing, design, color, and digital studies that acquaint you with composition, drawing principles, and 2D and 3D materials and processes. As you work on studio projects, you will investigate visual dynamics, creative processes, and issues that inform contemporary art, design and culture.

To help you transition from Foundation studies into the major of your choice, you also will take an elective class. The elective offers an opportunity to explore various disciplines in the arts, crafts, and design areas while helping you make an informed choice about your major and future career path.

Share in a Collective Setting

Be prepared for lively debates and the camaraderie that develops as you and your peers work together in studio. The Foundation experience fosters a learning environment that is responsive to your aspirations, as well as to innovations in the world of art and design.

We balance fundamental approaches with experimentation to develop your aesthetic sensibilities.

Take advantage of our amazing location in the center of Cleveland’s cultural district. Our classes regularly explore the permanent collections of the Cleveland Museum of Art, the exhibits of the Cleveland Museum of Natural History, or the rainforest of the Cleveland Botanical Garden. With Case Western Reserve University, University Hospitals and the Cleveland Clinic located a quick walk along Euclid Avenue we tap into unmatched science and health care resources that boost our curriculum.

Liberal Arts at CIA

At the Cleveland Institute of Art, we cultivate the intellectual development of our students as they move through each of their degree programs. In order to create, you need not only art and design skills, but also the ideas behind them. So, woven throughout each semester at CIA are courses in the humanities and social sciences—art history, English, philosophy, anthropology, psychology. At CIA you will graduate with a breadth of knowledge that is the hallmark of the baccalaureate degree.

Liberal Arts classes can be found in the Course listing section of this catalog under:
ACD: Art/Craft/Design History+Theory
HCS: Humanities/Cultural Studies
LLC: Literature, Language + Composition
SNS: Science + Natural Studies

The Three C’s:
Culture, Creativity, Connection

A singular feature of the Institute’s Liberal Arts curriculum is our approach to studying a subject by connecting it to other disciplines in our program. For example, in your freshman year at CIA, you may read about ancient and medieval philosophy and culture in English class while also taking Ancient and Medieval History of Art. This carefully calibrated educational experience creates a comprehensive perspective on a subject that will give you a broad sense of the trajectory of world history itself.

Our Liberal Arts curriculum is designed to develop your understanding of world cultures—both past and present—and to discover the importance of these ideas to the growth of your artistic life. Coursework centers on the ideas of culture as a generator of creative ideas and of students as makers within their cultures.

Foster the Expression of Ideas

Reading and composition are crucial to the development of your own artistic ideas. By completing rigorous assignments in analytical essays and research papers, you will become a stronger writer, able to convey your point of view in tandem with understanding diverse perspectives.

For those who excel in these areas, you also may choose to add concentrated Liberal Arts coursework to your studies. Complete a Visual Culture Emphasis to enjoy extensive training in art history, theory, and criticism. Or opt for a Creative Writing Concentration if you want a career advantage in fields like illustration or film (or if you just love to write).

The following courses comprise the Foundation Requirements:

Advanced Art and Writing Elective
### Liberal Arts Elective Courses*

**ACD 305** Visual Culture and the Manufacture of Meaning  
**ACD 334** African American Art  
**ACD 348** History of Photography Survey  
**ACD 357** 12 Artists of Post-1950s China  
**ACD 358** An Introduction to African Art  
**ACD 363X** Exhibition Theory & the Culture of Display  
**ACD 365** Art of China  
**ACD 372** Asian Art Survey  
**ACD 373X** Art of East Asia  
**ACD 376X** American Crafts History  
**ACD 377X** 10 Chinese Painters You Must Know  
**ACD 380X** Issues in 20th + 21st Century Art  
**ACD 385X** Changing Views: Perspectives on African Art  
**ACD 415** Visual Culture Emphasis: Senior Research Paper  
**ACD 416** Issues in Design: Theory & Culture of Design  
**ACD 420** Race and Representation in Contemporary Art and Culture  
**ACD 442** Neo-Expressionism/Neo-Geo  
**ACD 443X** Modernism in Latin American Art  
**ACD 448** Advertising & Consumer Culture  
**ACD 458** The Body: Tradition, Transformation, Transgression  
**ACD 462** Design & Craft in Modern Culture  
**ACD 480X** Museum Studies—Who Owns Art?: Issues in Asian Art Collecting  
**ACD 483X** Conceptual Art  
**ACD 486** Media Arts & Visual Culture: Installation  
**ACD 487** Media Arts & Visual Culture: Interactive  
**HCS 389** From the Front Row: Cinema & Critical Writing  
**HCS 390X** Topics in 20th-C US History  
**HCS 391** Sound Art & New Media  
**HCS 410** Writing for the Art & Design Career  
**LLC 204W** Writing for the Art & Design Career  
**LLC 205W** Arts Journalism  
**LLC 206W** Hybrid Writing  
**LLC 207W** Autobiographical Narratives  
**LLC 208W** Science Fiction & Fantasy  
**LLC 210W** Poetry Writing Workshop  
**LLC 211W** Writing about Material Culture  
**LLC 212WX** Writing for the Sciences  
**LLC 213X** Writing for the Sciences  
**LLC 309X** Spies  
**LLC 318** Screenwriting  
**LLC 351X** On the Same Page  
**LLC 359** Contemporary African & African-American Literature  
**LLC 373W** Art of the Personal Essay  
**LLC 374X** Jazz: Contemporary African-American Writers  
**LLC 388** Literature of Americas  
**LLC 390X** Children's Literature  
**LLC 391** Dialogue & Story  
**LLC 392** Fiction Writing  
**LLC 393** Creative Writing  
**LLC 411** Intro to African & African-American Literature  
**LLC 415** Writing Concentration: Body of Work  
**LLC 415C** Writing Concentration: Body of Work Continuation  
**LLC 416** Graphic Narratives  
**LLC 417** Women's Words  
**LLC 424** Culture, Conflict & Syncretism in African and African-American Literature  
**LLC 441** Narrative Art & Mythic Patterns in African & African-American Literature  
**LLC 471** Chinese Poetry  
**SNS 308** Basic Theories of Psychology  
**SNS 309** Abnormal Psychology  
**SNS 321** Visual Anthropology  
**SNS 357** Traditional Tribal Art  
**SNS 360X** Prehispanic Civilizations: The Aztec, the Maya, the Inca  
**SNS 370X** Introduction to Archaeology  
**SNS 378** Anthropology  
**SNS 380** India: Culture & Society  
**SNS 381** Human Antiquity  
**SNS 390X** Topics in Environmental Science  
**SNS 479** Tribe vs. Nation  
**SNS 484** Jung & Creativity

### Visual Culture Emphasis

This course of study will provide you with the skills to articulate your understanding of theory and history of visual culture and incorporate those perceptions into your own studio work. In the Visual Culture Emphasis you'll study 18 credits of designated Liberal Arts classes in addition to the Foundation Liberal Arts requirements. You'll become a stronger writer and communicator as these studies help you reflect on how art and design are informed by concept, theory, and history.

Areas of study include new media and film; non-Western and folk art; contemporary issues in art and design; art criticism; popular and mass culture; philosophy and aesthetics; and critical theory and methods of analysis.

### Creative Writing Concentration

If you are an artist or designer who also writes stories, graphic novels, and poems, our Creative Writing Concentration can keep you on track to grow as a creative writer—while you become a stronger visual communicator. Or if you are planning a career in illustration, graphic fiction, game design, or film, and need the career advantage of excellent writing skills, this Concentration allows you to work on your writing while you pursue your studio degree.

The Creative Writing Concentration is comprised of 12 total credit hours (four courses), taken in the Liberal Arts. As a final requirement of the Concentration, you’ll create a body of written work.

*Many of these courses are offered on a rotating basis, and may not be available every semester.*
Majors

Animation
Animation is a medium that breathes life into concept through movement. As an Animation student you'll discover how the dialogue of an otherwise stagnant image or object changes and evolves when put to motion.

Study the Craft of Storytelling
As a student in our program, you will create narrative and experimental animation that bring both characters and environments to life. Our integrated curriculum focuses on sequential narrative storytelling, conceptual development, storyboarding, methods of animation, framing and staging, animatics, layers, and motion studies.

You will work with innovative production technologies in:
- 2D and 3D digital media and animation;
- film; video production;
- and stop-motion animation.

To enhance your skills in character development and set design, you will study the development of:
- personality in motion;
- lighting of small-scale digital environments;
- sound related to motion and sync;
- and the broad scope of tactile sculpture media.

In addition, we emphasize presentation and public speaking skills, which help prepare you for pitching your ideas and directing a team.

Biomedical Art
One of only a few undergraduate degrees of its kind in the United States, our Biomedical Art program combines applied art, science, and technology to create visual education materials on scientific and medical topics.

Merging Tradition with New Technology
Based on the traditional field of scientific and medical illustration, our curriculum incorporates leading-edge digital media techniques, interactivity, and animation. As a Biomedical Art major, we blend your artistic talent with knowledge of natural science, a biomedical intellect, and strong visual communication skills.

You will learn about illustration, information design, 3D modeling, and animation through conventional and digital methods. With a flexible course of study, you can take courses in:
- Computer imaging and animation
- Editorial illustration
- Instructional design and multimedia
- Medical sculpture
- Surgical and natural science
- Business and professional practices

Benefit from a Wealth of Resources
Our dedicated, highly trained faculty is one of our greatest assets. Each Biomedical Art instructor is accredited by the Association of Medical Illustrators as a Certified Medical Illustrator. In addition to their expertise, our faculty have established great connections with the region’s extraordinary medical, scientific, and cultural communities. Our professional partnerships with Case Western Reserve University, University Hospitals Case Medical Center, and the Cleveland Clinic, as well as the Cleveland Museum of Natural History and Cleveland Botanical Garden will provide you with amazing exhibition opportunities and medical illustration projects.

Ceramics
In the Ceramics program at CIA we build on the long-standing tradition of ceramic art by teaching both the art and science of its two major traditions: works of sculpture and works of utility. We expose students to the rich history and contemporary potential of ceramics as a vehicle for expression of personal ideas and concepts.

Develop a Wide Range of Techniques
As a Ceramics major you will study all aspects of ceramic work, including traditional techniques such as hand building and pottery wheel throwing, clay and glaze making, glazing techniques, and loading and firing gas, electric, and wood-fired kilns. You will expand your conceptual ideas with the use of 3D modeling, industrial mold-making techniques, and ideation.

Be Part of a Community
The Ceramics department offers an interactive, open studio environment in which we encourage collaboration and communication among students, peers and professors. Our curriculum exposes all Ceramics majors to the entire Craft + Design faculty, who are all practicing, professional artists.

We stress conceptualization, technology, entrepreneurship, and career development throughout the Ceramics and Craft + Design programs.
**Drawing**
As a Drawing major, you will explore traditional and unconventional materials, tools, and techniques to define your aesthetic identity as well as challenge your artistic vision and resourcefulness.

**An integrated visual arts curriculum**
As part of the Visual Arts (VA) Environment, our BFA program in Drawing provides students with a broad education in the visual arts while strengthening their in-depth conceptual knowledge of the drawing discipline.

Through this integrated curriculum, you will be introduced to historical and cultural frameworks of drawing, the individual studio practice of drawing, style and aesthetics, and the idea of communication through drawing. You will master a visual vocabulary and learn to draw from observation, ideation, and experimental processes.

**Supportive, collaborative environment**
Our Drawing faculty use a multi-disciplinary approach to teaching, pulling from other visual art fields, such as printmaking, painting, sculpture and time-based work. Students will attend lectures by and work individually with visiting artists, including our visual arts artist-in-residence.

In addition, you will be tutored in creating a professional portfolio, developing grant-writing skills, and proper etiquette for successfully approaching dealers, curators, and collectors. You will also gain an understanding of how to set up your own professional studio in our professional practices program.

Each spring, you will have an opportunity to visit professional galleries and exhibitions in New York City, such as the Whitney Biennial and The Armory Show.

**Game Design**
As a major in our Game Design program, you will acquire skills in 3D modeling, animation, programming, visual design, interactive storytelling, audio and game production. In addition, your coursework will examine theory and context of video game culture and digital media.

**Prepare for an exciting career**
Our curriculum emphasizes presentation skills, such as writing, storyboarding, motion, and directing—all essential for a successful job in game design. You also will perform game-specific and player-focused research and study special effects.

As a Game Design major, you will:
- Improve your character development abilities
- Master the use of rule design, play mechanics, and social game interaction
- Integrate visual, audio, tactile, and textual elements into a total game experience
- Create both linear and non-linear media by applying post-production techniques

Additionally, you will learn how to create 3D modeling digital visualizations that use organic and inorganic modeling, construction of compound objects, 3D primitive construction and modeling, and resolution and tessellation of 3D objects and formats.

**A Team-Oriented Culture**
Collaboration is a vital aspect of the studio experience at CIA. As a Game Design major, you will be part of our digital arts student community and take core courses with students from other majors. This regular exchange between students with differing perspectives and techniques helps build team skills integral to brainstorming, character design, narrative ideas, production, and presenting and critiquing project outcomes.

Moreover, you will be mentored by our extremely talented faculty. Accomplished experts in digital media and game design, they will help you build connections and network with other professionals in the field.

**Glass**
During the past half century, the studio glass movement of the 1960s has bridged the gap between individual artists and craftsmen creating handmade functional glass objects to making one-of-a-kind sculptures. This melding of personal expression with the business of being a working artist has led to the exponential growth in private, artist-owned studios, community studios, and glass programs in universities including our BFA degree program at CIA.

**Train in Advanced Glass Techniques**
As a student in the Glass department, you will train in three main methodologies:
- Working hot glass which comprises glass blowing and off-hand, molten glass processes
- Working cold glass including cutting, fabricating, grinding, sandblasting and polishing
- Fusion processes such as casting, slumping, and bending

After you survey all basic methods during your introductory classes, you will explore various techniques and concepts before performing your own independent study and research individually tailored to your developing voice. You will do all of this under the guidance of our devoted Glass faculty, whose commitment to the art form has earned them international recognition as leading contributors to the medium.
Graphic Design
As our methods of communication become increasingly mobile, we rely more and more on design to communicate in creative and engaging ways. Our Graphic Design curriculum takes these dramatic changes that are transforming the graphic design industry and the importance of clear visual communication into account.

Examine a wide array of design processes
As a Graphic Design major, you will explore both innovative and traditional methods of graphic design—including typography, print and web design, package design, and signage. You will be introduced to forms, methods, conventional and experimental types of media, and concepts crucial to creative development, self-expression, and effective visual communication.

While we rely on the latest technology to build technical skills, our coursework allows you to explore and grow beyond these technologies. Your study will include:

- Editorial and publication design
- Event and exhibition design
- Interactive and motion graphics
- Print, marketing and advertising design
- Production techniques

As part of the Design Environment, you will also collaborate with Industrial Design and Interior Architecture students on projects both in the classroom and in the community. These opportunities as well as our integrated curriculum help you build valuable communication skills and develop techniques for presenting your ideas.

Illustration
As an Illustration major you will learn how to creatively translate conceptual ideas and emotions into visual imagery.

Acquire valuable job skills
Original thinking, the ability to formulate and express clear, relevant thoughts, and problem solving, are core skills we teach in our Illustration program. You will master a broad array of materials and techniques, ranging from pencils, acrylics, oils and inks, to contemporary collage, photographic, and digital processes. You will develop and complete projects in areas such as storytelling and advertising, editorial, and print illustration.

Experiential learning at its best
Draw inspiration for your work from field trips to professional studios and advertising agencies as well as from interactions with our talented visiting artists. Share your portfolio with employers, illustrators, and designers, who are invited each year to the Institute’s annual Illustration Spring Show.

Industrial Design
Our Industrial Design program consistently ranks as one of the top programs in the country. In fact, we are known for producing graduates who work at the top of their field, solving real-world problems and becoming successful entrepreneurs. Our alumni design consumer electronics, apparel, housewares, furniture, toys, automobiles, medical devices and many other products. Many of these designers become leaders within their organizations, helping to develop cutting-edge products and strategies, while managing teams that transform the way people work and interact. You use products designed by our graduates every day.

Build a foundation for a lifelong career
Our rigorous curriculum centers on research, conceptualization, and refinement, with a focus on critical thinking and applied innovation. This approach provides you with a strong understanding of the creative process, market forces, manufacturing, sustainability, and business practices. As an Industrial Design major, you will develop skills in visual communication, form development, and presentation, as well as strengthen your knowledge of manufacturing, ergonomics, and marketing. You also will study drawing, modeling, and computer-aided design, which are critical to developing and communicating ideas. Our goal is to balance your growth in fundamental knowledge and skills with your individual areas of interest.

Gain real-world experience in the classroom
Collaboration is an integral part of our program, and our faculty use solution-driven methods to teach broad design concepts and problems, and learn how to critically evaluate and refine solutions. You will work with students from other colleges, and other CIA programs, with professionals from international companies, who will expose you to real-world challenges. Each spring, you will participate in CIA’s annual Spring Design Show. This exhibition of student work will allow you to refine your presentation skills, gain first-hand exposure to industry practices, and network with professional designers.
**Interior Architecture**
Our Interior Architecture program emphasizes commercial, retail, architectural, and spatial design. As a student, you will study design processes, sensitivity and knowledge of material specification, and ethical problem solving. You also will learn presentation skills, including traditional rendering, computer-aided design (CAD), and 3D modeling.

**A real-world classroom**
Partnering with regional design firms is one of our program’s greatest strengths. These relationships provide Interior Architecture majors with exciting assignments, such as designing trade shows, restaurants, health care centers, auto dealerships, and museum, exhibition and showroom spaces.

Additionally, you will participate in materials workshops offered by leading furniture and materials manufacturers. Each spring, you will participate in CIA’s annual Spring Design Show. This exhibition of student work will allow you to refine presentation skills, gain first-hand exposure to industry practices, and network with professional designers. You will gain a perspective of the industry through lectures and symposia by award-winning designers, visits to top design firms in the region, and internships.

These experiential learning opportunities will strengthen your communication skills, demonstrate industry expectations, and improve your understanding of designer-client relations. They also create a learning atmosphere of collaboration, innovation, and community.

---

**Jewelry + Metals**
As a Jewelry + Metals major, you will study and build a thorough understanding of contemporary jewelry, metal work, and design to develop the knowledge, skills, and character to become a successful artist and designer.

**Innovative, interdisciplinary curriculum**
The Jewelry + Metals coursework begins with the fundamentals, techniques and materials for jewelry design and object making. The curriculum offers an exceptional breadth of opportunities to learn about materials, design, and technologies:
- Computer-aided design (CAD)
- 3D modeling and 3D printing
- Electroforming and plating
- Forming and fabrication
- Lost-wax casting
- Precious metal
- Stone setting
- Material studies + mixed media
- Traditional machining tools

And you will study the history of the field, contemporary attitudes towards jewelry, wearables, and objects of material cultural, the artists, designers, industries, and the exemplary work.

**Practice makes successful artists**
To grow as an artist, you will develop new skills, increase your knowledge, and broaden your experiences. Jewelry + Metals majors accomplish these goals through a range of experiences that include studio and research assignments, presentations, exhibitions, interactions with visiting artists, and field trips. Throughout the year, majors are encouraged to submit work to exhibitions and competitions including the CIA Student Independent Exhibition, the CIA Spring Show, Society of North American Goldsmiths competitions (SNAG), and many others.

---

**Painting**
Our department of Painting has a long and illustrious history of producing successful artists. As a Painting major, you will acquire a broad knowledge of the visual arts and an in-depth knowledge of painting as a studio practice.

**Prepare for life as a professional artist**
At the core of our coursework is an understanding of what it takes to be a professional artist. With this goal in mind, we provide our students with a solid foundation in technical and problem-solving skills, art criticism and theory, and contemporary practices in the visual arts.

As a Painting major, you will experience a wide range of approaches from abstract and figurative painting to alternative media and installation. Your work will be guided by our faculty of professional artists through individual and group studio critiques, workshops, seminars, and special topics courses. In addition, a series of special events such as exhibitions, artist visits, and scholar programs will present you with the issues, challenges, and practices you can expect to face during your professional life.

You will be tutored in creating a professional portfolio, developing grant-writing skills, and proper etiquette for successfully approaching dealers, curators, and collectors. You will learn how to set up your own professional studio in our Professional Practices program.

**Work in an exciting, collaborative atmosphere**
As part of the Visual Arts Environment, you will share in an integrated curriculum studying other disciplines within the environment.

Each spring, you have the opportunity to visit professional galleries and exhibitions in New York City, such as the Whitney Biennial and The Armory Show.
As a Photography major, you’ll learn to develop a distinct vision, to communicate effectively, while immersed in a creative, collaborative surrounding. Students benefit from the expertise of a diverse, professional and committed faculty. Coursework designed to expand intellectual discovery, creative practice, and technical proficiency, provides invaluable tools for a professional career engaged in the photographic arts.

Photography majors are encouraged to participate in exchange programs, international mobility studies, and pursue internships in both fine arts and commercial venues such as photographic studios, museums and galleries, video production and digital filmmaking industries. We also invite professional artists, critics, writers, collectors, curators, and museum and gallery directors to meet with students and critique portfolios.

**Photography + Video**
CIA offers a unique program for the Photography major to pursue focused studies with a concentration in Video or Photographic arts. This program coursework is designed to provide a rich and varied knowledge of techniques and aesthetics essential to photography, video and digital cinema through lectures and demonstration, assignments, critiques, and group or one-on-one discussion with instructors and visiting artists.

**Develop a range of photographic and video skills**
Photography majors work with an array of photographic and video imaging tools and equipment that includes digital and film cameras for both still and moving imagery, enlargers and darkroom equipment, optical scanners, archival and large-format inkjet printers, professional studio and lighting gear. Courses engage the student in all phases of the photographic workflow from image capture, lighting and editing, to image processing, enhancement, manipulation, and use of special effects and alternative photo imaging processes. Crucial too is the student’s exploration of media for image output, presentation options and professional standards for photographic and digital media archiving.

**A supportive, interactive environment**
As a Photography major, you’ll learn to develop a distinct vision, to communicate effectively, while immersed in a creative, collaborative surrounding. Students benefit from the expertise of a diverse, professional and committed faculty. Coursework designed to expand intellectual discovery, creative practice, and technical proficiency, provides invaluable tools for a professional career engaged in the photographic arts.

Photography majors are encouraged to participate in exchange programs, international mobility studies, and pursue internships in both fine arts and commercial venues such as photographic studios, museums and galleries, video production and digital filmmaking industries. We also invite professional artists, critics, writers, collectors, curators, and museum and gallery directors to meet with students and critique portfolios.

**Printmaking**
Printmaking is an approach to image making that embraces, utilizes, and challenges technology from traditional approaches of printing to online distribution of digital products. As a print student you can push and explore with your drawing, photographic, and mark-making skills. You’ll develop a broad base of knowledge of various print mediums, including relief, intaglio, lithography, screen printing, as well as digital media.

**Develop essential skills for the workplace**
Within Printmaking, you’ll have access to etching and lithography presses, as well as book arts, letterpress, and screenprint facilities. As you grow in the major, so too will your ability to produce distinct impressions and multiples, from hand-printed limited editions to unlimited digital prints. Through our studio courses you’ll develop a comprehensive approach to understanding, defining, making, and questioning your practice of printmaking. You’ll work with a committed group of faculty who are practicing artists widely respected for their knowledge and achievements, including a master printer. They will work with you to hone your skills and define your personal direction. You will be supported in creating a professional portfolio, developing grant-writing skills, and proper etiquette for successfully approaching dealers, curators and collectors. In addition, you will gain an understanding of how to set up a professional studio in our Professional Practices program.

**Enjoy a synergistic atmosphere**
Printmaking majors share in an integrated curriculum that provides a broad knowledge in the visual arts while strengthening in-depth conceptual knowledge of the Printmaking discipline. You’ll have opportunities to travel to professional conferences and Cleveland’s rich network of printmaking artist studios. On the annual visual arts trip to New York City, you’ll experience first-hand professional galleries and exhibitions such as the Whitney Biennial and The Armory Show.

**Sculpture + Expanded Media**
In Sculpture + Expanded Media, students explore how to use object-making, installation, time-based tools, performance, and digital technologies to create innovative work in the areas of sculpture and expanded media. Conceptual development is combined with hands-on exploration of materials, fabrication techniques, and emerging practices in order to support students to produce work relevant to their personal vision.

Courses in the department are a combination of theory and practice. Students are encouraged to develop approaches to making work that are transdisciplinary and explore how to work with audiences and communities. In the curriculum, students are encouraged to explore the creative potential of material, space, and interactive and time-based forms in order to create innovative work. Students will explore both traditional, appropriated and experimental processes to making art.

In the program, students will develop a set of constructive and technical skills by working in such areas as wood, textile and metal fabrication, mold-making, assembling, sewing and construction. Students are encouraged to further explore content in time-based art, installation, hybrid media, 3D modeling, and other forms.

Students are encouraged to develop technical skill, concept development, an understanding of emerging forms and genres, and to explore contemporary ideas and forms in order to develop a practice that integrates past forms with the vision of the future.

On the annual visual arts trip to New York City, you’ll experience first-hand professional galleries and exhibitions such as the Whitney Biennial and The Armory Show.
Section 3: Admissions and Financial Aid

The Cleveland Institute of Art offers 15 majors, your own dedicated studio space, and direct access to your professors through a 9:1 student-to-faculty ratio. We bring in artists and exhibitions from around the world and connect you with local and national businesses. And you’ll live, work, and learn in University Circle, Cleveland’s world-class cultural hub.
Admissions

First-time freshmen students
We admit first-time freshmen (candidates with no prior college experience) into degree-seeking status in the fall semester only.

We strongly encourage you to follow application deadlines to ensure admission to CIA and eligibility for the highest amounts of merit scholarships and institutional financial aid. However, you may submit an application for admission any time before the first day of classes on a "rolling basis" and will be considered, provided space is available.

As a first-time freshman candidate, you will be considered automatically for merit-based scholarships as long as all of your application materials have been submitted by March 1.

Your application should include:
- $30 application fee
- Personal statement outlining your reason for applying
- Official high school/college transcripts
- Letter of recommendation, preferably from an art teacher or counselor
- Official SAT or ACT test scores
- Portfolio of artwork

Application Process
1. Complete the application. You may apply online, or fill out an application form and mail it to our Admissions office.

2. Attach the $30 application fee.
   Make checks or money orders payable to the Cleveland Institute of Art.

3. Complete a personal statement,
   in which you describe your purpose for attending a college of art and design, what led you to this decision, and why you have chosen to apply to CIA. You may either fill out the personal statement prompt outlined in the application form or include a typed statement. If you send a typed statement, please sign the bottom of the personal statement form in the application.

4. Arrange to have your high school/college transcript(s) sent to the Office of Admissions. If you have successfully completed 24 college credits and attended a regionally accredited college or university full time for a year or more, you do not need to submit a high school transcript.

5. Forward a letter of recommendation to CIA. If you are a high school student, we suggest this letter be from an art teacher. We will also accept this letter from a counselor or someone who understands your desire to pursue an arts education.

6. Request that SAT or ACT test results be sent to CIA. Our identification numbers are SAT-1152 and ACT-3243.

7. Submit your portfolio of artwork. Work can be submitted online or on disc; your CIA admissions counselor will provide details about submitting online. Your portfolio should consist of no fewer than 12 and no more than 20 pieces of work. Please carefully follow our portfolio guidelines, found at: cia.edu/portfolio.

8. Send all application materials to:
   Office of Admissions
   Cleveland Institute of Art
   11141 East Boulevard
   Cleveland OH 44106

Transfer Students
Students who have attended accredited four- and two-year colleges or universities, and post-secondary professional schools are encouraged to apply as transfer students. Transfer students applying for the fall semester will be reviewed for scholarships beginning May 1 and will be considered as long as their complete applications are received by June 15. Students intending to transfer in the spring semester will be reviewed for scholarships beginning November 15 and will be considered until January 1.

Transfer Student Application Process
Transfer candidates are accepted at CIA based upon artistic and academic qualifications as well as available space. To be considered, transfer candidates should follow standard application procedures and criteria. Transfer applicants also must adhere to the additional guidelines below:

1. Submit official transcripts from all colleges, universities, and post-secondary schools attended.

2. If you have completed less than 24 college credits, you will also need to submit official high school transcripts.

3. If you have completed more than 24 hours or attended a regionally accredited college or university full time for a year, you do not need to send your high school transcripts.

4. If you have completed less than 12 college credits, please also request your SAT or ACT test results are sent to CIA. Our identification numbers are SAT-1152 and ACT-3243.
2. If you are an international transfer student and English is not your native language, you must demonstrate proof of English language proficiency with one of the following:

- TOEFL (Test of English as a Foreign Language) score of at least 525 PBT (paper-based test), 213 CBT (computer-based test), or 79 IBT (Internet-based test)
- IELTS (International English Language Testing System) band score of 6.0 or higher
- SAT or ACT test scores
- Completion of Level 112 ESL coursework

*International students with TOEFL scores lower than those listed above may be admitted conditionally, and will be required to take additional ESL coursework or tutoring in order to improve their English skills during their time at CIA. Conditions for admission of these students will be made on a case by case basis. Students should inquire in the Admissions Office to determine their eligibility for conditional admission.

3. One letter of recommendation.
   The letter preferably should come from a faculty member or counselor who knows your artistic and academic work well and understands your desire to become a working artist.

4. Submit your portfolio.
   In addition to our portfolio guidelines, please make sure to provide the specific elements required of transfer students, found at: cia.edu/portfolio.

5. Send all application materials to:
   Office of Admissions
   Cleveland Institute of Art
   11141 East Boulevard
   Cleveland OH 44106

---

International Students

The Institute is especially pleased to receive applications from international students as we believe you contribute greatly to the school community.

As an international student, we recognize your concerns about adjusting to cultural, social, and environmental changes. Therefore, our Office of Student Affairs and International Programs staff will help you adapt to life at CIA and serve as a hub of helpful information for you.

If your native language is not English, you must demonstrate proof of English language proficiency in addition to satisfying all admissions requirements. As an international student, you also are required to submit an International Student Supplemental form and a Certification of Finances form with your application.

International student application process

International students should adhere to the same admission procedures, deadlines, and portfolio guidelines as first-year freshmen or transfer applicants. International applicants also must adhere to the additional guidelines below:

1. Download and complete an International Student Supplemental Application form.
2. Download and complete a Certification of Finances form.
3. If English is not your native language, demonstrate proof of English language proficiency with one of the following:
   - TOEFL (Test of English as a Foreign Language) score of at least 525 PBT (paper-based test), 213 CBT (computer-based test), or 79 IBT (Internet-based test)
   - IELTS (International English Language Testing System) band score of 6.0 or higher
   - SAT or ACT test scores
   - Completion of Level 112 ESL coursework

*International students with TOEFL scores lower than those listed above may be admitted conditionally, and will be required to take additional ESL coursework or tutoring in order to improve their English skills during their time at CIA. Conditions for admission of these students will be made on a case by case basis. Students should inquire in the Admissions Office to determine their eligibility for conditional admission.

4. Send all application materials to:
   Office of Admissions
   Cleveland Institute of Art
   11141 East Boulevard
   Cleveland OH 44106

If you have any questions about our application process, please contact our Office of Admissions.
U.S. Veterans
The Cleveland Institute of Art encourages U.S. veterans to apply.

Yellow Ribbon program
We are participants in the Yellow Ribbon GI Education Enhancement Program (Yellow Ribbon Program) and are fully approved. At CIA through the Yellow Ribbon Program provision of the Post-9/11 GI Bill, eligible U.S. veterans and their dependents may qualify for an opportunity to receive fully funded tuition.

Program benefits
Between the GI Bill, CIA’s contribution, and a matching contribution from the U.S. Department of Veteran Affairs (VA), our Yellow Ribbon Program benefits cover four full years of tuition for qualifying students. We are proud to offer the largest benefits of any Ohio art school, and one of the best among America’s specialized art and design colleges (AICAD).

How the program works
Signed into law in 2009, the Post-9/11 GI Bill pays for in-state public tuition and fees for eligible U.S. veterans, service members, reservists, and National Guard members, and it may be transferable under certain circumstances to a spouse or dependent. The Yellow Ribbon Program supplements the GI Bill by allowing private or out-of-state schools with higher tuition to contribute additional funds that are matched by the VA. The Post-9/11 GI Bill offers the most comprehensive education benefit package since the original 1944 GI Bill, which funded education or training for 7.8 million World War II veterans.

Special Admissions Students
At CIA, we recognize that you may have unique circumstances, and we are open to exploring your options as a potential candidate. Depending on qualifications, such as an aptitude for art, we will accept applications from:
- Home-schooled students
- Non-degree seeking students
- Part-time students
- Re-admissions students (i.e., students who withdrew or took a leave of absence from CIA)
- Probationary admissions students (i.e., any applicant judged generally admissible, despite academic or English deficiencies)
- Vocational rehabilitation students

Returning Students
Students wishing to return to CIA after a leave of absence or withdrawal must complete a returning student application. Generally, a portfolio review is not required unless the student seeks advanced placement.

Students who applied to CIA within the last three years but never enrolled must complete a reactivation application.

Students who are interested in taking classes at CIA but do not wish to pursue a degree must complete a non-degree student application.

All other students should follow our standard admission procedures and criteria. For guidance on how to assemble your application materials, we suggest contacting one of our CIA admissions counselors.

Pre-College Program
CIA’s annual summer Pre-College Program is open to all students who will be entering their sophomore, junior, or senior year of high school. This two-week-long residential program is designed to reflect the life of an art student attending an art college to obtain their Bachelor of Fine Arts degree. Students who successfully complete this program earn three undergraduate credits from the Cleveland Institute of Art.

For more information, visit cia.edu/precollege.
Financial Aid

We understand that paying for college is complicated. At the Cleveland Institute of Art, we pride ourselves in offering a personal touch to a potentially confusing process. We are ready to clarify tricky topics, answer questions, discuss any concerns regarding your ability to afford CIA, or consider special financial situations.

The Office of Financial Aid is committed to helping you find ways to close the gap between the cost of attending the Institute and your ability to fund your education. We will work with you to craft a personalized financial aid package that combines any available Institute-sponsored aid, federal aid, scholarships, loans, work-study programs, and more.

As you begin to make important choices, keep in mind: An impressive 99 percent of CIA students receive financial assistance.

How does the financial aid process work at CIA?

Once you have received an acceptance letter from CIA, you may be eligible for federal financial assistance if you:

- are a U.S. citizen;
- have a high school diploma or general equivalency credentials (GED);
- have registered for the draft if you are a male between ages 18 and 26 (see sss.gov);
- maintain satisfactory academic progress;
- qualify for need-based assistance through the Free Application for Federal Student Aid (FAFSA)

If eligible, you will need to complete the FAFSA by March 15 of each year.

Application process and timeline

Our financial aid counselors are committed to finding ways to close the gap between the cost of attending the Institute and your family’s ability to pay for the excellent education that we offer. Learn more about how to apply for financial aid, our financial aid timeline and checklist, disbursement of financial aid, bill payment online at cia.edu/financialaid.

If you have any questions or need additional assistance, please contact our Office of Financial Aid. We look forward to helping you in whatever way we can to make this often confusing process as easy and simple as possible.

Applying for Financial Aid

Once a student applies for admission and is accepted to CIA, and submits a FAFSA at fafsa.ed.gov, a review to determine eligibility for financial aid occurs based on the data submitted on the FAFSA. A financial aid award letter is prepared and mailed to the student. In addition to the letter, we also enclose our Financial Aid Award brochure.

Note: You must re-apply for federal, state and CIA need-based student aid annually by completing the FAFSA every year.

Note: If you transfer to CIA mid-year, your aid from the school you previously attended does not transfer automatically with you.

Free Application for Federal Student Aid (FAFSA) fafsa.ed.gov

You should complete the FAFSA online (CIA’s FAFSA code is 003982). FAFSA results are applicable to all institutions, so complete the FAFSA regardless of whether you have decided which institution you plan to attend. To apply online, you’ll first request a personal identification number (PIN) at pin.ed.gov. Make sure you save your PIN, as you will need it to complete the FAFSA each year you attend CIA, to be considered for need-based financial aid. You also will need a PIN for one of your parents if you are considered financially dependent on your parents.

Once your FAFSA is processed by the Department of Education, you will receive an email with a link to your Student Aid Report which has your expected family contribution (EFC). Your EFC is based on a standard formula established by Congress, and is used as a measure of your family’s financial strength. Your financial aid award is based on your EFC, and the date your FAFSA is processed, so it is important that you complete the FAFSA as soon as possible after January 1 each year.

Dependency Status

If federal guidelines determine that you are financially dependent on your parents, you must include parent information when you file the FAFSA. You are considered to be dependent unless you are one of the following:

- 24 years of age as of January 1
- Married
- A graduate or professional student
- Responsible for a legal dependent other than a spouse
- On active duty or a veteran of the U.S. Armed Forces
- An orphan or ward of the court (currently or formerly)
- Determined at any time after July 2013 to be an unaccompanied youth who was homeless or were self-supporting and at risk of being homeless as determined by your high school or district homeless liaison; the director of an emergency shelter or transitional housing program funded by the U.S. Department of Housing and Urban Development; or the director of a runaway or homeless youth basic center or transitional living program.

In unique instances, you may be able to demonstrate that you are independent. For your dependency override appeal to be considered for independent student status, you must provide specific documentation of these circumstances. In such a case, we recommend you meet with a financial aid counselor to discuss your situation.
FAFSA Verification
In some cases, your FAFSA may be selected by the U.S. Department of Education or by CIA for a process called verification, in which the answers submitted on your FAFSA will be verified against requested tax forms and other documentation to ensure accuracy. Your financial aid award will remain “estimated” until verification is completed. Students selected for verification will be sent a verification form which must be completed and returned to the Office of Financial Aid.

Estimated Family Contribution
We award financial aid after reviewing eligibility by subtracting your expected family contribution (EFC) from your cost of attendance, or COA. The direct and indirect costs of your education comprise your COA. Once your financial aid eligibility is determined, we will create a personalized financial aid package and send you an award letter.

Special Circumstances
In some instances, you may request a re-evaluation of your financial aid eligibility. Examples of special circumstances include:

- unusual medical expenses, loss of employment, loss of taxable or non-taxable income;
- private tuition expenses for primary or secondary schooling;
- expenses for a parent attending college that are not reimbursed;
- change in parent’s marital status;
- unusual dependent care expenses;
- death of a parent;
- divorce or legal separation;
- natural disaster expenses not covered by insurance.

To request a re-evaluation of your financial aid eligibility due to a special circumstance, submit a Special Circumstance Form.

Cost of Attendance
The Cost of Attendance (COA) is the combination of direct and indirect costs associated with attending college. It is used with the calculated estimated family contribution (EFC) from the data reported on the FAFSA to determine financial aid eligibility. You may receive financial aid including student loans up to the total cost of attendance. Financial aid disbursed to your account in excess of your direct costs will be refunded to you.

Direct Costs
All students are sent a bill from the Office of Student Accounts each semester which includes tuition based on full-time enrollment and also mandatory institutional fees including lab fee, technology fees, health service fees, student activity fees, and an orientation fee (Fall semester only). These expenses are posted on every spring for the upcoming academic year at cia.edu/tuition.

Additionally, most freshmen (except those from Cuyahoga County, Ohio, who choose to commute), will also have room and board expenses for living in our residence hall. These fees are posted every spring on cia.edu/tuition.

Indirect Costs
Books and supplies, transportation, and personal expenses are costs that each student will incur. However, these costs (expenses) are associated with attending CIA but are not billed through CIA. They are included in the Cost of Attendance. Students who live off campus in an apartment or other type of rental unit and commute to CIA, or students who commute from their parent’s or relative’s home also have food and other expenses. An estimate of these costs are also included in the Cost of Attendance.

To request a re-evaluation of your financial aid eligibility due to a special circumstance, submit a Special Circumstance Form.

Disbursement of Financial Aid
Financial aid awards will not be disbursed or posted to your student account until the Office of Financial Aid receives your signed Financial Aid award letter confirming acceptance of the award. You can also accept your financial aid awards online using NetPartner at netpartner.cia.edu.

Disbursement will be made to your student account after the start of each semester when your financial aid file is complete. For your financial aid file to be considered complete, you must have returned all required and requested forms to the Office of Financial Aid, and have registered for classes. Please follow the instructions and paperwork included with your billing statement to deduct all awards from your account balance.

Bill Payment
For questions pertaining to your billing statement or about making payments, please contact the Office of Student Accounts by calling 216.421.7318.
Scholarships
The Cleveland Institute of Art offers many merit-based scholarships. Scholarships are awarded through our academic departments, the Office of Admissions, and the Office of Financial Aid. Some sophomores, juniors, and seniors receive more than one scholarship. Scholarships do not need to be repaid.

CIA merit-based scholarships awarded to incoming students are based on merit (a student’s grades); test scores; talent and artistic ability, demonstrated through your portfolio. Newly admitted freshmen and transfer students are automatically considered for CIA merit-based scholarships when their application for admission and other admission documents are reviewed. No separate scholarship application is required.

CIA merit-based scholarships awarded include:
- Full-tuition CIA President’s Scholarships
- CIA Gund Family Scholarships (ranging from $10,000 to $20,000)
- CIA Dean’s Scholarships (ranging from $6,500 to $8,500).

Scholarship recipients must be enrolled full-time. CIA merit-based scholarships are renewable, provided recipients maintain the minimum cumulative grade point average (GPA) as outlined in each scholarship recipient’s scholarship award letter.

Department scholarships and awards
During the spring semester, individual academic departments award scholarships to students currently enrolled at CIA. Award winners typically are chosen by a faculty from each department. Winners are announced at the CIA Awards Ceremony held every spring semester.

Some academic departments offer scholarships that are both merit and need-based. To be considered for department scholarships which are merit and need-based, students must submit their FAFSA by the March 15 priority deadline.

Students are only eligible for scholarships for four years.

CIA Financial Aid Office Promise
We promise to assist you in achieving your educational goals by providing guidance and support in paying for your education. Through teamwork, we will promote professional and technical enhancements in an effort to be timely and accurate in the administration of financial aid. Each employee in the Office of Financial Aid is held to the highest ethical principles as defined by our code of conduct.
Section 4: Academic Policies, Procedures, and Services
Statement and Policies

Statement on Freedom of Artistic Expression
The Institute believes in freedom of artistic expression. Artistic freedom is vital to both the cultural and political health of our society. It is essential to a democracy that values and protects the rights of the individual to espouse his or her beliefs. The Institute’s responsibility for and dedication to securing the conditions in which freedom of artistic expression can flourish extends to all forms of artistic expression, including fine arts, design, literature, and performance.

The opportunity to display or perform works of art at CIA is made available through several academic processes and procedures in which faculty members, students, and other duly appointed individuals exercise their best professional judgment. Among these procedures are selection of gallery shows by the Gallery Committee; selection of artwork for student shows by selected appointed outside jurors; and performances/presentations as part of approved curriculum. Such authorized displays or performances, no matter how unpopular the work might be, must be unhindered and free from coercion. Members of the CIA community and guests must reflect in their actions a respect for the right to communicated ideas artistically, and refrain from any act that would cause that right to be abridged. At the same time, the Institute recognizes that the right of artists to exhibit or perform does not preclude the right of others to take exception to particular works of art. However, CIA is not a barrier-free campus. Students with special needs or concerns should contact the Office of Academic Services. Visitors should contact the Facilities Management and Safety Office.

Assessment
The Cleveland Institute of Art, like other colleges and universities, is required by its accrediting associations to evaluate the success of its curriculum on a regular basis; this process is called “assessment.” During your time here at CIA you will participate in a variety of assessment activities. You will probably encounter your first assessment activity during your orientation, and your BFA exhibition will be your last assessment point as a student. There are other times in your college career (and as a CIA graduate) when you will be part of the CIA’s ongoing assessment. Your participation will be helpful in ensuring that CIA’s programs and services meet your needs and those of future students.

The assessment process looks at student work as part of the evaluation of the CIA’s education program.

Assessment in no way affects your grades; there is no way to prepare for assessment tests or reviews, or expectation thereof.

The faculty uses this information to evaluate the courses they teach and their departments, and to make any changes indicated by the assessment information.

Non-Discrimination Policy
It is the policy of the Cleveland Institute of Art, in accordance with the provisions set forth by Title IX of the 1972 Education Amendment Act and Section 504 of the Rehabilitation Act of 1973 and other federal regulations, not to discriminate on the basis of race, color, creed, national or ethnic origin, gender, sexual orientation, age or disabilities, in employment practices, administration of educational policies, admission, scholarship and loan programs, and other college-administered programs and activities.

Physical Challenges
The Institute’s buildings and facilities are equipped to accommodate students, faculty, staff, and visitors with physical handicaps. However, CIA is not a barrier-free campus. Students with special needs or concerns should contact the Office of Academic Services. Visitors should contact the Facilities Management and Safety Office.

Course Expectations
Course Syllabi
At the beginning of each course, you will receive a syllabus that contains attendance policies; the course description; a schedule of topics to be covered, assignments; expected outcomes; grading guidelines; behavioral expectations; materials needed; and other information about the faculty member and course that provide a full picture of the course and its requirements. The syllabus may be distributed by paper or electronically and will be conveyed during the first meeting of the class. You should expect that faculty will conduct their class in accordance with the published course information. In addition, the Office of Academic Affairs maintains a file of all course syllabi.

Course Attendance
It is in your best interest to attend all sessions of classes in which you are registered and to attend all associated lecture programs and meetings. Your progress as an artist depends not only on completion of assignments but also on full participation in dialogue with studio and academic classes. Each faculty member has discretion in taking attendance and penalizing habitual absences or tardiness, and will advise the class about what will be considered acceptable attendance for the purpose of grading. More than three weeks of class absences may result in failure.

Four weeks of absences will result in failure. You must notify your faculty member if you will miss a class, and the Office of Academic Services if you will miss more than one class. If you have a problem with missed classes, meet with an Academic Services staff member to discuss your options. Individual faculty members may require written documentation of your illness or injury. Note that Student Health Services (SHS) does not provide documentation for class excuses. Under certain circumstances, SHS will give you written verification of the date of your visit to their office. If you are hospitalized or have an extended illness, you should give permission to a staff member in Academic Services so they can communicate with SHS and the hospital regarding your illness and assist you. You should contact your instructor(s) as soon as possible after an
unavoidable absence. An unexcused absence from a final critique or exam will result in automatic failure of the course. You are required to notify the Office of Academic Services prior to missing a final exam or critique.

**Appropriate Dress for Comfort and Safety**
Due to the nature of the work at CIA, how you dress each day may vary. Appropriateness of how you dress is best determined by the kind of work involved. For health and safety reasons, shirts, and footwear are required.

**Coursework and Assignments**
Coursework (including in-class projects, homework, and written assignments) is assigned by instructors in relation to the requirements and learning objectives for each course. Coursework completed for one instructor’s class may not be turned in for credit for another instructor’s class, unless approval has been granted in writing by all instructors involved. Instructors may approve such a written request based on the following considerations:

1. The proposed project is interdisciplinary in nature and concept, and actively seeks to work across instructional areas in order to integrate a range of media, forms, and/or techniques.
2. The scope of the proposed project is ambitious and will satisfy learning objectives and requirements in different but complementary ways for each class.
3. The objectives and requirements must be clarified in writing by the student and all instructors involved.
4. The student understands that such a project will be evaluated separately by each instructor involved.
5. The student must also define how and where the different and complementary aspects of their proposed project fulfill separate requirements for each class. This will define the grading criteria for individual instructors to assign separate grades for the larger project.

**Class Trips**
Faculty may conduct instruction-related trips or tours that require students to travel away from the Institute and be absent from scheduled class times for courses other than the one for which the excursion is intended. Students must notify the instructors whose courses that will be missed. In addition, all students must sign an approved release form, in advance of the trip, that declares that they will not make a claim against the Institute or its personnel/representatives for injury or damage sustained while on the trip. Release forms will be provided by your instructor, and should be returned to your instructor at least a week before the trip. All CIA policies are in effect during sponsored excursions away from campus.

**Course Credit**

**Credit Definition and Accumulation**
All credit-bearing courses offered by the Cleveland Institute of Art are offered on a semester credit hour basis. The fall and spring semesters are each 16 weeks in duration, including 15 weeks of instruction and one week of studio critiques/final examinations. In the spring semester, an additional week of academic activity is added after crit/examination week to accommodate BFA reviews and exhibitions.

Three-credit studio courses meet once a week for a five-hour clock day. Students spend at least 6–8 hours in outside work each week for each studio course taken. Three-credit liberal arts classes meet for a total of 2.5 hours per week. Students are expected to spend two hours in preparation for each liberal arts class hour each week. For internships, three seminar hours are earned for a minimum of 120 hours on the job. For information on specific courses or guidance on scheduling, contact the Office of Academic Services.

Completion of the Institute’s degree requirements in four years assumes that a student consistently carries the normal credit load of 15-18 credits per semester.

The normal load for a degree-seeking student is between 12 and 18 credits per semester. If you have a GPA of 3.5 and above, you may schedule more than 18 credit hours in a semester, and will be charged the per-credit-rate for the number of credits taken over 18. You must see an academic advisor to get permission to register for more than 18 credits.

The number of credits accumulated toward your degree is evaluated regularly by the Registrar’s Office. Students showing credit deficiencies on their records are notified in writing prior to course selection for the next term and must meet with an academic advisor. It is your responsibility to maintain standard progress toward the degree and keep track of curriculum requirements. All degree-seeking students receive credit standing updates each semester from the Registrar’s Office prior to course selection for the next term.

**Credit by Portfolio Review (CPR)**
The intent of the Credit by Portfolio Review process is to allow students an opportunity to have a body of work, completed outside of scheduled course requirements, reviewed for possible credit within the CIA curriculum. It is NOT designed to enable students to avoid taking a required CIA course or to achieve credit for a course that they have failed or for which an “Incomplete” has turned to an “F.”

You may complete a body of work outside of scheduled course requirements (e.g. during a study abroad experience or through a non-credit internship) that you believe parallels the work that is produced within a course at CIA. To get the requirements for the portfolio and arrange a review by faculty, you should contact the Office of Academic Services (OAS) by the end of the first week of the semester in which the review is desired. After receiving the required materials from the OAS, the Chair of the appropriate Major will conduct the review and notify you of the outcome and return the signed form and materials to OAS. If credit is to be awarded, OAS will notify the Registrar and the review will become part of your permanent academic record. You may not request a review under this process for the same course more than once.
Applications for Credit by Portfolio Review for Transfer students must be made within the first semester of enrollment at CIA. Work already used to gain credit for another course or by other means may not be used to gain credit through CPR.

All Foundation requirements must be completed before you will be allowed to begin the final year’s coursework associated with preparation for the BFA culminating project. Thus it is critical that if you wish to apply for CPR for any Foundation course, you complete this process before you complete the third year of the degree program.

A fee of $100 per credit awarded will be charged for the Credit by Portfolio Review process whether the credit is granted or not.

**Transfer Credit**
Credit for college courses taken before enrollment at CIA is evaluated at the time of admission to CIA and accepted credits become part of the CIA academic record.

If you wish to take a course at another college and apply the credit toward your CIA degree, you must have the course approved by CIA prior to registering at the alternate school. Start the approval process at the Registrar’s Office. If the course description has been previously approved, the Registrar will give you a Transient Student Form which will indicate approval of the course by CIA and can be presented to the college where you take the course.

If the course must be reviewed by CIA faculty before it can be approved, you may be required to obtain a syllabus or other information about the course for faculty review. Once the approval is made, you will obtain the Transient Student Form and can bring it to the other college you attend.

The evaluation and approval of a course for credit is the responsibility of a faculty member from the appropriate major or discipline. If the course is acceptable as a substitute for a CIA requirement, then the reviewing faculty member indicates the acceptability and how the course credit will be applied toward the student’s degree program.

Actual evaluation of transfer credit requires that an official transcript be received from the college where the course was taken, and that the grade achieved is a “C” (2.0 on a 4 point scale) or better. The Registrar is responsible for determining if the transcript is official, and for recording the credit toward the degree requirements upon recommendation of the faculty. An inventory of approved courses is maintained in the Registrar’s office.

For currently enrolled students, CIA will consider transfer credit toward liberal arts courses from any accredited institution in the U.S. that has been passed with a “C” or better (“Pass” or “Satisfactory” grades will not transfer) and fulfills a degree requirement (per faculty approval) at CIA.

Current students may gain studio or liberal arts credit for courses taken at a NASAD-accredited college if the grade is a “C” or better, and the course is pre-approved and fulfills a degree requirement at CIA. Contact the Office of Academic Services for a list of NASAD-accredited programs.

Exceptions to any of the above methods of securing transfer credit must be approved by faculty. The Registrar’s Office is the starting point for this process. Official transcripts for all courses taken external to CIA must be sent directly to the Registrar’s Office before transfer credit can be applied to your record.

**Academic Variance**
For specific reasons, you may ask to take a lighter course load or change/substitute courses within your required program of study. You must submit a course waiver/substitution form with the signature approval of your department chair and the Vice President of Academic Affairs and submit the form to the Office of Academic Affairs. If you are a first-year student, your request will be reviewed by the Director of Academic Services. Course substitution forms are available from the Registrar or Academic Services.

**The Foundation Program**
The Foundation program is designed to provide a basis for advanced study in every major through studio and liberal arts courses.

Transfer students will meet with an advisor during the admissions process and plan a timeline for completion of all Foundation coursework. Any student who is out-of-sequence in program requirements or has Foundation deficiencies must meet with an academic advisor before registration each semester until all deficiencies are met.

Transfer and returning students may have special circumstances which impact their ability to follow the above timeline. Such students will be evaluated during the admission process and notified of any deficiencies. A timeline will be set with an academic advisor or major faculty member for completion of all FND requirements.

All students must complete Foundation studio requirements by the end of the third year. Those deficient in studio Foundation courses will not be permitted to begin the senior year thesis/BFA preparation course(s).
If you enter a major with deficiencies in Foundation (FND) studio classes, the following will apply:

1. All FND studio credits must be completed by the end of the first year of the major.
2. If you enter a major with a FND studio deficiency, you will be placed on "Foundation Warning" via a letter from the Office of Academic Services. You will work with your advisor to address the deficiency as soon as possible.
3. If you finish the second year of the major (third year of the curriculum) and still have a FND studio deficiency, you will be placed on "Foundation Probation" and will not be allowed to enroll in fourth (senior) year courses until the FND deficiency(s) is complete. You may appeal "Foundation Probation" sanctions to the Academic Review Committee if you feel that extenuating circumstances exist that prevent you from fulfilling the FND requirement. Appeals must be in writing and be received by the Director of Academic Services at least one week prior to the first day of classes of the following semester. A meeting with the Director of Academic Services is strongly recommended prior to submission of the appeal.

Enrollment and Registration

Enrollment Status
If you have been admitted to study toward the BFA degree, you are considered a matriculated student. Individuals in the process of meeting admission requirements and those whose objective is not a degree are classified as "special," or non-matriculated students.

You may enroll as full-time (minimum of 12 credit hours per semester), part-time (fewer than 12 credit hours in a semester), or on a special non-degree basis. If you wish to change your enrollment status, you should consult with an advisor in the Office of Academic Services. A change from full-time to part-time or non-degree status may affect eligibility for scholarships and/or financial aid.

Certification of Enrollment
The Registrar is responsible for certification of enrollment and verification of degrees awarded. If you need to show that you are a full-time student or are otherwise enrolled, contact the Registrar’s Office. Allow two to three days for processing your request.

Registration
Registration at CIA has two components: course prescheduling and tuition payment. Both components must be completed each semester before you will be considered as an enrolled student at CIA. If you have not completed course prescheduling and tuition payment by the end of the registration period (first week of classes), you will not be permitted to enroll for that semester and cannot attend classes. All students must register regardless of financial aid being received or anticipated. You may not attend classes until your financial obligations to CIA have been satisfied. Online course scheduling is available for continuing students.

New students who are attending college for the first time (including those who took college-level courses before graduating from high school) receive their course schedules the month before their first semester at CIA. If you have transfer credit, AP, IB, CLEP, or other college-level coursework, meet with an advisor in Academic Services during the summer to START program to determine your first schedule of classes.

If you enter CIA as a transfer student, your transcript(s) and portfolio will be evaluated by the Registrar, the Foundation Environment Chair, and the Chair of the major department (if placement beyond the first year is sought) for determination of transfer credits and year placement.

If you are placed beyond the first year, you will meet with an advisor in the Academic Services office during the summer START program or sometime prior to the start of the semester of entry to determine your first semester of courses. Schedules for first-year students are set by the Registrar, with any transfer credits received taken into consideration.

Course prescheduling for the next semester’s classes occurs in November for Spring and in April for Fall semester. Advisors and faculty are available to assist in course selection. Making a course schedule means that you will receive your tuition bill and can thus pay it by mail or online. Scheduled courses must be paid for before you will be considered as registered for those courses. If you have not completed the two-component registration process by the first day of class, your prescheduled courses will be cancelled. If you have reserved courses and are in good standing, you may use your CIA library card between semesters.

Adding, dropping, or withdrawing from a course
During in-person registration week and the first five days of each term, you may add or drop courses. Courses added during this period are simply added to your course load (you must see an advisor if you want to take more than 18 credits). Dropped courses will not appear on your transcript. (Courses from which you withdraw between the end of the drop/add period and the end of the withdrawal period appear on the transcript as a “W”; withdrawals after the specified period [see the Institute calendar] will appear as an “F.”) You may drop or add a course using the myCIA.edu portal. Either of these activities must be initiated by you. It is your responsibility to be sure that you are meeting your graduation requirements.
If you are unsure about dropping a course, it is highly recommended that you meet with an advisor before you initiate a course drop. No refunds or additional charges will be incurred if you remain within 12–18 credit hours. See the refund timeline and policy below.

You may withdraw from a course through the tenth week of the semester. Course withdrawal forms must be completed and are available from staff in the Registrar and Office of Academic Services. The form must be signed by the course instructor, the Registrar, and an academic services advisor. Withdrawals from Foundation courses also require the signature of the instructor and the Foundation or Liberal Arts chair. Withdrawal after the tenth week will not be permitted unless there are extenuating circumstances. If you withdraw from a course after mid-term grades are recorded, a “W” will appear as the final grade but the mid-term grade will be recorded. If the course from which you withdrew is required in your curriculum, the course must be repeated. Withdrawing from a course may affect current or future scholarship and/or financial aid eligibility. Contact the Director of Financial Aid for guidance on this point.

Withdrawal and Leave of Absence

Official Withdrawal

When a student withdraws from a school, the U.S. Department of Education has very strict rules that financial aid offices must follow to determine the amount of funding that a student earns as of the date of his/her withdrawal. Funds that are not earned must be returned to the U.S. Department of Education and other sources of funding. The rules require that the school determine the last day the student attended class. At CIA, the date of withdrawal is established by the last date the student attended class as reported by faculty to either the Registrar or the Academic Services Offices.

Students who withdraw from all courses and leave either the residence hall or CIA upperclass apartments, will be charged for tuition, applicable fees, room and board (meal plan) based on the following schedule:

- 10% of tuition, applicable fees, and room charges will be charged if the withdrawal date (last date student attended class) is during the first or second week of the semester.
- 50% of tuition, applicable fees, and room charges will be charged if the withdrawal date (last date student attended class) is during the third or fourth weeks of the semester.
- 75% of tuition, applicable fees, and room charges will be charged if the withdrawal date (last date student attended class) is during the fifth through eighth weeks of the semester.
- 100% of tuition, applicable fees, and room charges will be charged if the withdrawal date (last date student attended class) is after the eighth week of the semester.

Note: board charges will be calculated by Case Western Reserve University.

The date of withdrawal is provided to the Office of Financial Aid to determine the percentage of the term the student completed. Based on the date the student last attended classes, the Office of Financial Aid is required by the U.S. Department of Education to determine how many days of the semester passed when the student stopped attending class. This number is divided into the number of days in the semester which the student was attending to determine the percentage of the semester the student completed.

If the withdrawal occurs after 60% of the term has elapsed, no return of federal funds is required. The Office of Financial Aid calculates the return of funds using a federally-prescribed formula. Funds will be returned in the following order:
- Federal Direct Unsubsidized Loans,
- Federal Direct Subsidized Loans,
- Perkins Loans,
- PLUS Loans.

If funds remain after repaying all loan amounts, the remaining funds are repaid to Pell Grants and Supplemental Educational Opportunity Grants. If funds remain after repaying all federal loan and grant funds, the remaining funds are repaid to State aid programs, private programs and any CIA funded sources of financial aid accounts.

Students and their families should be aware that the requirement to return federal, state or CIA funded assistance might result in a balance due to the Institute; the student and/or his or her family is responsible for paying any balance resulting from the return of federal, state, private, or CIA-funded assistance.

Questions about tuition refund calculations based upon withdrawal from the Institute should be referred to the Office of Student Accounts. Any balance due resulting from the recalculation of tuition and fees and the reduction of aid is due and payable in full. A revised tuition statement will be sent once costs and aid are adjusted. Payment options will be disclosed then if a balance remains due. Withdrawal from the school does not relieve the student of his/her financial responsibility to CIA.
Course Withdrawal
Because tuition is normally assessed on a comprehensive basis, no refunds are issued when a student withdraws from one or more courses while remaining enrolled at CIA.

Unofficial Withdrawal results when a student stops attending classes without official notification to the Office of Academic Services. Unofficially withdrawn students will be charged 100% of tuition, fees, room and board regardless of when the student stopped attending classes.

Involuntary Withdrawal In instances where students may be unable to function academically, or their physical or emotional health may endanger themselves or others, CIA reserves the right to separate them from the Institute so that they may seek appropriate care.

In all cases of student withdrawal, stipulations may be applied for readmission. These may include, for instance, coursework at another institution or documentation from a medical professional of readiness to resume a full course of study.

Students interested in returning to CIA are required to complete a formal application for readmission; the form is available on the Admissions website. Students who are reinstated will be expected to follow the curriculum in place at the time of their return.

Please note the following deadlines for readmission: July 15 (Fall) and December 1 (Spring).

Leave of Absence
A “leave of absence” is defined as an absence from CIA of one semester or less. Students who are in good academic and financial standing may request a leave of absence from the Institute and are required to meet with an adviser in Academic Services to complete the process. In some cases, stipulations may be applied for their return to school. Students on a leave of absence should contact Academic Services to arrange for their readmission.

Members of the U.S. armed forces receiving military benefits who are called into active duty will be granted a leave of absence for the duration of their service. They should contact Academic Services when they are ready to resume their studies.

The following readmission deadlines are recommended for all students, and required for students with stipulations for their return: July 15 (for Fall semester), and December 1 (for Spring semester).

Academic Implications of a withdrawal or a leave of absence
In cases where students take a leave of absence or withdraw before the withdrawal deadline (end of week #10 of the semester), their courses will appear on the transcript with a “W” designation. There will be no academic credit earned.

In cases where students take a leave of absence or withdraw after the withdrawal deadline (end of week #10 of the semester), their courses will appear on the transcript with “F” grades. Any exception to this policy would occur when a “late withdrawal” is approved by the Vice President of Academic Affairs, following a successful student petition. Such withdrawals are approved only in exceptional cases.

Readmission
Students who were in good academic standing when they withdrew from CIA and have been gone for more than one semester, or who attended another college that is not a CIA-affiliated program, may apply for readmission by completing the Application for Returning Students, available online or from the Admissions Office. Students who wish to be considered for advanced studio placement based on work done at another college or who withdrew from CIA before starting their major will need to contact the Admissions Office to arrange a portfolio review. Transfer credit toward liberal arts requirements will be considered upon submission of an official transcript from the college where the coursework was taken.

Students who were academically dismissed from CIA may apply for readmission if they have successfully completed the requirements outlined in their dismissal letter. These may include, for instance, coursework at another institution or documentation from a medical professional of readiness to resume a full course of study. Students should first contact the Director of Academic Services, who will advise them about the readmission process, and then submit the Application for Returning Students. The deadline to apply for readmission for the fall semester is July 15, and the deadline to apply for readmission for the spring semester is December 1.
Independent Study
Students who have a cumulative GPA of 2.5 or higher are eligible to propose a semester-long independent study course, equivalent to three credits of a liberal arts or studio elective. Normally, independent study courses are available to enable students to pursue a topic of interest that is not available in the curriculum. There is a limit of one three-credit independent study per semester; a maximum of six credits of independent study are permitted in any major program. In certain circumstances, due to the proposed project scope, a 1.5-credit independent study may be appropriate, and the accompanying course expectations will be adjusted accordingly. Independent study credits are graded and cannot be taken on a Pass/Fail basis.

In accordance with accrediting agency guidelines for all coursework, the following expectations are in place with respect to time commitments for independent study:

**Studio credit:** One semester hour of credit is earned for a minimum of 1,667 contact hours (100 minutes) of classroom instruction and 2–2.667 hours (120–160 minutes) of outside classroom preparation per week.

**Liberal Arts credit:** One semester hour of credit is earned for a minimum of 50 minutes of classroom instruction and 40 minutes of outside classroom preparation per week.

Normally, for a three-credit experience, students should expect to meet with their faculty sponsor for the equivalent of one hour weekly throughout the entire semester.

Students should initiate the independent study process by meeting with an advisor in Academic Services. Proposals must then be approved by a faculty sponsor, the department chair of the area where the credit will be applied, and the Vice President of Academic Affairs. Approved proposals are then submitted to the Registrar so they can be added to students’ course schedules.

Faculty sponsors of independent study courses will mentor students throughout the semester and evaluate their coursework. Faculty members must be approved by the Vice President of Academic Affairs to teach the proposed subject.

**Cross-Registration**
Subjects not offered at CIA or not available at a suitable time may be available at another college in the area. CIA has agreements with other area colleges that enable matriculated, full-time students in good standing to take one course per semester during the fall or spring semester at any one of these colleges as part of their full-time load (minimum of 12 credits at CIA and a maximum of 18 total credits including credits at the other college) at no additional cost. Permission is granted by the college offering the course on a space-available basis. Credits are transferrable to CIA, provided they meet CIA degree requirements and you earn a grade of “C” or better. Credit is earned, but grades are not calculated into the CIA GPA. See the Registrar for cross-registration procedures. To date, CIA has cross-registration agreements with Case Western Reserve University, John Carroll University, Cleveland Institute of Music, Cleveland State University, and all campuses of Cuyahoga Community College (Tri-C).

**Off-campus Study**
Off-campus study experiences are normally recommended during sophomore or junior years or during the summers following these same years.

**Eligibility:** To be eligible for off-campus study, students are required to be in good social standing with the institution, with no outstanding judicial sanctions. They are also required to be in good academic standing at the time of application for off-campus study and to have a cumulative GPA of at least 2.5. Finally, they may have no outstanding incomplete grades at the time of application or departure for off-campus study.

**AICAD Mobility program:**
CIA is a member of the Association of Independent Colleges of Art and Design (AICAD) and participates in the AICAD Mobility program. Students approved by the host college may spend a semester or academic year at another AICAD institution. While on Mobility, students pay tuition to CIA (and can use their financial aid awards and any applicable CIA merit scholarship). A list of all AICAD members and the majors offered can be found at aicad.org. Further information and an application may be obtained from Academic Services.

**Study Abroad**
Students who wish to take courses at a college or university outside the U.S. may do so for a summer, semester, or a year.

CIA has agreements with several art and design colleges overseas, and students may also participate in programs offered overseas by other U.S. colleges or universities, or enroll directly in another university. In some cases, students will pay tuition directly to the other institution; while others an exchange will be made where students from an overseas school will enroll at CIA while CIA students attend their college. In these exchanges, CIA students pay the Institute’s tuition and can utilize their CIA financial aid package. Tuition and fees associated with direct enrollment at other institutions (other than exchange agreements) vary greatly.

For information about opportunities, costs, course approval, and to begin the study abroad process, contact the International Advisor or the Dean of Student Affairs.

**Summer Study Options**
Summer study opportunities are available through many programs throughout the U.S. and overseas. Information on these and all opportunities may be obtained through the Office of Academic Services.

Students who wish to take a summer course(s) at another college with the intent of transferring that course to your CIA degree, must contact the Registrar’s Office, identify the course, and have it reviewed and approved before taking the course. Courses at other institutions that have not been approved before enrollment and/or earned a grade below “C” will not be considered for transfer toward the CIA degree.
Grades
Letter Grades
Letter grades are a means by which the faculty member communicates his/her professional assessment of your work. The primary purpose of assigning grades is to provide you with a realistic standard of reference by which you can measure your progress while enrolled at CIA.

Grades are reported twice each semester: mid-term grades after the first eight weeks and final grades at the close of the term. The mid-term grade is a preliminary indication of your progress to date.

Semester and cumulative grade point averages are reviewed by Academic Services each term to determine each student’s academic status. Each transcript includes the semester Grade Point Average (GPA) and the cumulative GPA. Letter grades have the following meaning:

A, A-: Work of consistently outstanding quality, which displays originality, and often goes beyond course requirements

B+, B, B-: Work of consistently good quality, demonstrating a high level of proficiency, knowledge, and skills in all aspects of the course

C+, C, C-: Satisfactory work that meets the requirements of the course and conforms to the standards for graduation

D+, D, D-: Work deficient in concept or execution but acceptable for course credit

F: Work unacceptable for course credit and does not meet the standards for graduation.

Mid-term Grades
CIA records mid-term grades for each class. These grades are distributed to students and used for advising purposes by both faculty and academic advisors, but are not calculated in the GPA.

“Incomplete” Grade
Incomplete grades should be requested only for serious extenuating circumstances, not simply for failure to complete course requirements on time.

Requests for Incomplete grades must be student-initiated by means of the Incomplete Grade Request Form, available from the Registrar’s Office. Instructors may not issue Incomplete grades without students’ request or their permission.

In circumstances in which students are unable to get to or maneuver easily around campus, the Director of Academic Services or the Registrar may request Incomplete grades from instructors on their behalf, but only if they have first communicated their agreement to the Incomplete. Midterm Incomplete grades are permitted, at the discretion of faculty members, without student’s request or consent.

Students on Academic Probation are not permitted to request Incomplete grades from any of their instructors.

Students who have one or more Incomplete grades in a given semester, and whose academic performance for that semester may place them on Academic Probation once the Incomplete grade(s) is/are resolved, will be advised of the requirement that they submit all outstanding course assignments by no later than the end of the fourth week of the next semester.

The due date for Incomplete grade revisions is the end of the fourth week of the semester following that in which the incomplete grade was issued. Incomplete grades not revised by the deadline will revert to failures.

Requests for extensions for Incomplete grades will not be permitted.

Incomplete grades could affect financial aid for the following academic semester. For financial aid purposes, the sooner Incompletes are revised, the sooner the financial aid awards can be adjusted or finalized.

If, at the time a student requests an Incomplete, and faculty determine that they have missed too much class time that the course cannot be successfully completed by the end of the fourth week of the following semester, an Incomplete may not be permitted. If the request is made within the prescribed period for course withdrawal without penalty, students will be advised to withdraw from the courses. If the requests are made after the prescribed period for course withdrawal has passed, grades will be assigned in accordance with the work completed. In either case, students will be advised of the opportunity to repeat the courses when they are next offered.

Please see the section on Course Repeat. Students who have an Incomplete and wish to change it to a revised grade must submit work to their faculty member(s) at least one week before the revised grade is due to allow sufficient time for evaluation.

Depending on the course, there may be a fee assessed for access to facilities or if materials are required for completion of the course. Faculty members are responsible for informing the Registrar’s Office of grade revisions.

Grades Excluded from the Calculation of the CIA Grade Point Average (GPA):

- Grade of “W” due to withdrawal after the drop/add period;
- “Incomplete” grade;
- “NG” grade submitted by the instructor due to extenuating circumstances;
- “Audit,” “Satisfactory,” or “Pass” grades;
- Grades received in courses that were transferred to CIA from another college toward the CIA degree (see Transfer Credit);
- “F” grades in courses that were repeated and satisfactorily passed.
Policy on Minimum Grade in Studio Major Courses:
Consistent with CIA’s long-standing tradition of excellence in all levels of art and design education, effective Fall 2014, all students must earn a grade of at least “C” in all studio and core courses required by the major in which they are enrolled. This minimum requirement does not pertain to Liberal Arts, Foundation, or studio electives taken in another major. Any student earning a “C-” or lower will be required to repeat that course at CIA and attain a “C” or better grade.

Course Repeat
Students who receive an “F” grade may repeat the same course at the Institute. The original “F” will remain on the student’s record for the semester in which it was earned, and it will not be included in the CIA GPA. The repeated course and the new grade will be recorded in the semester in which it was repeated.

Students may repeat a course that they passed for a higher grade. The higher of the two grades will be calculated in the grade point average (GPA). Credit toward graduation for a repeated course may be counted only once. In keeping with federal financial aid regulations which disallow funding for repeated courses that have been passed, students must carry a minimum of 12 credits of unrepeated courses during the semester in which they are repeating a passed course.

Students who receive a C- or lower grade in a required major or Core studio class must repeat the course in order to achieve the required minimum C grade and credit for the course. The higher of the two grades will be computed in the student’s GPA. Courses repeated under this requirement will be eligible for financial aid funding.

Grading Errors
Grade revisions are only permitted to correct errors. They cannot be given for additional work submitted. If you believe that there is an error in a grade awarded to you, you must contact the faculty member who awarded the grade and they must complete the “Error in Grading” form which is available to faculty from the Registrar. The completed form must be signed by the faculty member’s department chair. The grade correction must be recorded by the end of the semester following the term in which the course was taken.

Auditing a Course (AU grade)
Students who wish to take a course for audit (no credit) will be charged tuition and fees at the same rate as charged if it were taken for credit. A course registered as an audit cannot be changed to credit after the eighth week of the semester. Similarly, a course registered for credit cannot be changed to audit after the eighth week of the semester.

Academic Grievances
If you wish to register a complaint about course instruction or an evaluation of your performance in a class, first discuss your concern with the faculty member involved. If you cannot resolve the matter in this manner, meet with the Director of Academic Services for advice or to arrange mediation between you and the faculty member. In the event of a dispute over an evaluation of your performance in a course, the Director may seek consultation with the chair of the department or the Dean of Students to achieve a resolution.

Academic Standing and Dismissal Policies
Semester and cumulative grade point averages are reviewed by the Director of Academic Services to determine each student’s academic status. The minimum requirement for good academic standing is a GPA of 2.0, and a cumulative GPA of 2.0. Students below 2.0 are placed on Academic Probation. A cumulative GPA of 2.0 is the minimum required for graduation. The grades for courses transferred toward CIA graduation requirements are not included in the calculation of your GPA at CIA.

Academic Probation
Students who do not achieve a semester GPA of at least 2.0 will be placed on Academic Probation. They will be required to meet regularly with an advisor and adhere to a learning contract. Students on Academic Probation may not request an Incomplete grade in any of their courses.

Students who do not achieve a cumulative GPA of at least 2.0 are subject to dismissal. Students who earn a GPA of 1.00 or less in their first semester of enrollment will be dismissed from the Institute.

Students who are dismissed and who believe that there are extenuating circumstances affecting their academic standing may appeal to the Vice President of Faculty Affairs, whose decision will be final. Appeals must be in writing and be received by the Vice President by these deadlines: June 15 (for fall readmission) and January 3 (for spring readmission).

It is highly recommended that students consult with the Director of Academic Services before filing an appeal.

Students who are academically dismissed from CIA may apply for readmission if they have successfully met the stipulations detailed within their dismissal letter. These may include, for instance, coursework at another institution or documentation from a medical professional of readiness to resume a full course of study. Questions about any of these requirements should be directed to the Director of Academic Services. Please see the section on Readmission.
Maintenance of Matriculation/Continuation of Thesis

If you finish your course requirements but need to continue to work on your BFA thesis using CIA facilities or in consultation with CIA faculty, and are not registered for any courses at CIA, you are required to remit a Non-enrolled Candidate Fee. This fee continues your association with CIA, and enables you to have use of CIA facilities and access to CIA faculty while you are not enrolled but are working toward the completion of your BFA thesis. The Non-enrolled Candidate Fee is listed on the fee schedule at cia.edu/tuition. Continuation of work on the BFA thesis without registration as a full-time (12 credit) student may have implications for the schedule of your loan repayment(s). Contact the Financial Aid Office for further information.

Academic Processes

Major Selection

Students who begin CIA as first-year students enter the major selection process during the spring semester of their first year. They cannot be fully accepted into a major unless they have completed, have credit for, or are enrolled in the required Foundation courses. Students will not be allowed to register for their final year (BFA thesis preparation) until all required Foundation courses are completed.

To prepare for major selection, students are encouraged to meet with the department chair, faculty, and students in the major to which you intend to apply. Department presentations and open houses offer an opportunity to learn more about each area. Many departments also have open studio times when non-majors can observe and participate in major-related studio activities.

Advising is also available if you need assistance in selecting a major. You will be asked to indicate your first, second, and third choice of major.

Acceptance into a major is dependent on portfolio review, academic preparation, and may require an interview with faculty of the major. Notification of major acceptance is made in writing from the Office of Academic Services.

Completion of Foundation courses does not guarantee acceptance into a major. Students who are not accepted into their first choice major, or who are accepted on probation, should contact the Office of Academic Services for assistance.

Double Majors

In order to double major, students need to apply and be accepted to both majors. Completing both programs may take longer than four years, depending on the combination of majors. Extending beyond four years may have financial implications.

A minimum 2.5 cumulative GPA is required at the time students declare a double major.

The following items should be considered for program planning purposes:

Pursuing degree requirements:
- Students must start the process by notifying Academic Services of their intent to double major. An advisor will discuss with them the process and provide an overview of how the two majors will fit together.

If, following this initial meeting, students choose to continue with the double major process:
- Academic Services will create a combined program of study for them.
- Department chairs of both majors will approve the program of study, which will be a binding document of student’s academic requirements.
- Department chairs of both majors will sign the Declaration of Double Major form that accompanies the program of study.
- Students should submit the signed Declaration of Double Major form and program of study to the Registrar, who will make official record of the action.
- If students decide to discontinue their double major at any point, they will need to meet with an advisor in Academic Services and complete a Declaration of Single Major (from Double Major) form.

Applying for degree certification:

Students with a double major should consult with the department chairs of both majors, the Registrar, and a Financial Aid Counselor before applying for degree certification. There are financial aid implications if a student is certified as graduated from one major and returns to complete the second major. In most instances, students should apply for concurrent graduation from both majors.
Financial aid and scholarship implications:
There may be financial aid implications if you pursue two majors. Be sure to consult with Academic Services and the Financial Aid office about these issues.

The Federal Title IV financial aid programs are intended to assist you in completing your first bachelor's degree. If you complete the requirements for one of your majors, apply for graduation, and then are certified by the Registrar as having been awarded that degree, you will have fulfilled the intent of the Title IV programs and will no longer be eligible for any need-based funding from government sources. In this case, you will be able to continue your enrollment at CIA to complete the second major, but will not be eligible for any financial aid grants from governmental sources (see below). So, unless you have a very special circumstance that warrants it, or you expect to finance your continuing enrollment for the second major yourself, you should not apply for graduation until you have completed requirements for BOTH majors.

Federal and State financial aid (including loans) for which you are eligible will continue provided you maintain your eligibility in all ways required (financial and academic) as long as you have not been certified as having completed and graduated from one of the majors.

As you near the completion of at least one of your majors, you are strongly encouraged to meet with a Financial Aid counselor to remind them that you are doing a double major, are nearing completion of one major, and discuss what the best action would be for you to take as you plan to complete the second major.

Change of Major
If you wish to change your major you are required to file a Change of Major Request Form with the Registrar. You must also submit a portfolio of your work to the chair of the department to which you want to transfer. The Change of Major Request Form may be obtained from the Office of Academic Services.

Degree Requirements
Candidates for the BFA degree from the Cleveland Institute of Art are required to have completed between 126 and 135 semester credit hours, depending on their major field of study. Approximately one-third of these credits are in liberal arts or general studies, with the balance in the studio areas (including the major). Individual departments (majors) may have specific course requirements among the liberal arts or studio electives. Requirements to complete a degree (Degree Audit Sheets) in your major can be obtained from Academic Services, and are located in Section 8 of this catalog.

In addition to meeting credit and curriculum requirements, degree candidates are also required to present a BFA thesis exhibition for evaluation by faculty and peers. Students are eligible to present their BFA if they have nine or fewer credits outstanding toward their BFA degree. A 2.0 cumulative GPA is required for graduation.

You are informed of your credit standings regularly throughout your course of study. If it is projected that you will have nine or fewer credits outstanding for your degree completion at the end of your fourth year, you will be scheduled for your BFA review. Note that any student who is projected to be short any number of credits by the end of their fourth year (the semester in which the BFA review will take place) will be ineligible for consideration for the Cleveland Institute of Art President’s Traveling Scholarships.

If you have credit deficiencies, you may opt to postpone your BFA review until the deficiencies are completed so that you can participate in the President’s Traveling Scholarship competition and Commencement ceremony.

Graduation and Commencement
CIA holds its Commencement ceremony in May. While a student may complete degree requirements at the end of the fall semester, there is no ceremony in December.

If you will complete all degree requirements by the end of the spring semester of your last year at CIA and have satisfied all outstanding obligations to the Institute, you are eligible to participate in the Commencement ceremony. During pre-registration for your final fall semester, you should complete the Application for Graduation, available from the Registrar. Completion of this form notifies the Registrar to include you in all communications concerning preparation for graduation.

If you are projected to have nine or fewer credits outstanding at the end of your last term of full-time study at CIA, you must petition the faculty for permission to participate in the Commencement ceremony. The completed petition must be submitted to the Registrar.

If you are projected to have more than nine credits outstanding at the end of your final year, or will not be presenting a BFA exhibition no matter what your credit standing, you are not eligible to participate in Commencement with your class.

All students eligible for graduation are charged a graduation fee as part of their tuition and fees in their last semester. The fee covers various Commencement expenses, including but not limited to, cap and gown purchase, and printing of diplomas, announcements, tickets, and programs. Measurements for caps and gowns and confirmation of names for diplomas are taken by the Registrar’s Office during course prescheduling for the Spring semester. Caps and gowns (which are yours to keep) are distributed during Commencement rehearsal. Graduation announcements and tickets to the Commencement ceremony are distributed by the Registrar’s Office approximately one month before graduation.
Any student with an outstanding account balance with any Institute department or office will not receive his/her diploma until all obligations have been satisfied. Graduates with a tuition balance or unreturned library materials will not be allowed to participate in Commencement ceremonies.

**Student Records**

**Family Educational Rights and Privacy Act (FERPA)**

In accordance with the Family Educational Rights and Privacy Act (FERPA) of 1974 (and amended in 2008; ed.gov/policy/gen/guid/fpco/ferpa/index.html) you may inspect and challenge school educational records maintained in your name. The CIA FERPA policy defines a student as a person who attends or has attended the Institute. Educational records are defined as any record in any medium maintained by the Institute which is directly related to a student except for the following:

- personal records kept by a staff member that are not accessible to other persons,
- records created and maintained by the Institute’s operations or security offices for law enforcement purposes,
- employment records where employment is not contingent on the fact that the individual is a student,
- records maintained by a physician, psychiatrist, psychologist, or other recognized professional used only for treatment of a student,
- and alumni records containing information after the student is no longer in attendance which does not relate to the person as a student.

You may inspect and review your educational records upon written request to the Registrar or the appropriate records custodian. There will be no fee charged for photocopying a reasonable number of records. The Institute has the right to refuse you access to your records under the following circumstances:

- you have an unpaid financial obligation to any Institute office or department,
- owe overdue materials or equipment to the library or other Institute office or department,
- there is an unresolved disciplinary action against you, or
- the educational record requested is an exam or set of standardized test questions.

The Institute reserves the right to release your educational records without your written consent to school officials who have a legitimate educational interest in the records, and to your parents if you are claimed as a dependent for income tax purposes. At the discretion of the Institute, information regarding abuse of alcohol or drugs not prescribed by a physician may be reported to your parents if you are under 21 years of age. Information considered as “directory” information may also be released without prior written consent unless you notify the Institute in writing, by the end of the fourth week of classes, that you do not wish to have the information released.

The following is text from the federal FERPA website that indicates the expansion of information that can be shared in the interest of student health and safety:

“...Although FERPA does not permit disclosures of personally identifiable information on a routine, non-emergency basis, the final regulations afford greater flexibility and deference to administrators so that they can bring appropriate resources to bear when there is a threat to the health or safety of students. Section 99.36 in the final regulations makes clear that educational agencies and institutions may disclose information from education records to appropriate parties, including parents, whose knowledge of the information is necessary to protect the health or safety of a student or another individual if there is a significant and articulable threat to the health or safety of a student or other individual, considering the totality of the circumstances.

The final regulations clarify that under §§ 99.5 and 99.36 an educational agency or institution may disclose information to an eligible student’s parents in a health or safety emergency, regardless of whether the student is a dependent for Federal income tax purposes, and may disclose information to parents under any circumstances if the eligible student is a dependent for Federal income tax purposes...

The Institute’s complete FERPA policy is available from the Registrar’s office, and is distributed annually to all enrolled students.
Transcripts
Transcripts must be requested in writing with your signature on the request form. The form is accessible at cia.edu/registrar.

Written requests may be mailed or faxed to the Registrar’s Office (fax: 216.754.3385). Email requests cannot be accepted. Transcripts will be issued only if your account is in good standing with all administrative offices and institutional departments. Transcripts for currently-enrolled, degree-seeking students are free-of-charge. Transcripts for former students, alumni, and continuing education students carry a fee of $5 per transcript. You must allow one week for transcript processing. Requests for a “rush” transcript (mailed within 24 hours) require an additional fee of $15 (plus the cost of Express Mail if the service is requested). Transcript fees apply whether the transcript is official or unofficial.

Change of Address or Name
If you change your address (permanent or college), or phone number you must inform the Registrar. Your receipt of grades, financial aid materials, and other important correspondence from CIA will depend on the Institute having your correct contact information.

If your name has changed, provide the Registrar’s Office a copy of your marriage certificate or a copy of a court document that indicates that your name has been changed legally.

If you wish to be known by a “preferred” name on campus, you may indicate that name to the Registrar’s Office and it can be kept in your student record.

You will bear full responsibility for any consequences resulting from your failure to report promptly a new address or a name change.
Section 5: Support Services
Academic Support Services
Academic Advising
The Office of Academic Services, located in JMC 120, provides academic advising on a walk-in basis and by appointment. Students have the opportunity to meet with an academic advisor about curriculum planning, course selection, and other academic decisions. Students who are out of sequence in their courses, deficient with respect to course credits, or on academic probation will be required to meet with an academic advisor before registering for the next semester.

Students are expected to read and understand the academic policies explained in this Catalog and the Student Handbook and to accept ultimate responsibility for the decisions they make. In no case will a degree requirement be waived or an exception granted because individuals profess ignorance of regulations or assert that an advisor or another authority did not inform them of academic policies or procedures. Students are encouraged to meet with an academic advisor whenever they have a question about any process or concern at CIA, and to review the materials and notices sent to them throughout their time at CIA.

Learning Support Services
Learning Support Services provides accommodations and academic support services that ensure equal access to programs and services for students with documented learning disabilities, mental health issues, medical disabilities and mobility issues. In addition, staff members offer study skills and time management workshops, provide ongoing advising, and arrange for tutoring.

Students who request services due to a diagnosed learning disability, mental health condition, or physical disability must provide documentation before accommodations can be provided. The LSS staff works with students and their faculty members to determine what accommodations can be provided to meet the documented needs. Accommodations are reviewed each semester.

New students with special needs should contact LSS as early as possible during the admission process. There is a special orientation for new students with learning disabilities in tandem with the summer START program. Continuing students who know that they will need support services should contact LSS staff as soon as they complete their course registration each semester so as to provide sufficient time for accommodations to be reviewed and arranged.

Students with documented learning disabilities are accommodated by specialized support materials, including:
- Text-to-speech software;
- Voice recognition software;
- Brain-mapping software; and
- Audio books.

Students supported by the office can also receive, as appropriate:
- extended testing time;
- oral exams or exams administered in controlled surroundings; and
- note-taking assistance

Further, the Writing + Learning Center, which is available to all students who need assistance with writing, also serves as the main hub for specialized software for students with documented learning disabilities.

Writing + Learning Center
Staff of the Writing + Learning Center, located in the JMC, can assist you with the following:
- Generating ideas and developing brainstorming strategies to get you started
- Organizing ideas, crafting a thesis statement, restructuring an essay, clarifying and expanding key points, following citation guidelines, refining grammar and word choices, etc.

You can use the Center’s resources throughout your CIA career, from developing your first essays to polishing your BFA thesis. Appointments are not necessary, but if the Center staff are busy, you may be asked to wait for help or return at another time. Most sessions last about 30 minutes. The Center is staffed by second, third, and fourth-year students who have both experience with writing at the college level and training in various aspects of how to tutor writing. Faculty and staff supervise the student and work directly with students who need help. A member of Learning Support Services also assists students in the Center. The Center also provides services in the residence hall, and times are posted each semester.

The Career Center
The Career Center is dedicated to providing students and alumni with the necessary tools, resources, and strategies that will assist them in identifying and reaching their personal career goals. For a full description of the Career Center’s services, go to cia.edu/careercenter. Services include:
- One-on-one career advising by appointment
- Assistance with resume and cover letter writing
- Coaching on interview techniques and job search skills
- Connections to alumni for career exploration and information
- Assistance in obtaining a credit or non-credit-bearing internship
- On-campus recruiting program
- Lifelong access to services to assist in career transition

College Central, a comprehensive online system offering listings of opportunities including work-study jobs, internships, freelance, competitions and full-time career positions. The system allows students and alumni to upload a resume and portfolio so that potential employers view their work and contact them. The College Central site is collegecentral.com/cia.

Internships
An internship is a work-related learning experience that provides students or recent graduates with an opportunity to gain important knowledge, experience, and skills in a particular career field. Internships can be paid or unpaid, part-time or full-time. Also, internships can be credit-bearing or non-credit-bearing.
The Career Center can help you prepare and search for an internship. It’s recommended that you start looking for an internship at least one semester before you would like to begin the experience. If you are an international student, you must meet with the International Student Advisor to obtain approval before you can work off-campus. You must meet the eligibility requirements of class standing and GPA before you can take an internship. Contact the internship coordinator for details.

A credit-bearing internship is part of your academic program, and must offer a learning component which advances your skills in your field. It is a formal collaboration among you, your employer, CIA faculty, and the Internship Coordinator. Particulars about how an experience qualifies for credit, the amount of credit possible, the charge for credit, and how to set up a credit-bearing internship can be found at cia.edu/careercenter.

A non-credit-bearing internship is less formal, but the Career Center encourages interns and employers to follow the general credit-bearing internship guidelines to maximize the success of the experience. The Internship Coordinator is available to address concerns or issues during the internship period.

The Career Center exercises reasonable precautions to qualify all opportunities and strongly advises students to also research and screen potential companies carefully. You are welcome to check with the Career Center staff about any employer about whom you are not familiar.

Looking into freelancing? The Career Center recommends using a contract when engaging in freelance work. Guidance on creating a contract is available.

The Career Center lists work-study jobs on College Central, and assists students in completing the forms required to qualify for employment.

Cleveland Institute of Art Library

“Helpful, Awesome, Amazing, Friendly, Magical” is how Institute students describe the library! The CIA Library is a special library, with collections and services developed for visual artists, designers, and craftspersons.

The library contains over 50,000 books, exhibition catalogs, and bound journals; current subscriptions to more than 130 journals; access to over 1.6 million digital art, architecture, humanities, and science images for study and downloading; 1,500 sound recordings, videos, and DVDs; a visual reference file; access to online art and design databases and full text resources; and an extensive collection of over 1,600 “artists’ books” (books made by artists as works of art). In addition, the library circulates a variety of AV and digital equipment and has computers, digital devices, scanners, printers, and photocopiers.

The library supports the Institute’s accredited degree-programs, with a special focus on providing materials for studio-intensive instruction and is international in scope. The library documents the major participants, events, and trends of international contemporary art, photography, craft, new media, and design; includes theory and technical information as well as visual resources; and makes available a variety of professional, legal, and business information for artists. The library’s collection of contemporary art publications ranks with the best American college libraries, and its “artists’ books” collection is nationally recognized. The librarians provide instruction on how to do research, select and search databases, cite sources, and evaluate information sources as well as how to locate and borrow materials in other area libraries. Library staff members are always available to answer questions and provide personalized assistance.

The library participates in a local consortium that includes all of the libraries of Case Western Reserve University as well as the Cleveland Institute of Music, the Rock and Roll Hall of Fame Library and Archives, and the Jewish Education Center of Cleveland’s Garber Library. CIA shares an online catalog with these libraries, and Institute students may borrow materials from these partner libraries.

The CIA Library also participates in OhioLINK, a statewide consortium of 89 college and university libraries owning nearly 50 million items. Institute students may use the OhioLINK online catalog to request materials from any OhioLINK library to be delivered, within a few days and at no charge, to the CIA Library for their use. Through OhioLINK, Institute students have free on-campus access to over 100 digital databases and thousands of electronic journal articles, e-books, digital images, videos, and sound recordings. In addition, students have access to the collections of Ohio public libraries through SearchOHIO.

Lastly, Cleveland is a very library-rich community with award-winning public libraries. The Institute is located within walking distance of the specialized libraries of the Cleveland Museum of Art, Cleveland Clinic, Cleveland Botanical Garden, Cleveland Museum of Natural History, and the Western Reserve Historical Society.
**Information Technology Support**

CIA’s Information Technology department, located on the first floor of the JMC building, supports technology in the learning environment, including computer labs. Students are responsible for using the technology resources on campus in an appropriate manner. The rules and regulations concerning use of computing facilities on campus and the consequences of misuse, including illegal file sharing, are detailed in the Student Handbook.

All full-time and part-time students receive a CIA email account. Students are expected to use their CIA email in all correspondence with administrative staff and faculty, and to retrieve broadcasts and notifications about events, activities, and emergencies on campus. Messages from CIA will not be sent to other email addresses. Failure to read a message in a timely manner does not absolve a student from being responsible for knowing the content or following the instructions or timelines indicated in a message.

Please go to the Technology tab at my.cia.edu to find information on software discounts, links to assist in setting up access to CIA email, access to equipment available for checkout, and other student systems, and to obtain support.

The my.cia.edu portal also includes access to CIA's emergency alert system, e2campus, via the alerts tab, where you can enter email, txt, and voice numbers for emergency messages.

For technical assistance with the CIA technology environment, the IT team can also be reached by sending an email to support@cia.edu (please include your phone number).

**Digital Output Center**

The Digital Output Center (DOC), located in the Gund building, specializes in fine art reproduction and display graphics for artists and designers. The DOC was created by artists for artists and is dedicated to producing work that matches a student’s creative vision. Students can be assured that their work is being printed according to standards and methods used by artists and museums to produce their own work. Archival prints produced at up to 2400 dpi provide stunning color and image quality on a wide variety of papers, films, canvas and fabrics. This service is offered for the cost of production to CIA students, faculty, and staff and is a wonderful tool for producing and presenting digital work of all types. Students are able to track and manage all of their printing online using our web-based service on the CIA internal network at papercut.cia.edu.

**Personal Support Services**

**Personal Advising**

The college years mark a time when you may face new challenges and undergo significant personal and social changes that can affect your academic performance, career plans, personal life, or relationships. Understanding and adjusting to these challenges and changes is not always easy, and students often seek help from others. If you are experiencing concerns that are affecting your ability to keep up with classes or maintain a good social balance, help is available from the Student Affairs staff, located in JMC 120. You are welcome to stop by and discuss your concerns or just talk. If you need additional assistance or if these professionals feel that they don’t have the expertise to help you, they will refer you to University Counseling Services (UCS). They are also available to accompany you to UCS, if requested.

University Counseling Services is located in 220 Sears Building on the campus of Case Western Reserve University. The phone number to use at all times is 216.368.5872. First-time appointments are scheduled for about 60 minutes so that students can more fully explore their concerns, thoughts, and feelings with a counselor. These appointments are usually available within 5–10 days. Brief, 30-minute counseling appointments are available throughout the week for students who need help in solving a more pressing problem. Consultation for emergency situations is available without an appointment. An on-call counselor is available for emergencies after hours, on weekends, and during holidays.

UCS is staffed with psychologists, social workers, and consulting psychiatrists who specialize in working with college students. They offer workshops, seminars, and groups each semester on such topics as test anxiety management, drug/alcohol education, women’s issues, stress management, and eating disorders. The cost of most services is included in your mandatory health services fee; some specialty services may require an additional fee.
Health Services
All full-time students are required to pay a Health Services fee (see cia.edu/tuition). This fee entitles you to both health care and professional counseling services through Case Western Reserve University.

The Case Western Reserve University Health Service at 2145 Adelbert Road (studentaffairs.case.edu/health) provides comprehensive health care for Institute students. Brochures describing the services provided by CWRU Health Services and the CWRU Student Medical Plan are available in the Student Affairs Office and at the CIA Student Accounts Office. A full description of the CWRU Health Plan is at studentaffairs.case.edu/medicalplan/student/

All new students are required to complete medical and immunization histories and to return them directly to the Office of Student Life + Housing, which then files them with CWRU Health Services. Student medical histories are placed on file as a basis for meeting future medical needs. Filling the requirements listed on the medical and immunization history forms prior to enrollment is necessary in order to file claims against insurance. For more information about CWRU Health Services, call 216.368.2450.

University Health Services is now using “Open Communicator,” an online appointment and communication system. During your first semester of enrollment at CIA, you will receive a personalized email that includes instructions on how to access the system, your Case NetID, and your four-character PIN. Once you set up your account, you can make appointments, look at test results, and have secure messaging with UHS staff online. Go to my.cia.edu for instructions on setting up your Open Communicator account. If you don’t have your Case NetID and PIN, contact the CIA Registrar.

International Students
The Institute is approved by the U.S. Department of State to issue documentation that will enable non-immigrant students to secure an F-1 student visa. Questions and problems regarding immigration matters or other international student concerns should be directed to the International Activities Advisor.

F-1 students are responsible for ensuring that they maintain valid status while enrolled at CIA. Advising concerning academic course loads, travel outside the U.S., employment during and after enrollment, and other visa issues is available from the International Activities Advisor. All students on an F-1 visa must report to the Dean of Students at least once each semester.

Veterans’ Benefits
CIA is approved for VA educational benefits and is a “Yellow Ribbon” school. VA certifications for benefits are processed through the Registrar’s Office. Students must be accepted and enrolled in the BFA degree program before enrollment certifications are forwarded to the VA. VA certifications for new students are processed during the first week of the semester. Veterans should receive their first benefits check 4–6 weeks following certification. Returning students may request advance payment of their first benefits check during the summer. Advance payments are sent directly to the CIA Student Accounts Office and are applied directly to the student’s tuition account. Advance payment covers the first two months of benefits payments. All subsequent benefits checks are sent directly to the student. Students must be certified by the Registrar’s Office for VA benefits every year in which they are enrolled. Questions regarding VA benefits should be directed to the Registrar by phone, 216.421.7321, or by email (registrar@cia.edu).

Legal Services
The CWRU Milton A. Kramer Law Clinic Center is located on 11075 East Boulevard, next to the Institute’s Gund Building (law.case.edu/clinic/). The Center, staffed by law students and supervised by practicing lawyers, offers free legal advice to students on civil matters, such as landlord-tenant relationships and conflicts, as well as in civil and criminal problems. The Center is open weekdays from 8:30am–5pm. For an appointment call 216.368.2766.
Section 6: Financial Matters
Student Accounts

Student accounts are maintained by the Student Accounts Office, located in the JMC Building Room M114. Payments for supplies or items purchased on campus, tickets for student events, and other activities on campus are also taken at the Student Accounts Office.

Payment of tuition and fees is due at the time of registration. An updated schedule of all tuition and fees is located at cia.edu/tuition

A “hold” on the release of grades or transcripts is placed on any student’s account that shows an unpaid tuition balance or unpaid debts to any Institute department or CWRU department from which CIA students or the Institute receives services that are unpaid at the end of each semester. For detailed information on tuition and fee payments or questions about your account, please see the Student Accounts Administrator.

You may also participate in a plan to spread your tuition and fee payments throughout the year. See details on this option at salliemae.com.

Refunds

Full-time and part-time students who withdraw from individual courses (not a complete withdrawal from the Institute) will not receive a prorated refund for that course(s). Full-time tuition covers a credit load from 12 to 18 credits.

You should contact the Office of Financial Aid before you withdraw from a course. Since the number of credits you earn each semester affects your progress toward your degree, withdrawing from a course has an effect on your financial aid standing. Withdrawal from a course may also require that you refund aid received to either CIA or another funding source, so consultation with the Office of Financial Aid is highly recommended.

If you anticipate a refund check for any reason, contact the Student Accounts Office.

Withdrawals

See the academic withdrawal policy on page 36 of this document.

Residence Hall Contracts

If you live in the residence hall or an on-campus apartment, your contract is binding for the entire year. If you terminate your contract after the June 15 deadline for reservations for the following year, or withdraw from CIA after the first semester, you are liable for and will forfeit the $150 room deposit, and will also be charged an early termination fee of $500.

If you take a leave of absence, study abroad, or are separated from the Institute during a semester, you will not be charged the early termination fee but will be charged for housing based on the Institute payment/reimbursement schedule. You will also forfeit the $150 deposit.

Financial Aid

Submitting the FAFSA

The Free Application for Federal Student Aid (FAFSA) should be submitted by March 15 prior to the your anticipated fall semester enrollment. All students should submit the FAFSA by the March 15 priority deadline at fafsa.gov. You must submit the FAFSA each year you attend CIA to be considered for need-based financial aid. Funding priority for programs with limited funds (i.e. Federal Perkins Loans, Federal Work-Study, Federal Supplemental Educational Opportunity Grants, and CIA grants) will be given to students whose FAFSA is received by the March 15 deadline. Links to all Office of Financial Aid forms and helpful information on the types grants, loans, work-study, etc. are found at: cia.edu/financialaid.

Notification of Financial Aid Package

Financial aid awards will not be posted to your account until all forms, signatures, certifications and the verification process are complete.

Be attentive to deadlines and forms that need your signature. Be sure to submit them to the Office of Financial Aid on time.

Eligibility for Financial Aid and Standards of Satisfactory Academic Progress (SAP)

To receive financial aid from federal, state and institutional aid programs at the Cleveland Institute of Art, you must make reasonable academic progress toward your degree. This includes maintaining at least a 2.0 cumulative grade point average (GPA) and completing 67% of the classes attempted each year.

Additionally, you must earn your degree within 150% of the standard time to earn a BFA degree at CIA. For example, the standard time to earn a Bachelor of Fine Arts degree at CIA is eight semesters; 150% of that time frame would be 12 semesters (six academic years). To remain eligible for federal aid, you must earn your BFA within six years (includes years attended at other schools). Please note: CIA merit and need-based aid is limited to up to eight semesters (less for transfer students). States like Ohio, Pennsylvania and others also limit their funding to eight semesters.

Disbursement of Funds and Bill Payment

Awards on your Financial Aid Award letter will not be disbursed and posted to your student account until the Office of Financial Aid receives a signed award letter accepting the award(s) or you have accepted your awards online through NetPartner, and you have completed all required paperwork and other forms, including the Master Promissory Note (MPN) and Entrance Counseling for Federal Direct loan(s) available at: studentloans.gov.

You (and a parent if you are a dependent student) will need your FAFSA PIN number to sign into the website.

If you were awarded a Federal Perkins Loan you must complete your Perkins Loan Promissory Note at: studentloans.gov after the fall term begins.

Disbursement of aid to your student account occurs after the start of each semester when your financial aid file is complete. The financial aid file is complete when all required forms have been completed accurately and submitted to
the Office of Financial Aid, processed by the Office of Financial Aid, and you are registered for classes.

Private loans do not appear on your Student Account billing statement as “pending aid,” and will appear on your billing statement only after the funds are received from the lender (bank) and posted to your account. Please follow the instructions and paperwork included with your billing statement to ensure that you have deducted all of your awards (including loans) from your account balance.

Billing statements are created and mailed to you by the Office of Student Accounts. Questions pertaining to your billing statement or about making payments should be directed to the Office of Student Accounts, located in the Joseph McCullough Center Room JMC 114, phone number 216.421.7318.

**Federal Work-Study Program (FWS)**

FWS is a campus-based, federally funded program that provides aid awarded to students who have demonstrated need as determined by the FAFSA. Funding from this award must be earned through employment and is payable by monthly direct deposit. It cannot be deducted from the student’s billing statement.

Most work-study jobs are on campus, but there are some off-campus jobs that qualify for work-study. It is your responsibility to apply for on-campus or off-campus work-study jobs. Work-study jobs are posted online in CollegeCentral. Contact the CIA Career Center for more information about CollegeCentral.

If you secure a FWS job, you must complete and submit a W-4 form and an I-9 form before working. A copy of a photo ID and a Social Security card are required. A birth certificate or passport can be substituted. These documents must be originals. Paychecks are deposited directly into your bank account, so a voided check from your bank must also be provided.

---

**Part-time Employment**

Part-time jobs on campus as well as freelance projects are also available. Freelance, internship, summer, and other opportunities are posted on the CollegeCentral. This online site is maintained by the Career Center. You may obtain your login and password information to access CollegeCentral from the Career Center, located in JMC 120.
Section 7: Student Life
Housing

On-Campus Housing

The Uptown Residence Hall is located on Euclid Avenue, within view of the CIA campus, MOCA and the Uptown development. All unmarried, first-time college students who are under 20 years of age are required to live in the residence hall for the first full academic year. Students with parents or guardians within Cuyahoga County are considered to be within commuteable distance to the Institute. Students new to the Institute who are 20 years of age or older are not given priority to live in on-campus housing. If students in either of these categories desire to live on campus, they will be put on a waiting list according to the date of their housing deposit. If there is housing available after mid-July, those on the wait list will be assigned housing. All students living in the residence hall are required to join the Case Western Reserve University meal plan (a variety of meal plans are available). Students on the meal plan also receive a cash amount (CaseCash) which enables them to use the cash on their ID card in area restaurants and shops. After completion of their first year of study, students may choose to live in our campus apartments, or choose their own living arrangements within the community.

Any post-first-year student who wishes to live in a CIA apartment will enter a lottery in the Spring. The number of apartments varies each year, and the availability of CIA-operated apartments is not guaranteed.

Off-Campus Housing

If you are not required to live in the residence hall and want to live off-campus, Student Life + Housing maintains a list of available apartments near the campus and provides a “roommate wanted” board to assist you in finding a CIA roommate(s). In addition, Student Life + Housing holds several workshops to assist students in the transition from living on-campus to moving off-campus.

Information and forms concerning on- and off-campus housing can be found at cia.edu/housing.

Recreational Facilities

On-campus residents can use the fitness facilities in the residence hall. Other members of the CIA community can join a facility in the area for recreation.

You can purchase a semester or annual membership at CWRU’s physical fitness facilities near campus. (studentaffairs.case.edu/athletics/facilities/membership.html).

The Sam Emerson Physical Education Building, located at 10900 Euclid Avenue, includes a swimming pool, two weight rooms, squash and racquetball courts, fencing and wrestling rooms, a rifle range, a large gymnasium and the Athletic Office. Facilities for track, basketball, baseball, volleyball, tennis and intramural sports are also available.

Another option popular with students (a month-to-month membership available) is 1-2-1 Fitness, located on Adelbert Street on the CWRU campus (onetooncase.edu).

Activities

Student Activities

Looking for something to do on campus? The Office of Student Life + Housing offers a variety of events and programs for you to take advantage of. Do you like Lazer Tag? We play alongside Star Wars characters. If you want to laugh, we host comedy nights, hypnotists, and Karaoke. If you are into tradition, we have that too. For over 60 years, CIA students have planned the Student Independent Exhibition (SIE) and the student Halloween party. Our end-of-the-year event, the Pink Pig, is also something that you will not want to miss.

Please see the Student Life + Housing Office for all the offerings.

Athletic Activities

Need to get out of the studio and stretch those legs? Are you a high school athlete looking to relive the glory days? Stop by the Office of Student Life + Housing for information on how to play intramurals at CIA. In conjunction with CWRU, sports ranging from ultimate Frisbee to flag football are at your fingertips.

Kulas Ticket Program

How about a little culture in your life?

The Kulas Ticket Fund, supported through a grant from the Kulas Foundation, allows students to attend performances from the Cleveland Orchestra, Broadway plays, and opera for free. Look for advertisements of when tickets will be available posted throughout campus.

For more information contact the Student Life Office at 216.421.7430.

Student Organizations

Student Leadership Council (SLC)

Make a difference on campus! Join Student Leadership Council! Comprised of representatives from academic departments, student groups, and other concerned students, SLC meets once a month to discuss issues they face on campus. They then serve as a bridge between the student body and the faculty and staff.

All recognized student groups receive funding through Student Leadership Council for their individual events. Student Leadership Council also sponsors trips to cities such as New York, Chicago and Washington DC.

Student Clubs

There are a variety of organizations and clubs at CIA. Many others exist at CWRU and are open to students at both CIA and CIM (Cleveland Institute of Music). If you’re interested in starting a club or organization that does not yet exist, contact Student Life + Housing to get a club application form and find out more about the process. Only approved student groups receive funding from SLC to support their activities. Depending on the membership, clubs may be more or less active each year. Check with Student Life about your interests.

Community Service Club

Students at CIA love to serve the community. The Community Service Club provides opportunities for service in the University Circle neighborhood and in the greater Cleveland community. Some of the past activities include Blood Mobiles, Greater Cleveland AIDS walk, Trunk or Treat at Halloween, the Kaboom Playground...
build, and making dinner for the residents of the Hope Lodge. The Community Service Club also hosts an Alternative Spring Break service trip where students do a week’s worth of service in another community… say New Orleans? Yep…they’ve been there.

**CIA Activities Board (CAB)**

Need a lift? Jump on the CAB wagon and help plan or just participate in great acts like comedians, illusionists, musicians, as well as activities like Star Wars Lazer Tag, the annual t-shirt design contest, and dodgeball tournament. CAB is also responsible for the planning of great CIA traditions like the Halloween Party and Pink Pig.

**GLBT and Friends**

Whether you are a GLBT (gay, lesbian, bisexual or transgendered) student or an ally, this group works to support GLBT students, while educating the campus about GLBT issues.

**Student Holiday Art Sale Committee**

Want to make some money? The Student Holiday Sale in early December is an annual event where for $10 you can rent a table and sell your work. Students from a variety of departments come together to sell merchandise the weekend before final crits in Fall semester.

**Artists for Christ**

Artists for Christ is a student group that gathers weekly to bring together Christian art students. The purpose of Artists for Christ is to promote the spiritual life of CIA students by providing opportunities for Christian spiritual growth through worship, fellowship, training and service. AFC is a local gathering of the Campus Crusade for Christ. Ask about their PB+Js!

**Glass Club**

If you are into potlucks and molten hot glass (at the same time!), then this group is for you. Glass Club not only comes together to talk about their work, but brings in guest artists to talk to students about different techniques in glassblowing. Best part: you do not have to be a major to enjoy the fun.

**Amnesty International**

Amnesty’s global mission is rooted in a fundamental commitment to the rights, dignity, and well-being of every person. Recipient of the Nobel Peace Prize, Amnesty’s more than 1.8 million members worldwide fight to uphold the ideals enshrined in the Universal Declaration of Human Rights.

**Fiber Club**

This group is very active in the Cleveland Community and is open to all majors. In 2009, they worked with MetroHealth Hospital to create additions to the AIDS quilt that are now on display with the rest of the pieces of their legendary piece of art. This group brings in guest artists to talk to students about different techniques and their careers. In addition to speakers, they take several trips and attend conferences.

**Photo Club**

CLICK! Photo club is a group that discusses the field of photography and critiques each other’s work, brings in guest artists to talk to students (majors or not), and sponsors trips to see shows in the area and other cities like Chicago and New York.

**Student Independent Exhibition (SIE)**

Over 60 years old, the Student Independent Exhibition is a time-honored tradition and one of the exhibitions featured in the Institute’s Reinberger Galleries each year. The exhibition is sponsored by the Student Leadership Council and offers students the opportunity to introduce their work to the public for viewing and/or sale. Show rules, jury selection, publicity, exhibition design and installation and the opening reception are organized and coordinated by students. All majors are encouraged to submit work for exhibition consideration.
Supporting Student Enrichment

Cinematheque

founded in 1986, the Cleveland Institute of Art Cinematheque presents new and classic motion pictures—foreign films, independent movies, thematic film series, touring retrospectives, second-run films, and special guests—50 weekends of the year in the 616-seat Aitken Auditorium in the Gund building. Approximately 250 different feature films (or full-length programs of short films) are shown every year (over 450 separate screenings). Many offerings are local premieres. Also, almost everything is projected from beautiful 35mm film. The New York Times called the Cinematheque “one of the country’s best repertory movie theatres.”

Though Cinematheque screenings are open to the general public (attracting thousands of moviegoers every year) and require an admission fee, CIA students can attend any Cinematheque presentation for the discounted member price simply by showing their CIA ID at the box office. People age 25+ under pay even less when presenting proof of age when buying tickets. The Cinematheque publishes a bi-monthly film schedule. You can also find Cinematheque listings online at cia.edu/cinematheque.

Continuing Education

Our office of Continuing Education + Community Outreach (CECO) offers art and design classes for adults and children throughout the year. Pay-as-you-go life drawing classes are available to the community throughout the year as well. We offer professional enrichment opportunities for art educators through BASIC teacher workshops and graduate-level classes. CECO coordinates a summer pre-college program for high school students who want to experience life as an art student. In addition, CECO is the Cuyahoga County regional host of the Scholastic Art+Writing Competition. For more information, visit cia.edu/continuinged.

Galleries at CIA

The mission of the Reinberger Galleries is to serve the Cleveland Institute of Art in exhibiting and fostering the understanding of the finest modern and contemporary art at the highest possible scholarly standards. The programs of Reinberger Galleries adhere to the overall mission of the Institute, embracing its values of academic excellence, social justice, and freedom of expression.

The gallery is dedicated to creating exhibitions that illuminate and reinforce contemporary art, including new media, animation, installation and performance, video, drawing and painting, sculpture, design and craft. The gallery recognizes that the enhancement of the aesthetic experience is essential to fostering understanding of works of art.

Ancillary programs furthering its aesthetic role, such as artist lectures, panel discussions, gallery tours, films, and internships have been part of the gallery’s mission since the early 1990s.

The gallery seeks to enrich educational, cultural and artistic communities regionally, nationally and internationally through short-term artist residencies, newly commissioned works of art, and institutional collaborations while being accessible to a public that ranges from scholars to young children.

Library

The CIA library is a special library for visual artists and supports the Institute’s accredited degree programs, with a focus on providing materials for studio-intensive instruction. As such, the library is crucial for students wanting to keep abreast of developments and trends in their area of study. Beyond classroom and studio support, the library provides pleasure reading materials, comfortable study areas, a group study room, and an exhibition space. Various library activities help connect students with the greater Cleveland art community. Visit cia.edu/library.

Public Events

Throughout the year, we host a wide variety of events that celebrate the diversity of visual art. You’re invited to join us. For more information, visit cia.edu.
Section 8: Degree Requirements + Course Catalog
### Animation (ANIM)

#### Freshman Fall
- FND103D Digital Color 1.5
- FND103M Material Color 1.5
- FND107 Design I 3
- FND107L Design Woodshop Lab 0
- FND117 Drawing I 3
- FND140A Charette: Collaboration + Community 1.5
- FND140B Charette: Self + Other Voices 1.5
- ACD103 Art History I: Ancient-18th C: 3
- LLC101 Writing + Inquiry I: Basic Composition + Contemp Ideas 3

**Total Credit Hours** 18

#### Freshman Spring
- FND104 Digital Synthesis 3
- FND108 Design II 3
- FND118 Drawing II 3
- FND130 Environmental Studio Elective 3
- ACD104 Art History II: 18th C–1945 3
- LLC102 Writing + Inquiry II: Research + Intellectual Traditions 3

**Total Credit Hours** 18

#### Sophomore Fall
- ANIM209 Intro to Animation 3
- ANIM220 Drawing for Animation 3
- ANIM345 Intro 3D Modeling 3
- ILL367 Storyboarding + Sequential Art 3
- ACD203 Art History III: 1945–Present 3

**Total Credit Hours** 15

#### Sophomore Spring
- ANIM201 Concept Development 3
- ANIM240 Experimental Animation 3
- ANIM307A Intro to 3D Animation (prereq: Intro 3D Modeling) 3
- PHV231 Acting + Directing 3
- ACD486 Media Arts + Visual Culture (post-1960s elective) 3
- Liberal Arts Elective * 3

**Total Credit Hours** 18

#### Junior Fall
- ANIM310 Motion Graphics 3
- GAME321 Game Media Production I 3
- ANIM347 Digital 3D Txtr, Light + Rendering 3
- Open Studio Elective or ANIM Special Topics 3
- LLC203 Writing + Inquiry III: Narrative Forms or Liberal Arts Elective 3

**Total Credit Hours** 15

#### Junior Spring
- ANIM308 Advanced 3D Animation 3
- ANIM400 2D/3D Compositing 3
- GDS200 Graphic Design for Non-Majors 3
- Open Studio Elective 3
- LLC203 Writing + Inquiry III: Narrative Forms (if not taken Fall) or Liberal Arts Elective * 3

**Total Credit Hours** 18

#### Senior Fall
- ANIM401 BFA Preparation 3
- IME412 Narrative Production I 3
- Open Studio Elective 3
- Liberal Arts Elective * 3
- Liberal Arts Elective * 3

**Total Credit Hours** 18

#### Senior Spring
- IME402 BFA Thesis + Exhibition 3
- ANIM420 Animation Portfolio Reel + Shorts 3
- GEN398 Business + Professional Practices 3
- Liberal Arts Elective * 3
- Liberal Arts Elective * 3

**Total Credit Hours** 15

* The following liberal arts distribution elective categories must be completed for graduation:

1. Art/Craft/Design History or Theory Elective
2. Non-Western or Cross-Cultural Art/Craft/Design History or Theory Elective
3. Advanced Writing-Intensive Elective: LLC318 Screenwriting
4. Humanities or Lit/Language/Comp Elective
5. Social or Natural Science Elective
6. Open Liberal Arts Elective

**Note:** An optional 3-credit summer internship to be taken either during the summer between Sophomore and Junior year or between Junior or Senior year.

March 2014
### Biomedical Art (BMA)

#### Freshman Fall
- **Credits**  
  - FND103D Digital Color 1.5  
  - FND103M Material Color 1.5  
  - FND107 Design I 3  
  - FND107L Design Woodshop Lab 0  
  - FND117 Drawing I 3  
  - FND140A Charette: Collaboration + Community 1.5  
  - FND140B Charette: Self + Other Voices 1.5  
  - ACD103 Art History I: Ancient-18th C: Research + Intellectual Traditions 3  
  - LLC101 Writing + Inquiry I: Basic Composition + Contemp Ideas 3  
  - Total Credit Hours 18

#### Freshman Spring
- **Credits**  
  - FND104 Digital Synthesis 3  
  - FND108 Design II 3  
  - FND118 Drawing II 3  
  - FND130 Environmental Studio Elective 3  
  - ACD104 Art History II: 18th C–1945 3  
  - LLC102 Writing + Inquiry II: Post-1960s Art+Design History Elective (from selected list) 3  
  - Total Credit Hours 18

---

**Note:** Optional 0-credit Audit Summer Internship to be taken either during the summer between Sophomore and Junior year or between Junior and Senior year.

March 2014.

#### Sophomore Fall
- **Credits**  
  - GDS200 Graphic Design for Non-Majors 3  
  - BMA253 Natural Science + Zoological Illustration 3  
  - BMA255 Human Forms: Heads, Hands, + Feet 3  
  - BMA260 Line: Information Visualization 3  
  - BMA114 Principles of Biology (CWRU) 3  
  - ACD203 Art History III: 1945–Present 3  
  - Total Credit Hours 18

#### Sophomore Spring
- **Credits**  
  - BMA250 Anatomy for the Artist 3  
  - BMA254 Intro to Digital Biomed Illustration 3  
  - BMA264 Digital Color: Style+Representation in Science 3  
  - BMA106 Human Biology (CSU) 3  
  - Total Credit Hours 15

#### Junior Fall
- **Credits**  
  - BMA345 Intro to 3D Modeling 3  
  - BMA353 BMA: Advanced Media Concepts 3  
  - BMA359 BMA: Interactive Narratives 3  
  - BMA Special Topics: BMA356 Forensic Modeling or Open Studio Elective 3  
  - LLC Advanced Writing Intensive Elective or LLC203 Writing+Inquiry III: Narrative Forms 3  
  - BMA116 Anatomy + Physiology I (CWRU) 3  
  - Total Credit Hours 18

#### Junior Spring
- **Credits**  
  - ANIM307A Intro to 3D Animation 3  
  - BMA352 Surgical Illustration+Media 3  
  - BMA354 BMA: Advanced Problems, Concepts + Media 3  
  - BMA Special Topics: BMA407 Micro Narratives or Open Studio Elective 3  
  - BMA117 Anatomy + Physiology II (CWRU) 3  
  - Total Credit Hours 15

#### Senior Fall
- **Credits**  
  - BMA405 BMA BFA Thesis Research 3  
  - BMA Special Topics Course or Open Studio Elective 3  
  - Open Studio Elective 3  
  - LLC213X Writing for the Sciences 3  
  - Open Upper-Level Natural Science or Medical Science Elective (CWRU) approved by chair 3  
  - Total Credit Hours 15

#### Senior Spring
- **Credits**  
  - IME402 BFA Statement + Exhibition 3  
  - BMA Special Topics Course or Open Studio Elective 3  
  - Open Studio Elective 3  
  - Open Studio Elective 3  
  - GEN398 Professional Practices ** 3  
  - Total Credit Hours 15

The following liberal arts distribution elective categories must be completed for graduation:

1. Art/Craft/Design History or Theory Elective
2. Non-Western or Cross-Cultural Art/Craft/Design History or Theory Elective
3. Advanced Writing-Intensive Elective: LLC373W Art of the Personal Essay
4. Humanities or Literature/Language/Composition Elective
5. Social or Natural Science Elective
6. Open Liberal Arts Electives

Performance/Installation Studio courses include: Creative Resistance: Media Art in the Social Sphere; The Artist+Social Practice; Performance Art; Installation; Art+Sound; Experiments in Electronic Arts; Sonic Arts; Moving Image in Space; Media Installation; Installation + The Constructed Object; Installation: The Empire of the Senses

Material Studies Studio courses include: On the Body; String, Felt + Thread; Sewing+Fabrication Processes; Digital Images, Patterns+Structures; Weaving Patterns: Collective Activity; Hybrid Approaches to Painting+Drawing; Digital Modeling+Making

March 2014
Art + Design History I: Ancient–18th Century
ACD 103
Intended to introduce students to art history through the study of major art concepts, theories, and historical events from the ancient Greek and Roman periods to Europe of the Enlightenment. The approach is both chronological and thematic. Offered fall. 3 credits.

Art + Design History II: 18th Century–1945
ACD 104
Covers major movements and ideas in European and American art and design history to the mid-20th century. Students are provided with a firm grounding in the debates and theories of modernity and modernism in art. Prerequisite ACD 103. Offered spring. 3 credits.

Art + Design History III: 1945–Present
ACD 203
Examines influential artists and related concepts of art and design from around WWII through the first decade of the new millennium. Discussions focus especially on critical distinctions and meanings of modern, postmodern, and contemporary art, design, and visual culture. Prerequisites ACD 103 and 104. Offered fall. 3 credits.

Visual Culture and the Manufacture of Meaning
ACD 305
This course will introduce students to critical theories and methods of analysis for interpreting contemporary visual art and culture. Topics include: formalism and stylistic analysis; semiotics and structuralism; Marxist theory; biography; psychoanalytic theory; feminist analysis and gender studies; postcolonial theory; poststructuralism and postmodernity; and media arts studies (electronic/digital technologies). Select interpretive frameworks employed in the “manufacture of meaning” will be situated historically and discussed fully and critically, using seminal writings. Required for Visual Culture Emphasis. 3 credits.

African American Art
ACD 334
This course covers African American art from the late 1700s to the present emphasizing the formal qualities of art as well as the social and cultural contexts within which it was created. Lectures and assigned readings are drawn from the scholarship of art history, literature, anthropology and history. We examine works by U.S. Artists of African descent and others who engage aspects of African American life and culture. Visual Culture Emphasis course. 3 credits.

History of Photography Survey
ACD 348
This is a photo historical survey course. Lectures are presented on leading photographers throughout the history of photography from its earliest beginnings to the present within a context of cultural, art historical, social and political trends. Students develop skills in critical thinking, writing and research through lectures, group discussions, reading and writing assignments along with the production of a comprehensive research paper. Required of Photography Majors. ACD or open liberal arts elective. Offered fall. Visual Culture Emphasis Course. 3 credits.

12 Artists of Post-1950s China
ACD 357
In 2007, one of Yue Minjun’s (b. 1962–) paintings, Execution, was sold for US$5.9 million dollars at Sotheby’s in London. It became the most expensive art work ever by a Chinese contemporary artist, and created a sensation over Chinese Contemporary Art in the Art and Business Worlds. This course will focus on 12 major artists (from Installation, painting, sculpture, performance art, photography and cinema), some of whose works were banned in China, but gained international recognition. The year of 1949 is the year of the split of the PROC (Mainland China) and ROC (Taiwan), and when the Communist Party gained its political legitimacy in Chinese history; we will thus consider with the artistic climate from the 1950s until the present time. All these 12 artists were born between the 1950s and 70s; ten of them went through the Cultural Revolution of the 1970s, and were in exile after the Tian’anmen Incident/Massacre in 1989. Visual Culture Emphasis course. 3 credits.

An Introduction to African Art
ACD 358
This art history course provides an introduction to the visual art traditions of sub-Saharan Africa from ancient cultures to the present. Lectures and readings are drawn from art historical scholarship as well as from other disciplines (anthropology, archaeology, visual culture studies) that provide a sense of the social, political and religious contexts within which the art was created and used. The study of African art from a Western perspective presents questions that are covered in class: When and under what circumstances did “Africa” as a concept emerge? Did Africans consider their works “art” in the same sense that Westerners use that term? How did Western museums acquire African art and how does that inform the way we understand African works? In what ways did colonialism, the spread of Islam and Christianity, pan-Africanism and post-colonial movements affect artistic production? How do we understand modernism in an African context? Fulfills non-Western or cross-cultural art history requirement. Visual Culture Emphasis course. 3 credits.

Exhibition Theory + The Culture of Display
ACD 363X
While fundamental theories of exhibition design are applicable to exhibiting art in a variety of public and private places, there are considerations of philosophy and methodology that are unique to this field. This course is designed to give students preparing for careers in the arts an understanding of those philosophies and exposure to the practical techniques that have been proven useful by people in the field. The required text book title suggest that the course will focus on contemporary visual display strategies but consistent applications will be made to explore gallery and museum standards. Visual Culture Emphasis course. 3 credits.
This lecture/exercise/discussion-style course is to explore the art and culture of China (including mainland China and Taiwan). Political, religious, social, and visual aspects of the art will be stressed in class. In order to understand Chinese art and civilization, we will look at art objects from terra-cotta pottery of the Neolithic period, bronze vessels, Buddhist murals and sculptures of the Tang era, literati paintings and imperial tastes of medieval China up to contemporary art. Subjects such as women artists and performing arts will be also discussed in this course. As the semester progresses, some additional readings may be assigned. Visual Culture Emphasis course. 3 credits.

Asian Art Survey
ACD 372
This course serves as a “survey” or a window for the art of multiple cultures. This lecture/exercise/discussion-style course explores the art and visual culture of Asia, focusing on India, Japan and China. Political, religious, social, and visual aspects of the art will be stressed in class. In order to understand the art and civilization of these three countries, we will look at art objects ranging from ancient archeological finds, medieval architecture to modern and contemporary art. Subjects such as women artists, performing arts and animation will also be discussed in this course. The content of this course will be generally divided into pre-Modern, Modern + Contemporary eras in which art and visual culture will be discussed with geographic perspectives. As the semester progresses, some additional readings and films may be assigned. Each student is encouraged to find examples learned in this course and apply them to his/her intellectual development. Visual Culture Emphasis course. 3 credits.

Art of China
ACD 365
The primary goal of this course is to explore the art and culture of China (including mainland China and Taiwan). Political, religious, social, and visual aspects of the art will be stressed in class. In order to understand Chinese art and civilization, we will look at art objects from terra-cotta pottery of the Neolithic period, bronze vessels, Buddhist murals and sculptures of the Tang era, literati paintings and imperial tastes of medieval China up to contemporary art. Subjects such as women artists and performing arts will be also discussed in this course. As the semester progresses, some additional readings may be assigned. Visual Culture Emphasis course. 3 credits.

Art of East Asia
ACD 373X
This lecture/discussion-style course is to explore the art and visual culture of East Asia, focusing on Japan and China. Political, religious, social, and visual aspects of the art will be stressed in class. In order to understand art and civilization of these two countries, we will look at art objects from ancient archeological objects, medieval architecture to modern and contemporary art. Subjects such as women artists, performing arts and animation will also be discussed in this course. Visual Culture Emphasis course. 3 credits.

American Crafts History
ACD 376X
This course will necessarily focus on American crafts. However, an effort will be made to incorporate other expressions (especially non-Western) into the mix too. For example, there are readings in Adamson on the Scandinavian slöjd system, Bauhaus aesthetics, the Japanese concept of mingei, the Indian notion of svadharma, the Mande blacksmiths of West Africa, and subversive (feminist) stitchery, in addition to writings by Anni Albers, Karl Marx, Frank Lloyd Wright, Ellen Gates Starr, George Nakashima, Carole Tulloch, Garth Clark, and many more. Visual Culture Emphasis course. 3 credits.

10 Chinese Painters You Must Know
ACD 377X
Giorgio Vasari, the Italian Renaissance painter and writer, provided important information in his Lives of Artists, which gave readers portraits of artists’ character and talents. In the same manner, the lives and stories of Chinese painters were documented in records past and present. This course focuses on 10 (+ a Plus 1) painters (with their lives, paintings, painting styles, and ideas/theories) and their influences in the development of Chinese painting history past and present – for example, Zhao Mengfu (1254-1322 AD) and the movement of “Return to Antiquity” in the Yuan Dynasty (1279-1368 AD) and Dong Qichang (1555-1636 AD) and his orthodox “Northern and Southern Schools” in Chinese landscape painting from the 17th century onward. The painters we discuss will range from the 6th to the early 20th centuries AD, and the painting subjects will include figure, bird-flowers, landscapes, narratives, and miscellaneous ones. Visual Culture Emphasis course. 3 credits.

Issues in 20th + 21st Century Art
ACD 380X
This joint course between CIA and CWRU will revolve around the main issues and questions of late 20th and 21st century art, namely:
- What is Contemporary? Possible definitions and conceptual revisions.
- Theory versus Praxis, or a more combined Art + Research model?
- Art as a thinking process | Thinking as a creative process (following the contemporary, and truly trans-historical model: “art as research” and “research as art”)
- The dynamic inter-relationship of different media, and fields of study (as in installation art, and Krauss’ “post-medium condition”).
- The anxiety of interdisciplinarity (an inquiry and examination of the efforts, as well as the resistance, towards such approach).
- Artists, for the most part, no longer define themselves as medium-specific, but primarily as visual artists and researchers. Fluidity among media is currently explored in a philosophical and artistic positioning that regards indeterminacy, uncertainty, and even ambiguity as positive and productive values.
- Inter/Cross/Trans/Multi are, therefore, welcomed prefixes and defining elements of an artistic discourse that aims at moving beyond established categories.
- Interdisciplinarity involves the combining of two or more disciplines into one activity, and it entails creating something new by crossing or thinking across boundaries. This might generate a sense of anxiety, which reflects the territorialization quite prevalent in academic and artistic arenas.
- More than specifically or strictly answering these main questions, the course will attempt to open channels for exchange, debate, and discussion. 3 credits.
Changing Views: Perspectives on African Art
ACD 385X
Through lectures, readings, and discussions, this seminar will explore important developments in the history of the reception, study, and photography of African art, from the 15th century to present day. An analysis of a number of key publications by pioneering scholars in the field will illustrate the multiple approaches that have been developed to gain insight into Africa’s artistic heritage. Special attention will be devoted to the dialogue between anthropological and art-historical perspectives on the arts of Africa. This seminar will also address the politics and ethics of the acquisition and representation of African art, as well as the methodological challenges connected to their formal and stylistic diversity, and issues of artistic production and patronage. 3 credits.

Visual Culture Emphasis Senior Research Paper
ACD 415
Research paper required of seniors pursuing the Visual Culture Emphasis. Not open as an elective. Offered spring. Pass/fail. 3 credits.

Issues in Design: Theory + Culture of Design
ACD 416
What exactly is the “culture” of design? We will explore the interdisciplinary aspects of contemporary design practice and theory in relationship to the complexities of culture and society, especially with respect to urban environments. We will move from conventional considerations of the history of modern and postmodern art and design, to a broader contemporary understanding of design with respect to globalization, consumerism, technological change, sustainability, infrastructure, city planning, urban design and alternative trends. Visual Culture Emphasis course. 3 credits.

Race and Representation in Contemporary Art and Culture
ACD 420
This seminar-style course considers the relationship between race and representation in visual art and culture during the last three decades using contemporary methods including multi-culturalism and postcolonial theory. We will discuss and analyze examples of contemporary art as well as popular culture drawn from advertisements, animation, film, the internet, installation and performance art, sculpture, photography, television and video. The focus will be on American culture, but discussions will also include the cultural contexts of Africa, the Caribbean, Europe, and Latin America. In addition to the primary focus on the representation of race, questions of class, sexuality, and gender will also be considered. Questions to be addressed include: Is race largely a biological or cultural phenomenon? How are “white” and “mixed-race” understood as racial categories? How have artists of different races dealt with racial identity and representation? Do popular media such as commercial advertisements and music videos convey prevailing notions of racial stereotypes? Visual Culture Emphasis course. 3 credits.

Modernism in Latin American Art
ACD 443X
Whether one considers constructivist sculpture, architectural design, photography, painting, printmaking, or decorative arts, much of the 20th Century art production in Latin America countries is best understood in terms of the struggle to assimilate, redefine, and/or resist styles and concepts of “modernism.” In this course we will consider how twentieth-century Latin American art and artists have been interpreted vis-a-vis trends in Europe and the United States, paying particular attention to how issues of cultural and economic exploitation created unique types of personal and national identity. In addition to analyzing the works of such well-known artists as Diego Rivera, Frida Kahlo, David Alfaro Siqueiros, Jose Clemente Orozco, Wifredo Lam, and Oscar Niemeyer, classes will be arranged thematically to better explore developments in various media and to draw distinctions among the arts of various countries, especially Mexico, Puerto Rico, Cuba, and Brazil. Visual Culture Emphasis course. 3 credits.

Advertising + Consumer Culture
ACD 448
This course will examine advertisements in the print media with respect to various elements, including: economic and social class; race; ethnic identity; age; gender; and sexuality. The course begins with an introduction to the method of analysis called semiotics, the techniques of which will be used to determine how advertisements convey their messages and how they address themselves to particular consumers. In addition to the elements outlined above, we will discuss several recent controversial issues. While this course will not center on a history of advertising, it will treat the historical place of print advertising in capitalist consumer culture. Interventionist tactics by various artists that attempt to subvert the economic and ideological function of ads will also be examined. Visual Culture Emphasis course. 3 credits.
The Body: Tradition, Transformation, Transgression
ACD 458
This seminar-style course will explore one of the most important themes of 20th-century visual art: the body (male and female). We will discuss a complex range of ideas and values associated with the nude (and naked) body as it has been re-presented in 20th c. photography; painting; sculpture/installation; performance and body art; and video. While the “great tradition” of the nude will be introduced, the course will focus on art produced since the 1950s (from the late modern to the postmodern era). Among other topics, we will study the visual body as a representational site for the self; for erotic desire; for the political position of women; and for formal experimentation. We will look at art that presents bodies which are very much outside tradition: i.e., bodies that are sick, decaying, dying, dead, aging, obese, androgynous, deformed, etc. Topics and terms of analysis will include: the traditional nude; feminist critiques of sexism; voyeurism; “exploitation,” “obscenity,” and censorship; objectification (gaze theory); sexuality; the nude self-portrait and portrait; parody and quotation; the female nude and modernism; Kenneth Clark’s nude-naked (ideal-real) dichotomy; identity and performance; and formal aestheticizing of the body. Visual Culture Emphasis course. 3 credits.

Design + Craft in Modern Culture
ACD 462
This course is an introduction to graphic and three-dimensional design from the Industrial Revolution to the present. We will examine modern and contemporary artists, styles, and objects across the design and craft disciplines, including finely crafted furniture and other objects designed for public and private spaces (architectural details and ornamentation, wallpaper, textiles, lamps, kitchenware, etc.); decorative objects such as ceramics, metalwork, and glass; objects of mass production and consumer culture (cars, trains, cameras, corporate and residential furnishings, electronic goods, etc.); art posters, private press books and illustrations, and innovative forms of communication graphics. Special consideration will be given to the social and cultural meanings of objects, issues related to the design and craft fields as professional occupations, and the artistic and historical and theoretical relationships of the various design and craft disciplines beyond medium (material) specific concerns. Visual Culture Emphasis course. 3 credits.

Conceptual Art
ACD 483X
This theme-based art history course is designed to give students an in-depth, semester-long investigation into the art movements and ideas that informed Conceptual Art’s development in the 1960s and 1970s as well as its impact on contemporary art making in the decades that followed. This course will cover, but not be limited to, the so-called heyday of Conceptual Art in the 1960s and 1970s, a focus on which would otherwise reinforce the traditional modernist art historical framework that defined styles in part by limiting them to a specific time period. Significant time in the class will be devoted to investigating examples of conceptually-informed art created in the 1980s, 1990s and the early 21st century, underscoring the impact of Conceptual Art’s legacy for art, craft and design today. The course will investigate the philosophies that informed conceptual art that allowed artists to problematize the conditions and encounters with art; the conventions of its visibility, and the circumstances of its production. Visual Culture Emphasis course. 3 credits.

Museum Studies:
Who Owns Art?: Issues in Asian Art Collecting
ACD 480X
In the past five to ten years, issues of ownership and provenance of art works in museums have been hotly debated, with regard to both art world ethics and cultural sensibilities. Some art museums have returned holdings to their original countries and some have firmly maintained their legitimate ownership of objects. For example, the Metropolitan Museum of Art in New York recently returned to Italy the fifth-century B.C. Euphronios krater. The looting of art has existed in both the past and the present and has not been limited to European countries alone. It has also occurred in Asia—China, India, and other South Asian countries—where the looting has come from internal rather external motivations. How much do we know about such occurrences in Asia? Significant time in the class will be devoted to exploring issues of ownership in the art and visual culture of Asian countries, and how they are represented and displayed in current European and American contexts. In order to understand this current issue, some historical background on art collecting and museum operations can not be omitted. Participation in readings and discussions are expected in the classroom. Visual Culture Emphasis course. 3 credits.

Media Arts + Visual Culture:
Installation
ACD 486
This course investigates the emergence, prominence and impact of the installation as a new medium in contemporary art. “Media arts” or “new media” include but are not limited to video and experimental film, performance, interactive art, digital media, and especially the installation, which itself embraces a wide range of media. We will focus on the growth of the installation from “environments” in the 1960s into a distinct artistic medium used widely since the 1980s. We will discuss the work of many recognized artists and some less familiar artists from around the world as well as corresponding theories of media within the broader field of visual culture. Using a wide range of installations as examples, particular attention will be given to the implications that new media, especially digital media, have for the creative process and the critical social issues that they raise. Visual Culture Emphasis course. 3 credits.
Media Arts + Visual Culture: Interactive
ACD 487

What is “interactivity”? A recent publication is titled Total Interaction, but what does that mean? In this course we will look closely at the history, theory, and practice of the interactive as a facet of contemporary art, design, and media culture. We will explore thematic zones or territories of the interactive both real and imagined, including: cybernetic systems, sci-fi and popular culture, visionary design, interactive animations and massive multi-player games, convergent technology, responsive environments, and “A.I.” (i.e., artificial intelligence). A previous course in modern and contemporary art or visual culture is assumed for all participants. Visual Culture Emphasis course. 3 credits.

Liberal Arts classes can be found in the Course listing section of this catalog under:
ACD: Art/Craft/Design History+Theory
HCS: Humanities/Cultural Studies
LLC: Literature, Language + Composition
SNS: Science + Natural Studies
Animation

Concept Development I
ANIM 201
A core requirement to learn digital painting in motion, scene design, character development, technical direction, and related animation production pipeline standards for developing animated stories, shorts, films, and animated cinematography. This course examines the media production requirements for animation students in applied professional studios. This course serves to develop the animator's core mechanics and vocabulary in the broad areas of animation integrated workflow (story conception, storyboarding, animatics, motion studies, character flow and design, scene, set, and props (look artists), technical direction, and summary of post-production flow) to meet industry expectations and professional output. Offered fall. 3 credits.

Intro to Animation
ANIM 209
The goal of this class is to gain a basic understanding of the fundamentals of movement, timing and rhythm and how they convey mood and character, even in the most abstract sense. Animation is the artificial movement of an otherwise static object. By moving that object incrementally—whether by position, color, shape, size, etc., we can create movement. By syncing that movement to sound, we emphasize the movement and create further depth and meaning. Required materials: 7200 rpm hard drive. Offered fall. 3 credits.

Drawing for Animation
ANIM 220
Drawing for Animation is an essential course for anyone who is interested in visual storytelling. This course will teach students how to draw ideas, actions, and gestures that effectively communicate a story. Students will draw from live models in costumes, animals in motion, and create characters that capture storytelling poses. An emphasis will be placed on exaggeration, silhouetting, line of action, balance, and gesture: all of which are needed to communicate a character's attitude and story. This course is highly recommended for animators and illustrators. Offered fall. 3 credits.

Experimental Animation
ANIM 240
This course will introduce students to the history and experimental techniques used in the animation industry. Students will learn how to bring stories to life through stop-motion, charcoal drawings and mixed-media animation. Students will learn how to build sets, rig puppets, and use technology such as the green screen/lighting studio and cameras. This course serves as a great introduction to non-traditional animation for students who are interested in bringing physical materials to life. Offered spring. 3 credits.

Intro 3D Animation: Character
ANIM 307A
This is an introductory course in 3D animation as an art form, with an intensive focus on use of the use and development characters in animation. Successful animation breathes life into motion with clear communication of thought, emotion, narrative or experience. Any moving object is a “character” in film or animation. We will hold regular discussions and workshops on how the dialogue of an otherwise stagnant object changes and evolves when put to motion. Methods of instruction will consist of lectures, demonstrations, artist research, studio assignments, in-class lab time, and group critiques. 3 credits.

Advanced 3D Animation
ANIM 308
Prerequisites: Intro to 3D Modeling and Intro 3D Animation.

Motion Graphics
ANIM 310
An advanced project-based course whose goal is to create finished broadcast- or web-ready animation or motion graphics pieces. Emphasis will be on learning After Effects. This course covers contemporary issues in motion graphics and broadcast design. In this class, students will visualize, develop, and realize various creative solutions for tasks in 2D and 2.5D animation projects. Concept development, visual storytelling, montage theory, typography, sound design, and principles and meanings of movement will be explored. Ultimately, the student will be expected to produce two complete pieces. 3 credits.

3D Texture, Mapping + Digital Lighting
ANIM 347
This course is designed to cover concepts in digital application of texture maps for 3D game models rendered in a real-time 3D game engine. Optimization of textures maps, and materials, Poly count limits, and how to “bake” extremely high levels of detail into low detail models capable of being rendered in real-time, and the benefits of using “Levels of Detail” with static, and dynamic lighting concepts, design, and optimization. The use of toggle-able lighting, and attachment of lighting to game assets and players. The importance of creating immersive environments, capable of being walked through, and/or viewed from multiple, often unspecified angles of view. Projects include concept integration into technical production workflow for describing, and optimizing digital 3D surfaces for rendering in a real-time game engine; creating immersive environments that express mood, and narrative through the materials, and lighting. Projects require the student to continually improve upon conceptual problem solving, time management strategies, communication/presentation and technical skills. 3 credits.
Animation: Internship
ANIM 399-499
Elective credit can be given on a case-by-case basis for student internships developed through the career services office, with advance permission of instructor and department Chair.

2D/3D Compositing for Animation
ANIM 400
The course is designed to instruct students in the process and concepts of integrating 2D and 3D images from multiple digital sources into a single, seamless whole composite. The course will be examining tools, techniques and concepts which help to augment and compose digital space for sequences of images (still images, animations + video). Digital compositing is the manipulated combination of at least two or more sources of images to produce and integrated result. The course will use the process of compositing to demonstrate the following advanced concepts + techniques: digital compositing concepts, motion graphics integration, post production special effects, matte painting/masking, basic 2D rotoscoping and animation of different composited layers, depth and 2D space composites, 3D generated render passes, lighting and color correction for image synthesis and rendering with correct frame rate and aspect ratios. The fundamental concepts, principles and practices of time based digital compositing and rendering in order to establish a common aesthetic and technical language necessary to develop quality professional visual communications. Based primarily in the software program Adobe After Effects, students will immerse themselves in the making of integrated 2D works that are driven by medical/scientific, socially, culturally and research connected narratives. Offered spring. 3 credits.

BFA Research + Preparation
ANIM 401
This course is structured to support the individual in shaping her/his own project and the production of all elements of the BFA Thesis, strong conceptual skills developed through a professional planning and a good researched idea are core to this process. Offered fall. 3 credits.

Narrative Production I
ANIM 412
Students learn how to fully develop a narrative based concept for production. In this class, students will: 1. develop their ideas, 2. write a script based on those ideas, 3. deconstruct their script in order to fully understand their proposed piece, 4. rewrite their script, 5. produce, review and edit storyboards, and finally, 6. produce, review and edit an animatic based on their storyboards. This is a project based learning experience designed to help students develop narrative based work, and will be especially helpful for seniors doing BFA project development. Offered fall. 3 credits.

Animation Portfolio Reel + Shorts
ANIM 420
This course is a requirement for Animation students but also recommended for any student interested in the entertainment industry. Students will build and present a professional portfolio while learning career search and interviewing skills. Students will have the opportunity to create animated shorts and refine their best work. Each student will leave this course with a professional portfolio and a demo reel in their area of expertise. Offered spring. 3 credits.
**Biomedical Art**

**Principles of Chemistry**
BMA 105
Atomic structure; thermochemistry; periodicity, bonding and molecular structure; intermolecular forces; properties of solids; liquids, gases and solutions. If you are a CIA BMA Student wanting to take advanced Biology / Anatomy at CWRU; you will need this course as an additional prerequisite to gain access to specific upper level electives. See prerequisite notes for each course. **3 credits.**

**Human Biology in Health + Disease**
BMA 106
This is an introduction to biological principles. Topics include discussion of cell structure, cell function, and physiology of digestion, circulation, excretion, and coordination in normal and disease states. Cross-registration at CSU required. Offered spring. **3 credits.**

**Principles of Biology**
BMA 114
A basic biology course designed for the non-major. Topics include: molecules of life, cell structure, respiration and photosynthesis, molecular genetics and gene technology, heredity and human genetics, population genetics and evolution, diversity of life, and function of ecosystems. Course includes some applications of biological principles to agricultural, medical, and environmental concerns. Cross-registration at CWRU required. Offered fall. **3 credits.**

**Human Anatomy + Physiology I**
BMA 116
This course is the first course in a two-semester sequence that covers most systems of the human body and covers homeostasis, membrane structure and function, membrane transport, tissue types, the integumentary system, neurons and nerves, the central nervous system, the peripheral nervous system, special senses (vision, hearing and equilibrium, taste, smell), and the cardiovascular system. Prerequisites: BMA114. Cross-registration at CWRU required. Offered fall. **3 credits.**

**Human Anatomy + Physiology II**
BMA 117
This course is the second course in a two-semester sequence that covers most systems of the human body and covers respiratory system, endocrine system, digestive system, lymphatic system, immune system, urinary system, acid-base regulation, and reproductive systems. Prerequisite: BMA116. Cross-registration at CWRU required. Offered spring. **3 credits.**

**Biomedical Art Graphics**
BMA 203-303
This course serves as an introduction to biomedical graphic instructional design and production. The course will utilize Adobe Illustrator to create vector based instructional illustrations and design elements (text, and image) within a context for specific audiences. Emphasis will be on illustration combined with design principles, typography, and composition resulting in pre-press and print ready media. The use of Adobe InDesign to create layout for instructional and sequential page graphics will be utilized in the process of production. **3 credits.**

**Genes + Evolution**
BMA 214
First in a series of three courses required of the biology major. Topics include: Biological molecules with a focus on DNA and RNA; Basics of cell structure with a focus on the nucleus and chromosomes; Cell cycle, mitosis, and meiosis; Molecular genetics, viruses, and gene technology; Classical and microbial genetics; Population genetics and evolution; Diversity resulting from evolution. Cross-registration at CWRU required. Prerequisites: BMA105 (CWRU CHEM105). **3 credits.**

**Vertebrate Biology**
BMA 223
A survey of vertebrates from jawless fishes to mammals. Functional morphology, physiology, behavior and ecology as they relate to the groups’ relationships with their environment. Evolution of organ systems. Two lectures and one laboratory per week. The laboratory will involve a study of the detailed anatomy of the shark and cat used as representative vertebrates. Students are expected to spend at least three hours of unscheduled laboratory each week. This course fulfills a laboratory requirement for the biology major. Recommended preparation: BIOL 214. You must choose a lab section, A (Tuesday) or B (Thursday). Cross-registration at CWRU required. **3 credits.**

**Evolution**
BMA 225
Multidisciplinary study of the course and processes of organic evolution provides a broad understanding of the evolution of structural and functional diversity, the relationships among organisms and their environments, and the phylogenetic relationships among major groups of organisms. Topics include the genetic basis of micro- and macro-evolutionary change, the concept of adaptation, natural selection, population dynamics, theories of species formation, principles of phylogenetic inference, biogeography, evolutionary rates, evolutionary convergence, homology, Darwinian medicine, and conceptual and philosophic issues in evolutionary theory. Cross-registration at CWRU required. **3 credits.**

**Anatomy for the Artist**
BMA 250
This course is required for sophomore Biomedical Art majors and is also open to elective students on a space-available basis for studio or liberal arts social/natural science credit. The course is designed to strengthen the students’ understanding and use of figure anatomy within their work. Reflecting the interdisciplinary nature of biomedical art, the course will have two complementary components. These components reflect a multidisciplinary approach to muscular anatomy and figure drawing. Study in this area is designed to
provide the student with a good grasp of muscular anatomy as it strongly relates to drawing the figure and its proportions. This course will provide the student the opportunity to interpret anatomy knowledge by working directly from the model and human cadaver from CWRU Anatomy Department. This course is designed to provide the student with a solid basic understanding of muscular anatomy as it relates to surface anatomy, proportion and movement of the human figure. The course incorporates lectures on anatomy, figure proportion and drawing techniques linked to direct and accurate observation of the figure model and cadaver model. Offered spring. 3 credits.

**Intro to Cellular + Molecular Biological Systems**  
BMA 251  
This course will emphasize an understanding of living organisms at the cellular level from a molecular view point. Topics to be covered will include: unity and diversity of living things, evolutionary relatedness, cells, tissues and organelles, life as a biochemical process, molecular building blocks of life, gene structure and function, uses of model organisms and molecular experimental methods. The topics to be covered are relevant to current practices in biotechnology, medicine and agriculture and these connections will be highlighted. Cross-registration at CWRU required. 3 credits.

**Natural Science + Zoological Illustration**  
BMA 253  
This course is designed to develop strong observational skills, and integrate traditional and digital media within the scope of monochromatic production. The goal will be to convey an aesthetically powerful illustration, which effectively provides a solution for a specific visual communication problem. The student will learn a vocabulary for expressing pertinent natural science and medical art concepts in relation to technique, design, composition, object accuracy/integrity and context. Students outside the major of Biomedical Art will be required to apply the concepts and techniques taught in class to observational subjects pertinent to their major of study.

The emphasis will be tonal and line base methods in various media, including graphite, ink, black/white color pencil, carbon dust, and introductory digital illustration techniques in Adobe Photoshop. The rendering concepts learned will provide a solid foundation for subsequent semesters and be integrated further into the broader scope and applications in Biomedical Art. Offered fall. 3 credits.

**Intro to Digital Biomedical Illustration**  
BMA 254  
This course serves as a continuation of the first iteration of Biomedical Art Methods I. In this section, the student will continue to focus on natural science and anatomically based concepts and subject matter, dealing specifically with human biology/anatomy and body systems. Utilizing knowledge from Human Biology II and anatomical references, the student will continue to develop keen observational skills and apply those concepts through digital methods. Students outside the major will learn techniques in digital illustration and concepts in visual communication for editorial and narrative based projects. The core media will be centered in Digital Illustration methods and concepts in monochromatic tone. The integration of digital media will be used in unique ways to explore the boundaries of medium and convention in modern production. Digital illustration skills in Adobe Photoshop, and Illustrator will be learned and augmented through traditional scanned work. The rendering concepts learned will provide a solid foundation for subsequent semesters and be integrated further into the broader scope of the biomedical art major. Offered spring. 3 credits.

**Line: Information Visualization**  
BMA 260  
This course serves as a comprehensive investigation of line to communicate simplistic to complex informational systems. Both traditional forms of media (graphite, pen/ink, charcoal pencil etc.) and digital forms of line (vector ink, vector paint, and raster ink, raster paint) will be utilized to explore subjects in plant science, animal science, general biology and micro and macro processes and human systems. From gesture, quick sketching in line, preliminary line concepts, to sequential narrative in line, and fully rendered line projects; will be central outcomes in the course. All non-majors are encouraged to enroll; the course is specifically design as course support for Illustration, Drawing, and Animation majors. The subject matter for non-majors will NOT be science based but editorial, experimental, and sequential narrative. Offered fall. 3 credits.

**Digital Color: Style + Representation in Science**  
BMA 264  
This course is required for sophomore Biomedical Art majors and is open as an elective on a space-available basis to all students interested in techniques and concepts in traditional and digital color media. The course will focus on principles of color theory, light on form, line, texture, aesthetic impact, and accuracy of content in the illustration of scientific information and editorial content. Through research,
planning, and the application of medical and scientific knowledge, the students use color to effectively communicate conceptual and observational problems. Assignments focus on the creative use of color to express specific communication objectives to a range of audiences for both majors in Biomedical Art and other majors of study. This course supplements the integration of traditional and digital illustration techniques for non majors, focused on editorial, and narrative based course work. Offered spring. 3 credits.

**Human Learning + The Brain**  
**BMA 301**

This course focuses on the question, “How does the human brain learn?” Through assigned readings, extensive class discussions, and a major paper, each student will explore personal perspectives on learning. Specific topics include, but are not limited to: the brain’s cycle of learning; neocortex structure and function; emotion and limbic brain; synapse dynamics and changes in learning; images in cognition; symbolic brain (language, mathematics, music); memory formation; and creative thought and brain mechanisms. The major paper will be added to each student’s SAGES writing portfolio. In addition, near the end of the semester, each student will make an oral presentation on a chosen topic. Cross-registration at CWRU required. 3 credits.

**Herpetology**  
**BMA 305**

Reptiles (crocodilians, turtles, lizards, snakes) and amphibians (frogs, salamanders) have developed unique mechanisms for dealing with their environment. Yet their structure, function, and behavior are governed by their ancestry and by certain principles which apply to all living organisms. This course will cover many aspects of amphibian and reptile biology, including anatomy, evolution, geographical distribution, physiological adaptations to their environment, reproductive strategies, moisture-, temperature-, and food-relations, sensory mechanisms, predator-prey relationships, communication (vocal, chemical, behavioral), population biology, chemistry and physiological actions of venoms, and pathophysiology and treatment of snakebite. Laboratory Sessions will be devoted to learning species identification by means of dichotomous keys, discussion of the natural history of Ohio’s amphibians and reptiles, survey techniques for determining population size and structure, and observations of the behavior of live reptiles and amphibians. Several daytime (Saturday or Sunday) field trips are held as the weather warms, one nighttime field trip is held in late March to observe salamander migrations, and there is a one-day field trip to either the Columbus Zoo or the Toledo Zoo Reptile House. Cross-registration at CWRU required. 3 credits.

**Educational Media Installation**  
**BMA 306B-406B**

This Educational Media Installation class serves as an introduction to and the exploration of media installation and exhibition design techniques; including how physical media, and virtual interactive and linear media can be applied to educational and informational settings including museums, cultural institutions and public education access points. Lectures will cover concepts and presentations of the history of educational display, museum arts, and how traditional media intersects with contemporary digital media, to inform and educate specific audiences at public institutions of culture/knowledge. Course work will be hands-on practice of techniques and concepts presented in lecture, discussion of readings, and critique of student projects. This class will involve both ideation and proposal development, as well as producing 1-2 educational media installations in collaboration with the curators and staff at The Cleveland Museum of Natural History, The Cleveland Botanical Gardens, and The Cleveland Metroparks Zoo. The course will also incorporate field trips and guest lecturers to supplement the knowledge and practiced gained from studio practice. Projects will involve working with diverse materials, media, and electronic media. 3 credits.

**Serious Game Design: Theory + Applications**  
**BMA 308-408**

This course introduces the fundamentals of serious or educational game development. The course materials and projects will help students understand how and why games can be used for learning in the fields of health, medicine, science and games for social change. The course exposes students to examples of the current work and research in game design mechanics, game learning mechanics and assessment mechanics; which are integral to development of successful educational games. Students will be exposed to industry-specific serious games (games for learning, corporate training, news games, games for health, science, exer-games, military games, and games for social change.) These examples along with specific lecture topics and materials, will allow the student to understand how to develop their own serious game projects by learning specific research methods for understanding content, players and engagement strategies. 3 credits.

**Basic Histology**  
**BMA 312**

Fundamental histology course covering microscopic structure, nomenclature, and function of normal cells, tissues, and organs (human emphasis) to provide a sound foundation for bioengineering, pre-medical and pre-dental students. CIA Students interested in registering for this course; please contact BMA department chair and Dr. Joseph Miller, CWRU course faculty. Cross-registration at CWRU required. 3 credits.

**Fundamental Immunology**  
**BMA 316**

Introductory immunology providing an overview of the immune system, including activation, effector mechanisms, and regulation. Topics include antigen-antibody reactions, immunologically important cell surface receptors, cell-cell interactions, cell-mediated immunity and basic molecular biology of B and T lymphocytes. Lectures emphasize experimental findings leading to the concepts of modern immunology. Cross-registration at CWRU required. 3 credits.
Microbiology  
BMA 343  
An introduction to the physiology, genetics, biochemistry, and diversity of microorganisms. The subject will be approached as both a basic biological science that studies the molecular and biochemical processes of cells and viruses, and as an applied science that examines the involvement of microorganisms in human disease and in the workings of ecosystems, plant symbioses, and industrial processes. Topics will include the structure and anatomy of cells and viruses, microbial growth and diversity, the genetic basis of growth and development, bioenergetics, the immune system, pathogens that cause disease in animals and plants, clinical microbiology, biotechnological applications of microbes, and microorganisms that interact with the environment. Cross-registration at CWRU required. 3 credits.

3D Bioforms: Introduction to 3D Modeling  
BMA 345  
The course is designed to cover concepts in digital 3D organic and device model construction, whereby the virtual models designed are rendered and composited for 2D illustration purposes to solve specific conceptual problems. The subject matter within the Game Design curriculum reflects the development of characters, game environments and specific assets for game development. Students outside the Game Design Major, are required to work with subjects appropriate to their major field of study for concept development and for long term portfolio objectives. Projects include concepts and workflow for constructing a virtual 3D surface by; (1) defining the visual problem within a concept sketch in pre-production, (2) utilizing specific introductory modeling methods to build the 3D illustration components, (3) the use of basic lighting and rendered materials, (4) export methods into Adobe Photoshop for augmentation, finishing and final illustration techniques and layout. Projects require the student to gain and improve upon conceptual skills, problem-solving in specific media situations (digital 2D + 3D) and technical proficiency at an introductory level in 3D modeling. 3 credits.

Biomedical Art: Intro to 3D Animation  
BMA 346  
This course serves as an introductory platform to investigate and discover object, environment, human and natural science 3D animation to create a narrative with goals to communicate a message and/or educate and instruct the viewer. The student will use the concept of narrative to tell animated short stories of the body, environment and/or natural science through the medium of 3D digital animation software. Within the course, strong conceptual skills are emphasized and developed through professional production techniques, workflow and time-based linear media. Successful animation breathes life into motion with clear communication of thought, emotion, narrative or experience. Any moving object is a “character” in film or animation. We will hold regular discussions and workshops on how the dialogue of an otherwise stagnant object changes and evolves when put to motion. Methods of instruction will consist of lectures, demonstrations, art + scientific research, studio assignments, in-class lab time, and group critiques. The principles of 3D space and motion/timing will be used as the foundation for understanding how to communicate a message through animation. Learning the ideas of simplistic object, environment and body motion accuracy/timing will be taught in 3D and students will be expected to create simple to complex animations (based on level and individual progress.) The computer will be explored like other art media and will serve as a tool for creation. This course is designed to benefit all majors AND non-majors who have had a prerequisite course in 3D modeling. 3 credits.

Human Anatomy  
BMA 346C  
Gross anatomy of the human body. Two lectures and one laboratory demonstration per week. Prereq: BIOL 216 or BIOL 251. Cross-registration at CWRU required. 3 credits.

Surgical Illustration + Media  
BMA 352  
This studio course is an introduction to the illustration of surgical procedures and its fundamental application within the discipline of biomedical art. It is based on the belief that understanding the concepts of medical and/or veterinary surgery is essential to creating effective illustrations and other media that visually communicates the information. Students will research surgical procedures and techniques, sketch procedures in the operating room, prepare comprehensive sketches outlining visual narrative of surgical procedures, and render final illustrations/media presentations using a variety of digital media. Special access to Case Western University Hospitals will be granted and all students must follow ALL rules during medical observation; and be conscious of patient-related regulations and privacy standards. Required of junior Biomedical Art majors. No electives. Offered spring. 3 credits.

Biomedical Art: Advanced Media Concepts  
BMA 353  
This course serves as the first iteration of Advanced Problems in Biomedical Art, and builds on observational and other skills acquired from preceding Biomedical Methods courses. The course focuses on digital illustration and drawing techniques which help to explore editorial, narrative and educational communication problems. The course is also used for non-majors to develop strong skills in digital illustration/drawing techniques (Adobe Photoshop, Illustrator and InDesign) The scope of the course entails developing skills and knowledge necessary for effective visual communication of biomedical concepts and subject matter such as human anatomy, veterinary/zooology subjects, body systems and natural science subject matter. The focus will be on developing advanced visual storytelling skills. Students will learn to take complex information presented by specific biomedical art subject matter and selectively simplify it to solve visual communication problems effectively. Students will work exclusively in digital media will to develop practical competence in the rendering methodologies and learn the conventions of modern production.
When appropriate, project-based learning and client relationships will be incorporated into the course for specific assignments and exercises. Students outside the Biomedical Art major will not be required to produce illustrations based on biomedical content, but instead will focus on developing visually illustrated narrative projects, of equal complexity, pertinent to their own areas of interest. Offered fall. 3 credits.

**BMA: Advanced Problems, Concepts + Media**  
**BMA 354**

In this course the student will continue investigating complex concepts and techniques in Biomedical media and apply them to advanced visual communication problems. The focus will be on developing conceptual visual story-telling skills (First in sketch form/storyboarding for client proofing, then rendered digitally for final art) Students will learn to take complex information presented by biomedical subject matter and simplify it to solve visual communication problems effectively for the target audience. Advanced digital illustration techniques in Adobe Photoshop, Illustrator, and the integration of flash will be used as the basis to solve illustration problems. Students outside the major will learn techniques and concepts in visual communication to for editorial and narrative based projects. Offered spring. 3 credits.

**Biomedical Art: Forensic Imaging/Modeling**  
**BMA 356-456**

This course is an introduction to Forensic Modeling and Reconstruction methods and concepts; which brings materials developed in the medical and forensic industry to the sculpture lab. Materials such as clay, plaster, alginate used in body casting, silicone molding materials, polyurethanes, and clear casting materials will be used in projects that reconstruct facial, and human body elements from skull and environmental clues. The course will utilize the Cleveland Museum of Natural History specimens, and possible visits to local Forensic Agencies for additional hands on applications. Experimentation and integration of sculpture methods to produce body and facial reconstructions will be explored. The course is open to all majors and non-majors as an elective; No previous experience necessary. 3 credits.

**Animal Behavior**  
**BMA 358**

Ultimately the success or failure (i.e., life or death) of any individual animal is determined by its behavior. The ability to locate and capture food, avoid being food, acquiring and defending territory, and successfully passing your genes to the next generation, are all dependent on complex interactions between an animal’s design, environment and behavior. This course will be an integrative approach emphasizing experimental studies of animal behavior. You will be introduced to state-of-the-art approaches to the study of animal behavior, including neural and hormonal mechanisms, genetic and developmental mechanisms and ecological and evolutionary approaches. We will learn to critique examples of current scientific papers, and learn how to conduct observations and experiments with real animals. We will feature guest appearances by the Curator of Research from the Cleveland Metroparks Zoo, visits to working animal behavior research labs here at CWRU. Group discussions and writing will be emphasized. Cross-registration at CWRU required. 3 credits.

**Biomedical Art: Interactive Narratives**  
**BMA 359**

This course serves as an introductory platform to investigate and discover object, environment, human and natural science 2D/web-based animation, in addition to basic interface design, to create a narrative with goals to communicate a message and/or educate and instruct the viewer. The student will use the concept of narrative to tell animated short stories of the body, environment and/or natural science through the medium of Adobe Flash (using AS 3.0) in conjunction with Adobe Illustrator, Photoshop, and Dreamweaver. Within the course, strong conceptual skills are emphasized and developed through professional production techniques, workflow and time-based linear media. The principles of 2D animation and web-based interface design will be used as the foundation for understanding how to communicate a message. Learning the ideas of simplistic object, environment and body motion accuracy/timing will be taught in 2D and students will be expected to create simple to complex animations (based on level and individual progress.) This course is designed to benefit all majors AND non-majors with required prerequisites. Offered fall. 3 credits.

**Cellular + Molecular Illustration**  
**BMA 370X-470X**

This course will focus on the current techniques for visualizing and illustrating the cellular structure and molecules that make up living organisms: phospholipid bilayers, chemical exchange, carbohydrates, lipids, proteins, nucleic acids, etc. The ability to accurately represent cellular and molecular structures has become critical with recent advances in microbiology, biotechnology, genetics, and pharmacology. You will learn how to locate 3D molecular model files on the Internet and manipulate these models on the computer. Working from conceptual drawings, you will use these files to render (and possibly animate) molecules in 2D using Photoshop and/or Illustrator and in 3D using a modeling application (such as 3D Studio Max). 3 credits.

**Embryology**  
**BMA 391**

A detailed description of development will be presented, focusing mainly on the developing human. Discussions and presentations will also include several developing systems that have served as useful models in experimental embryology for deciphering mechanisms responsible for producing adult metazoan organisms. Cross-registration required. 3 credits.
Biomedical Art: Internship
BMA 399-499
This course is designed as a 3 credit professional internship in the area of biomedical art; and in association with an industry specific job (client, company or institution.) Any major seeking to register for the Biomedical Art Internship must seek PRIOR APPROVAL by the chair of the Biomedical Art department. The internship will be graded in accordance with the CIA grading standards, and professional review with the company and/or client providing the opportunity.

Applied Portfolio and Professional Strategies
BMA 404
The Applied Portfolio and Professional Strategies course will help the student develop applied portfolios in offline and online media, demo reels, and print-related materials relating to professional packages (resumes, cover letters, business cards, etc.) Students will learn real-world business approaches for art and culturally-based professionals within community networks. The understanding of contracts, copyright, budgeting and marketing and presentation concepts as applied to commercial-based work and freelance opportunities will be explored. The course is designed to help the student navigate the professional areas of art and integrated media, while gaining critical insight into art practice and leadership in the business environment. 3 credits.

BFA Thesis Research
BMA 405
This course is designed to act as a summative experience for the student. The final BFA Thesis Project will be defined by the student and work with a level of professional collaboration. The requirements for the BFA Thesis will be to solve and effectively visually communicate a medical or scientific problem. Integration of outside resources, research effective collaborator/expert communication, professional practices, presentation (oral and written) and documentation of the process of the specific yearlong project will be expected to determine successful BFA candidacy. The choice of media and concept will be evaluated on its appropriateness for communicating the message and solving the Thesis problem. The project visualization will be student driven; content needs will be determined by the student and the research/collaboration. The emphasis in this course will be on the conceptual development of the content accuracy/relevance and its realization through the design process. The process will fully address research, expert collaboration, target audience, time spent, visual communication problem and successful execution of completed production. The goal will be effective visual communication with a strong, aesthetic, fully considered project, which integrates several layers of media. The final work will have the following: A two sentence (maximum) Thesis Statement, a designed/ written proposal, research paper, business oriented documentation, a digital presentation to explain the work, artist statement/project scope statement, and the final project depicting the solution for the BFA Exhibition. Offered fall. 3 credits.

Micro + Macroscopic Narrative Cultures
BMA 407
The course is designed to utilize the Biomedical Art Major upper level science requirements at CWRU/CSU in microbiology, genetics, histology, ecology and/or animal anatomy; to design and create visualizations based in microscopic and macroscopic imaging with the use of contemporary media techniques (animation, interactivity, digital illustration techniques.) The course serves as an upper level experimental practice in applied biomedical art industries, whereby specific projects are devoted to showing mechanisms of action (M.O.A.) of specific micro and macro systems. The course is open to Biomedical Art Majors and non-majors with specific studio focus in the areas of art, science and technology with permission from the instructor. Offered fall. 3 credits.
Craft+Design

Creative Process + Material Studies
CDE 200
Students focus on the creative process and material studies across the craft majors. From inspiration to the production of multiples, each major explores design and making through their respective mediums as well as other materials. The sophomores in the Craft + Design environment address common themes while working in their respective major: Ceramics, Glass, and Jewelry + Metals. The course affords the integration of skills and knowledge from foundation including drawing, design, color, digital synthesis, and collaboration, with the practices related to the full scope of the Craft + Design major programs. Offered fall. 3 credits.

Language of Materials
CDE 201
The second course in the core explores commonalities and differences in the “language of materials.” Emphasis is placed on visual and conceptual aspects of materials, and material process. This makes for interesting investigations and explorations within and across mediums. Historically materials and processes are connected with the evolution of function, and meaning. The class will explore inherent physical properties that may bring content and depth to ideas borne of the medium itself. Students continue the process of research and ideation using these common themes, and explore through experimentation. Each student’s individual voice begins to emerge. Fundamental techniques will be explored and practiced, stressing the practice of the maker. Idea-books/sketchbooks will continue to be worked on as an important part of the creative process. Offered spring. 3 credits.

Surface + Image
CDE 300
The third year of the Craft + Design core explores the integration of digital technologies, imaging and three-dimensional modeling, new materials and processes, and the connections with ceramics, glass, and jewelry + metals. The fall semester brings a focus to the application and integration of 2D digital imaging on surfaces and forms in clay, enamel, glass, and metal. Projects build on the foundation skill set and encourage the use of digital technology for the development of image, pattern, and texture. Students utilize and develop their skills with imaging software and explore how it translates into the various materials and surfaces. Offered fall. 3 credits.

Digital Modeling + Making
CDE 301
Craft + Design Core 4 explores the integration of computer-aided design (CAD) across the craft disciplines. Building on the Core 3 course, Digital Modeling and Making addresses a range of new materials and technologies toward innovative applications across the range of Craft, new skills and knowledge from 3D modeling to computer aided manufacturing, and rapid prototyping. Projects integrate design and output experiences toward exploration of new materials, patterns, molds, templates, models, and objects. The seminar/studio course includes weekly seminar discussions, presentations, readings, and writing assignments, which vary to recognize the direction of the group and formal issues and conceptual challenges. Projects build on the foundation skill set and encourage the use of digital technology for the development of image, pattern, and texture. The subject, research, and writing for the thesis are developed during the first semester with the final thesis due before the BFA show and critique. The course includes field trips to museums, galleries, and artist studio visits to expose students to historical and contemporary artwork and practice. The mid-year review at the end of the fall semester is an environment-wide presentation and progress review, which also prepares students for the oral defense of the BFA exhibition in the spring. Required of all graduating Craft + Design majors. Offered fall. Open to electives. 3 credits.

BFA Statement + Exhibition
CDE 401
BFA Statement and Exhibition is a hybrid seminar/studio course that builds on the research and thesis work developed in Core 5. Research, exploration, and experimentation culminate with the presentation of the statement and the BFA exhibition. The seminar includes discussions, presentations, readings, and writing assignments, which vary to recognize the direction of the group and formal issues and conceptual challenges. The subject, research, and writing for the thesis and BFA statement are further developed during the spring semester with the statement and body of work completed for the BFA exhibition and review. The course includes field trips and artist studio visits to offer the students critical, historical, and contemporary points of reflection. The course also addresses the planning and preparation toward career goals including goals statements, resume review, and digital presentations by each senior. Required of all graduating Craft + Design majors. Offered spring. Open to electives. 3 credits.
Ceramics

Ceramics: Image, Pattern + Surface in Clay
CER 202-302-402
This class will concentrate on the integration of form and surface using drawing, painting, pattern and mark making on ceramics. We will use ceramic materials, print processes, decals and digital imagery on both two and three dimensional clay objects. We will research historical and current ceramic works and the technology of image making on clay to invent a personal narrative. Required of all Ceramic Majors. Open to all. Prerequisites: Some clay working experience is suggested. 3 credits.

Ceramics: The Potter’s Wheel/ Utility + Production
CER 240-340-440
Wheel based vessels and sculptural forms will be explored in this class. The potter’s wheel is an important tool for artists and designers who want to create compositional forms using multiple parts. Glaze making, glazing and kiln firing will be incorporated into this course. Lectures on historical and contemporary ceramic works will be included to further help student create a personal direction. Some wheel work suggested. Required of all Ceramic Majors. Open to all. 3 credits.

Ceramics: Major Day/Special Projects
CER 241M-341M-441M
Students will work on self-proposed projects, which explore content, meaning and material in two and three dimensions. Conceptual and critical thinking will be addressed in weekly “Work in Progress Reviews”. Lectures will address historical and contemporary work in art, design and ceramics. Previous clay work required. 3 credits.

Ceramics: Major Day/Special Projects
CER 242M-342M-442M
Students will work on self-proposed projects, which explore content, meaning and material in two and three dimensions. Conceptual and critical thinking will be addressed in weekly “Work in Progress Reviews”. Lectures will address historical and contemporary work in art, design and ceramics. Previous clay work required.

Ceramics: Advanced Handbuilding
CER 243-343-443
This course will explore basic and advanced hand-building techniques to explore individual investigation of clay for personal ideation and concepts. We will make glazes, fire kilns and explore ceramic history. We will cover all types of work from utility to sculpture and its relationship to site and place. The class will research and test various ceramic materials, clay bodies and surface treatments. Open to all. 3 credits.

Ceramics: Alchemy of Fire + Clay
CER 244-344-444
Students will explore and experiment with ancient and contemporary firing techniques, such as raku, pit firing, sawdust and saggar firing. Ceramic history of the vessel and sculpture traditions will be covered. Work will be fabricated using the wheel and hand building techniques. The class will work on drawing and image making using these primeval traditions to create their own personal idiom and concepts. Open to all. 3 credits.

Ceramics: The Narrative Vessel
CER 246-346-446
The focus of this class will be the ceramic object as a vehicle for two and three-dimensional expression. We will introduce the potter’s wheel, handbuilding/forming techniques along with glazing and surface treatments. Kiln firing will be introduced, including gas and electric kilns. We will discuss artworks made from clay in the past, present and future. This class is open to all: take as preparation for other course work in the Ceramics Department. 3 credits.

Ceramics: Majolica, The Painted Pot
CER 247-347-447
This course will explore the use of the painted image and pattern through the tin-glazed Majolica earthenware tradition. This is a brightly colored glazing technique steeped in the ceramic history of the Middle East, Spain, Italy, and the Netherlands. Wheel based and handbuilt fabrication will be taught along with over-glaze brush techniques. Students will investigate personal iconography and its connection to form, volume and content. Some clay experience is useful. Open to all. 3 credits.

Ceramics: Multiples/ Moldmaking
CER 248-248-448
The class will be engaged with the concepts of multiples in the making of contemporary functional, sculptural and design works. Mold making; such as drain cast, press molds and other production techniques will be utilized along with the use of 3-D modeling, when necessary. There will be lectures that address technical issues and artworks made of clay, both historical and contemporary. Required of all majors. Open to all. 3 credits.

Ceramics: Raw Materials
CER 249-349-449
This course will combine ceramic fabrication skills with an emphasis on clay body formulation and glaze testing and development. Students will learn press molding, tile making, and hand-building skills along with clay and glazes for multiple uses and temperatures. Class will include lectures, lab work, and instruction in firing gas and electric kilns. Lectures will address historical and contemporary ceramic works, along with technical issues. Required of all Ceramic Majors. Open to all. 3 credits.
**Ceramics: Architectonic Clay + Ceramic Sculpture**  
**CER 250-350-450**  
This course will focus on creating works of ceramic sculpture and ceramic works that will be presented on the wall, floor or used as an architectural element or ornament such as public and domestic art projects and tile projects. We will cover basic ceramic fabrication to include, Large scale work in clay, The use of ceramic materials and construction techniques to create sculpture, tile making, press molding, use of the extruder, glazing and firing of gas and electric kilns. Lectures will include historical and contemporary works. Projects will include architecture based work for domestic and public formats, experimental unfired solutions and two dimensional pattern and design work, ceramic surface development, and all Ceramic traditions, which address subject matter outside of domestic utility. Clay is an easily accessible material that makes it ideal for creating both figurative and abstract works in any scale. The course will include some research and testing of sculpture bodies and surfaces.  
Course requirements: Some clay working experience (high school, college level, or equivalent) It would be valuable to students in Ceramics, Glass, Metals, Design, Interiors and sculpture, painting, and drawing. Some clay working experience suggested. See Ceramics: 241, 341, 441: Introduction to three-dimensional plastic media.  
3 credits.

**Ceramics: Table for Two: Evolving Rituals of Food**  
**CER 252-352-452**  
We will focus on the human experience of eating, and the rituals and modes of communication involving community, food and drink. The potter’s wheel will be our primary means of fabrication for the creation of objects, parts and multiples. Glaze formulation, surface techniques and firing of kilns will be incorporated in this class. Required of all Ceramic Majors. Open to all. 3 credits.

**Ceramics: Vessel Utility**  
**CER 253-353-453**  
This course will investigate the historical and contemporary forms of the ceramic vessel/pot. The dual nature of works that function, as receptacles for meaning and narrative as well as domestic work for the table or presentation will be researched. Construction techniques to be covered will include hand building and the potter’s wheel along with a variety of surface treatments and firing methods. Open to all. 3 credits.

**Ceramics: Surface + Form**  
**CER 255-355-455**  
Students will work on assigned and self-proposed projects which explore the ceramic surface in relationship to two and three-dimensional form. Concepts and critical theory will be addressed. Lectures will discuss historical and contemporary art and design history. Previous clay working experience required. 3 credits.

**Ceramics: Monumental Ceramics**  
**CER 260X-360X-460X**  
We will explore the fabrication of large scale, hand-built structures and vessels. Ceramic history, surface considerations and non-traditional finishing techniques will be utilized. The class will address drawing and mark making in relation to mass and volume. Clay in various forms, fired and unfired, will be investigated to problem solve and create large-scale clay tiles, relief work, murals, multiples and installations. Some previous clay experience is required. Open to all. 3 credits.

**Ceramics: Internship**  
**CER 399-499**  
Elective credit can be given on a case-by-case basis for student internships developed through the career services office, with advance permission of instructor and department Chair.
Drawing

Drawing as Image, Process, and Plan
DRG 21X-31X-41X
Initial projects of the course will focus on the construction of a drawing utilizing a variety of sources including: observation, historical reference, photographs, digital images, and the imagination. Discussion will focus on contextualizing the drawing as object, locating it through the study of pertinent theory and history. In further projects students will consider the drawing as part of a larger process in developing 2D images through a variety of media. Important to this discussion will be concerns of composition, scale, and media and their relationship to concept and content. Students will then research artists who have utilized drawing as a planning tool for film, sculpture, and other media. The focus of these projects will be on how the drawing aids the artist in conceptualizing a form in space and time. Important to this discussion will be concerns of composition, scale, and media and their relationship to concept and content. Required for Sophomore Drawing Majors. Offered fall. 3 credits.

Drawing: Intro to Advanced Observation, Illusionism, + Concept
DRG 220
Advancing the illusionistic rendering skills developed in the first year, students will be introduced to a variety of theories related to sight and perception. Students will develop skills with several traditional mediums and materials as well as experiment concepts of scale, color, and mark-making. Required for Sophomore Drawing Majors. Offered fall. 3 credits.

Drawing Beyond Observation
DRG 221-321-421
This course will explore strategies for representation beyond direct perception, moving past the use of the traditional still life, landscape, or model as subject. How can a drawing describe the world that is beyond the range of our common visual observations? Different approaches to drawing, including free-association, metaphor, and mapping are explored to help define and circumvent personal barriers. Required for Junior Drawing Majors. 3 credits.

Figure Drawing
DRG 225-325-425
Students will develop an individual approach to the figure through relevant historical and contemporary systems of representation. This course emphasizes on innovative approach to drawing using the figure as a vehicle and primary focus for metaphoric or literal interpretations, and as a site for conceptual inquiry. Diverse combinations of traditional and unconventional mediums will be introduced. Individual reviews of work in progress and group critiques are an integral part of the studio concentration. Museum, gallery excursions, and visiting artists are regularly scheduled to enlighten student pursuits. 3 credits.

Figure Drawing
DRG 226-326-426
Students will develop an individual approach to the figure through relevant historical and contemporary systems of representation. This course emphasizes on innovative approach to drawing using the figure as a vehicle and primary focus for metaphoric or literal interpretations, and as a site for conceptual inquiry. Diverse combinations of traditional and unconventional mediums will be introduced. Individual reviews of work in progress and group critiques are an integral part of the studio concentration. Museum, gallery excursions, and visiting artists are regularly scheduled to enlighten student pursuits. 3 credits.

100 Drawings
DRG 290
In creating 100 drawings within a single semester, students will move through many forms of drawing, from direct observation to work from photographic sources, from abstraction to the idiosyncratic. Assignments are sequenced to encourage experimentation and play with a wide range of drawing materials and methods. At the conclusion of the course, students will have begun to develop their own point of view, style, and approach to drawing. Required for Sophomore Drawing Majors. Offered spring. 3 credits.

Drawing: Style Context
DRG 323-423
Students explore diverse disciplines in, and develop a wide range of, visual linguistics and technical skills. Traditional and unconventional mediums and materials are explored and verified through application. An infinite range of resource information is utilized from direct observation, photo documentation, and introspective insights. Projects are student driven with an emphasis on working with the students to develop their ideas through research, exploration, and experimentation with different drawing media. Using critique as a format for class interaction, work will be presented for both formal and interpretive analysis during several stages in its production. Museum and gallery excursions and visiting artists are regularly scheduled to expose students to historical and contemporary artwork and practice. 3 credits.
Systems Drawing
DRG 360-460
This course will investigate the means by which various systems of drawing and representation function as methods of communication. How do historical, cultural, and social contexts frame an artist’s ability to send messages through their work? And, like in a game of telephone, in any system of communication it is inevitable that potential problems may occur—misunderstandings, errors, and falsehoods. Can these absorbed into the content of the work? Illusionistic, abstract, allegorical, diagrammatic, mathematical and idiosyncratic systems of drawing and representation will be investigated through this course, through studio practice, readings, critique and in-class discussion. Required of all Junior Drawing Majors.
3 credits.

3-Dimensional Drawing:
The Psychology of Space
DRG 38X-48X
Through a theoretical understanding of drawing as mapping students will be asked to deal with problems of three-dimensionality in relationship to movement and time through space. Of particular interest will be concerns of mapping, spatial location and relative positioning and the ideas fourth dimensionality or the "hidden." Students will be asked to consider ideas of trace, residue, and rhizomatic or non-linear vs. linear progressions. Questions will include: How does the student navigate both three-dimensional and conceptual spaces? How can space be explored, mapped, studied both as a physical location and a spatial event.
3 credits.

Drawing: Internship
DRG 399-499
Elective credit can be given on a case-by-case basis for student internships developed through the career services office, with advance permission of instructor and department Chair.

Drawing Major Day:
Drawing in Context
DRG 415M
What provides the context for a contemporary drawing? Is it the graphic novel or a classical form of figurative representation? Does it find its place in the space of the gallery or on the street? Students will explore the ways in which form and style contribute to the content of their work. Projects are student driven with an emphasis on working with each student to develop his or her ideas through research, exploration, and experimentation. Museum and gallery excursions and visiting artists are regularly scheduled to expose students to historical and contemporary artwork and practice. Required for Senior Drawing Majors.
3 credits.

Advanced Drawing: Senior Major Day
DRG 416M
Majors explore diverse disciplines in, and develop a wide range of, visual linguistics and technical skills. Traditional and unconventional mediums and materials are explored and verified through application. An infinite range of resource information is utilized from direct observation, photo documentation, and introspective insights. Projects are student driven with an emphasis on working with the students to develop their ideas through research, exploration, and experimentation with different drawing media. Using critique as a format for class interaction, work will be presented for both formal and interpretive analysis during several stages in its production. Museum and gallery excursions and visiting artists are regularly scheduled to expose students to historical and contemporary artwork and practice.
3 credits.

Drawing Thesis
DRG 430
Building on understandings of narrative, systems and context, students will work towards the creation of a final BFA thesis. Through working in the studio, students will build a coherent understanding of the process, content, and context for their artwork, as drawing. Students will produce works in response to topics and through critique, readings and discussion come to an understanding of how they function in their own work. Required of all senior drawing majors and open as an elective with the prerequisite of Illusionism or through permission of instructor or Drawing Program chair.
3 credits.
**Engaged Practices**

**Socially Engaged Arts for Change I + II**
EP 200X-201X/300X-301X/400X-401X

These year-long field-based practicums (1.5 credits per semester) provide interested, eligible students from all majors an opportunity to engage with classmates in community-based and real-world projects, developing their social agency as professionals, while advancing their experience in the field of “social practice” in art and design. Each section of “SEA Change” is developed in advance by a faculty member in collaboration with community organizations, other institutions, and/or grass-roots partners, and is centered on a particular theme for a year-long project. Practicums are located in diverse social and physical contexts, all requiring meaningful, reciprocal interaction with a community of interest. Emphasized are practice and expansion of students’ existing art, design, interpersonal, and project management skills, while engaging with a community of interest in a positive mutual exchange. Students spend 2-4 hours per week on-site, working on the project under faculty or site supervision, meet periodically in seminar on campus, and maintain a reflection blog/portfolio. Open studio elective. 1.5 credits per semester. Fall and Spring enrollment required for **3 credits**.

**Environment, Art + Engaged Practice**
EP 210X-310X-410X

This field-based course expands the boundaries of the studio experience into the outdoors, through intensive investigative studies within the Cleveland Metroparks. Students will work collaboratively with one another, the instructor, and with consultation from Metroparks staff and other content experts, to identify and research critical environmental issues and/or aesthetics of nature, towards the realization of compelling visual work that will serve to engage and enlighten the public, with the ultimate aim of making positive change. The course will provide classroom and studio space on-site at the Metroparks, as well as at CIA. A very significant amount of class time will be spent in the field and at the satellite studio/classroom space. The class is concerned with exploration of aesthetic, sociocultural, political, and ecological issues through insightful and innovative use of the visual language. Students may choose to work in the media of their major, but are also free to explore other disciplines. Students will be responsible for their own transportation. **3 credits**.

**The Artist + Social Practice**
EP 280-380-480

This course explores a realm of artistic endeavor usually apart from the gallery system and the art market, where the artist applies his/her talents to questions directly related to community, social responsibility, and political activism.

While looking critically at recent manifestations in relational and participatory practices—as well as learning about their historical context and interdependence with other fields—students will work within a greater social context, applying their skills to pressing issues (such as ecology, urban decay, poverty, discrimination, violence, and global abuses of the military-industrial complex, to name a few).

The pedagogical approach will be to present projects realized by other artists who have worked in these areas, and to be able to contextualize these practices as the result/ reflection of our current economic, political, and cultural situation(s)—both nationally and internationally.

Students will research issues that are of greater concern to them individually, and present them to the whole class. This will be followed by in-depth discussion around problem-solving, efficacy of action, and aesthetic materialization. Projects will then be developed and implemented throughout the semester. **3 credits**.
Community Projects: Illustration + Production Workshop
EP 389
Students will illustrate and provide art and production services for individual clients as well as for organizations in a professional studio setting. The course emphasizes the student’s development of problem-solving, meeting client demands, communication skills, organization and effective time management, proper preparation of artwork for reproduction, teamwork and collaboration—all specific to the marketplace as an introduction to real-life challenges. Required of junior Illustration majors. Open to electives with instructor’s permission. Offered fall and spring.
3 credits.

Design Center Learning
EP 417
This course functions as a professional design studio, placing an emphasis on client-based projects and interdisciplinary teamwork. All companies/organizations who are participating in the course make a financial commitment to CIA and intern team members are compensated. Compensation varies, but is based on the project budget, time commitment and individual contributions. The faculty, who will oversee the process, deliverables and schedule for each project, will determine studio responsibilities. Prerequisites for Industrial Design majors: one year of industrial design training and approval of the course faculty. Prerequisite for non-Industrial Design majors: approval of the course faculty. Offered fall and spring.
3 credits.
Course Catalog
Foundation

Digital Color
FND 103D
This one-half semester course introduces color in additive synthesis (light). The course explores color theory, perception, and application, through a series of fundamental color investigations offering opportunities for multiple compositional solutions and the development of digital skills. In tandem with its companion course, Foundation Material Color, students pursue a personal color sensibility, in preparation for any art or design field. Course structure consists of introductory concept lectures, technical instruction, lab time with guidance and group critique of finished assignments. Offered fall. 1.5 credits.

Material Color
FND 103M
This one-half semester course introduces color in subtractive synthesis (pigment). This course explores color theory, perception, and application, through a series of three fundamental color investigations offering opportunities for multiple compositional solutions and the development of material skills. In tandem with its companion course, Digital Color, students pursue a personal color sensibility, in preparation for any art or design field. Course structure consists of introductory concept lectures, technical instruction, studio time with guidance, and group critique of finished assignments. Offered fall. 1.5 credits.

Digital Synthesis
FND 104
Explores crucial and far-reaching concepts associated with digital art and technology, as these concepts interface with foundational concepts of aesthetics and visual communications. Digital synthesis explores: the assembly and creation of imagery from different source materials; time-based images using various approaches to animation; the structure and logic of narrative storytelling with digital video; and the structure and logic of interactivity through the creation of work where structure, sequence and outcome is influenced by the participation of the viewer.

Course structure consists of introductory concept lectures, technical instruction, lab time with guidance and group critique of finished assignments. Prerequisites: FND103D Digital Color. Offered spring. 3 credits.

Design I
FND 107
In this fundamental visual composition course, students learn the primary elements and principles of visual language, and are introduced to a range of formal and conceptual problems which become increasingly complex as the course progresses. Students are challenged to explore core design principles of visual organization in unique and challenging ways, and to gain the ability to problem-solve through ideation processes, group dialogue, perceptual refinement and skill management. Developing analytical skills and the ability to effectively engage in an on-going process of critique are also core components of the course.

Design I involves the planning and organization of the parts within a whole, through a sense of experimentation, risk taking and discovery. This course focuses primarily on two-dimensional forms but also gradually introduces three-dimensional forms. Material exploration and the development of strong manual skills in regard to visual acuity and craft sensitivity are a key aspect of every assignment. Knowledge and skills gained in concurrent Foundation program areas such as color, drawing and digital skills are fundamental for communicating ideas and are reinforced in Design 1. Offered fall. 3 credits.

Design Lab
FND 107L
Design Lab class introduces woodshop safety and basic skills in machinery use. Students learn the fundamental characteristics of wood as a versatile medium, as well as appropriate construction methods for particular applications. Offered fall and spring. 0 credits.

Design II
FND 108
This course builds on the experiences of Design 1, with compositional and conceptual problems being explored fully in three dimensions in. Form, mass, volume, spatial interactions, material qualities, and physical forces are key factors. Students continue to learn to perceive and control visual relationships within the design structures they make. The aesthetic and conceptual potential of materials and processes (craft) are also vital aspects of this studio course. Creative processes of problem solving through research, investigation and ideation, together with an attitude of discovery, are required for all concept and project explorations. Ideational drawing, model making, material studies, and prototypes contribute to developing ideas to a high and thoughtful level. Various methods and approaches to giving form (such as additive, subtractive, assemblage and joinery) are challenges for every concept explored. Design 2 projects have the potential to be explored as sculpture, functional design, or even as hybrid. Students are challenged to follow their passions and gain experience in self-directing project outcomes. Prerequisites: FND107 Design I. Offered spring. 3 credits.

Drawing I
FND 117
Primary goals of Drawing 1 focus on core drawing concepts; basic methods, tools and materials; and an introduction into the language of mark making. Composition and visual analysis are emphasized through drawing from observation, including perspective theories as they relate to objects and environments.

Students utilize observational information to develop a broad range of manual and perceptual skills and to develop an ability to translate the three-dimensional world into two dimensions. Students are challenged to develop a strong drawing practice through in-class work, out of class assignments, and in on-going drawing/sketch books. Offered fall. 3 credits.
Course Catalog
Foundation

Drawing II
FND 118
Drawing 2 continues to build on basic drawing concepts, methods, and materials that were introduced in the previous semester. Emphasis for Drawing 2 is on the human figure, with observational drawing from the live model in the classroom, and weekly out-of-class drawing assignments which explore various figurative concepts. Special attention is given to composition, visual analysis, and expression through drawing from observation, including perspective theories as they relate to objects and environments. The language of mark making is also introduced in a range of drawing media. Students develop a personal approach through the use of drawing/sketchbooks. Students are challenged to incorporate skills and theories into resolved drawings; to think critically regarding the content and process of drawing; to develop confidence when experimenting with new media; and to develop vocabulary in order to be an active, informed participant in class discussions and critiques. Prerequisites: FND117 Drawing I. Offered spring. 3 credits.

Freshman Elective: Crafts: Ideas, Objects, + Traditions
FND 130C
This course offers students a hands-on studio experience in three major studios with six of CIA’s most experienced faculty. Through a variety of materials and processes used in the Ceramics, Glass, and Jewelry and Metals department, students can examine the potential for two-dimensional image, three-dimensional form, and the Cultural importance of craft. During this class you will be introduced to and familiarize yourself with each of these disciplines while gaining valuable hands-on skills in diverse materials and design approaches. 3 credits.

Freshman Elective: Design
FND 130D
This course offers an introduction to Graphic Design, Industrial Design and Interior Architecture for freshmen interested in learning more about these majors. An emphasis will be placed on fundamentals of all three disciplines with a focus on beneficial intellectual processes and skills. Weekly projects are structured around key design concepts and individual interests. Regular demonstrations, lectures and formal reviews will encourage individuals to develop basic design, verbalization and visual presentation skills. Offered spring. 3 credits.

Freshman Elective: Game Design + Biomedical Art: Game for Change: Fun, Play + Reward
FND 130G
This course is an introduction to both Game Design and Biomedical Art, and how these two areas of specialization can intersect to create meaningful games. Games which can help players change and engage in a world beyond reality. Coursework will explore concepts + techniques in game design and biomedical art; which will emphasize level design, game character art, real-time animation and integration of illustrated images in games. Students will learn how to develop the narrative of their game and learn strategies to engage players in the content of the game. A combination of different media will be explored to allow students interested in either game design or biomedical art to develop a common vocabulary through their specific subject interest and individual projects. Offered spring. 1.5 credits.

Freshman Elective: Animation + Illustration: Visual Storytelling
FND 130A
This course introduces students to techniques and terminology used in the animation and illustration industry. Coursework will include projects such as character design, layout and storyboarding with an emphasis on developing observation skills along with enhancing technical and rendering abilities. Students will design for publication while learning to explore, communicate and evaluate basic concepts, which are essential in the development of critical thinking and problem solving skills in the applied arts. Offered spring. 1.5 credits.

Freshman Elective: Photo + Video: The Still + Moving Image: Optics, Form + Content
FND 130P
This course is an introduction to photographic “seeing” in close examination of the dynamic intersection between still and moving images. Coursework investigates the aesthetic form and visual language of optical imaging and perception historically, and in contemporary context. Students learn to question, explore, communicate and evaluate basic photographic concepts, essential in the development of critical thinking skills that are applicable to many disciplines. Students considering a major in photography or video are encouraged to take this session. Offered spring. 1.5 credits.
**Freshman Elective: Visual Arts: Contemporary Art Practice**  
**FND 130V**  
Students will be introduced to:  
Basic concepts and skills relating to contemporary art practices in image making; Aspects of visual literacy and the process of criticism; Focus on the vocabulary directly relevant to the field of image making within the contemporary art context. Students will explore:  
How to turn intuitions into subjects; the role of experimentation and risk-taking in art-making; traditional and non-traditional materials, processes and forms; how to formulate critical judgment; the relation between ideation and realization.  
**3 credits.**

**Charrette: Collaboration + Community**  
**FND 140A**  
This one-half semester course is framed by the theme of Community and Collaboration. The students and instructor work collaboratively to define and explore “community” as local place and learning environment. They identify and activate connections among charette members and their specified community in order to develop a consensual creative response. Through sustained exploration of one theme, the charrette emphasizes the development of skills for critical and creative thinking, experiential learning, problem-solving, and collaboration. Through materials exploration, making processes, and critique, the charrette forges links with the visual, tactile, and manual skill sets being taught in other Foundation classes. Each student’s effort, progress, and work will contribute to a project developed over 7 weeks, to include both a charrette documentation log and a 2D, 3D, and/or 4D form. Offered fall.  
**1.5 credits.**

**Charrette: Self + Other Voices**  
**FND 140B**  
This one-half semester course is framed by the theme of Self and other Voices. As an exploration of one’s self in relation to culture and society, the course facilitates increased self-knowledge and helps students uncover their views of “other.” The students and instructor work collaboratively to define and explore “other voices,” cultivate connections with those other voices, and develop creative responses. Through sustained exploration of one theme, the Charrette gives priority to the development of skills for critical and creative thinking, experiential learning, problem-solving, and collaboration. Through materials exploration, making processes, and critique, the Charrette forges links with the visual, tactile, and manual skill sets being taught in other Foundation classes. Each student’s effort, progress, and work will contribute to a project developed over 7 weeks, to include both a charrette documentation log and a 2D, 3D, and/or 4D form. Offered fall.  
**1.5 credits.**
Game Design

Introduction to Game Design
GAME 215
Introduction to Game Design take students on an exploration of Gaming Theory and its practice through the development of physical games. Investigation includes game metaphor, story, game mechanics, and chance factors. Students will also analyze games and gameplay including the aesthetics of games and the design of their instructions. In this project based course students will produce fully implemented board games and card games. Offered fall. 3 credits.

Introduction to Video Games
GAME 216
Game design allows artists to create meaningful play and interactive experiences. This introductory course, explores games through the development and creation of 2D video games. The course aims to provide a critical vocabulary and historical context for analyzing games and gaming theory and focuses on the skills and techniques necessary to incorporate game design into an ongoing art practice. Offered spring. 3 credits.

Game Testing + Level Design
GAME 318
Introduction Game Testing/Level Design for Game Design will cover level design for video games. Students will learn how to create and use design documents and sketches/diagrams as well as creating a complete level diagram and implementing it using commercial game engines. Students will fully test all stages throughout the level process. Students will use Unity and the Unreal 3 Engine. Students will learn tools/skills and concepts used to create game levels in 2D and 3D level design by using architecture theory, concepts of critical path and flow, balancing, lighting, gameplay experience, and various storytelling for level design. Students will learn how to setup testing conditions in different process of making a game/level. Students will learn concepts behind the development of different game genres (MMO, FPS, Platforms and others), story, character, environment (for levels), interface design, platform-specific design and audio are examined. Some Historical elements for level design will be covered as player elements, the game play experience, creating world levels, creating the game interface and creating the atmosphere. In addition, students will earn how to create Game Content for commercial game engines and learn how to setup origination skills for commercial game engines. Students, will learn how to create texture mapping, brushes, light maps etc. Offered Fall. 3 credits.

Game Media Production I
GAME 320
This course is a project driven course jointly offered between CIA and Case Western Reserve University. Students will form production teams and collaborate using their talents and expertise to develop a working prototype computer game; having an interactive and immersive experience. Students will take on roles of game producers, developers, programmers, and designers. You will learn to brainstorm, design documentation, assemble resources, create assets, implement the game design, and manage their individual tasks and collective project. The course introduces students to the contemporary challenges posed by the ever-changing technologies used to make and deliver video games on today’s sophisticated hardware. This course will bring together an interdisciplinary group of advanced undergraduate students to focus on the design and development of a complete, fully functioning computer game prototype. The student teams are given complete autonomy to design their own fully functional games from their original brainstormed concept and research to a playable finished prototype, i.e., from the initial idea through to the designed game brand. The student teams will experience the entire game development cycle as they execute their projects. An excerpt of example responsibilities include (but not limited to): creating a game idea, writing a story, developing the artwork, designing characters, implementing music and sound effects, programming and testing the game, and documenting the entire project with a formal “Design Document” and demonstration with oral presentation. Offered Fall. 3 credits.

Game Media Production II
GAME 321
This course serves as a continuation of the fundamentals and theory application of game development. The course materials and projects will help students understand how to further develop game concepts, mechanics, interaction design, and prototype the game through the use of animation and simple interactivity. The course will require students to work individually to design game narratives, concepts, design documents (art assets, technical assets and sounds assets) and demonstrate the playability of the prototype game. The course exposes students to examples of the current work and research in game theory and narrative design, which are integral to development of successful polished games. Students will be exposed to industry-specific games with the requirement to test, analyze and review. These examples along with specific lecture topics and materials, will allow the student to understand how to continue to develop their own game projects by learning specific research methods for understanding content, players and engagement strategies. This course does not require programming skill or experience per se; however it is understood that the student usage of Unity (in the Game Development SP2014 course,) and/or UDK may be used for projects with limitations on coded interactions and time constraints. If you wish to create a digital game but do not have technical experience to achieve the full results, you will be required to show an animation of the game concept and prototype in action, with narrative, character/environmental style, GUI, HUD, scoring, mechanics, level design, and instructional prompts. Alternately, you may choose to work on a non-digital game, which notes a similar level of complexity. Please note that this course welcomes both digital and non-digital games, but that the requirements and milestones for each type of game will be somewhat different and require the development of design related documentation, assets and research. Offered Spring. 3 credits.
Introduction to Game Development
GAME 322
The course is designed to teach students about the various elements of game development. Students will work to utilize modern tools to develop 2D/3D graphical assets into an interactive game engine through the use of programming. A focus will be applied to skill learning while additional topics and theory will be covered to provide a well-rounded experience. 3 credits.

Introduction to 3D Modeling
GAME 345
The course is designed to cover concepts in digital 3D organic and device model construction, whereby the virtual models designed are rendered and composited for 2D illustration purposes to solve specific conceptual problems. The subject matter within the Game Design curriculum reflects the development of characters, game environments and specific assets for game development. Students outside the Game Design Major, are required to work with subjects appropriate to their major field of study for concept development and for long-term portfolio objectives. Projects include concepts and workflow for constructing a virtual 3D surface by: (1) defining the visual problem within a concept sketch in pre-production, (2) utilizing specific introductory modeling methods to build the 3D illustration components, (3) the use of basic lighting and rendered materials, (4) export methods into Adobe Photoshop for augmentation, finishing and final illustration techniques and layout. Projects require the student to gain and improve upon conceptual skills, problem-solving in specific media situations (digital 2D + 3D) and technical proficiency at an introductory level in 3D modeling. 3 credits.

3D Texture, Mapping + Digital Lighting
GAME 347
This course is designed to cover concepts in digital application of texture maps for 3D game models rendered in a real-time 3D game engine. Optimization of textures maps, and materials, Poly count limits, and how to “bake” extremely high levels of detail into low detail models capable of being rendered in real-time, and the benefits of using “Levels of Detail” with static, and dynamic lighting concepts, design, and optimization. The use of toggle-able lighting, and attachment of lighting to game assets and players. The importance of creating immersive environments, capable of being walked through, and/or viewed from multiple, often unspecified angles of view. Projects include concept integration into technical production workflow for describing, and optimizing digital 3D surfaces for rendering in a real-time game engine; creating immersive environments that express mood, and narrative through the materials, and lighting. Projects require the student to continually improve upon conceptual problem solving, time management strategies, communication/presentation and technical skills. 3 credits.

Game Design: Internship
GAME 399-499
Elective credit can be given on a case-by-case basis for an internship developed by the student through the Career Services Office with advance permission of the department head.

BFA Research + Preparation
GAME 401
This course is designed to act as a summative experience for the student. The final BFA thesis project will be defined by the student with a level of professional collaboration. The requirements for the BFA thesis will be to solve and effectively visually communicate a comprehensive game design prototype. Integration of outside resources, research effective collaborator/expert communication, professional practices, presentation (oral and written) and documentation of the process of the specific year-long project will be expected to determine successful BFA candidacy. The choice of media and concept will be evaluated on its appropriateness for communicating the message and solving the Thesis problem appropriate to game design and development. The project visualization will be student driven; content needs will be determined by the student and the research into content and industry expectations for successful game design. The emphasis in this course will be on the conceptual development of the content accuracy/relevance and its realization through the design process. The process will fully address research, integration of content, game theory application, target audience, aesthetic and artistic merits, time tracking and scheduling, and ultimately a successful execution of completed prototype. The final work will have the following: A two Sentence (Maximum) Thesis Statement, a design document process book, research paper, business oriented estimates and budget planning for exhibition and materials, digital presentation to explain the work, artist statement/project scope statement, and the final project depicting the solution for the BFA Exhibition as a prototype game design. Offered fall. 3 credits.
Course Catalog
Game Design

**Serious Game Design: Theory + Applications**
GAME 408
This course introduces the fundamentals of serious or educational game development. The course materials and projects will help students understand how and why games can be used for learning in the fields of health, medicine, science and games for social change. The course exposes students to examples of the current work and research in game design mechanics, game learning mechanics and assessment mechanics; which are integral to development of successful educational games. Students will be exposed to industry-specific serious games (games for learning, corporate training, news games, games for health, science, exer-games, military games, and games for social change.) These examples along with specific lecture topics and materials, will allow the student to understand how to develop their own serious game projects by learning specific research methods for understanding content, players and engagement strategies. 3 credits.

**Game Media Production III**
GAME 420
The course is a project driven course jointly offered between Cleveland Institute of Art and Case Western Reserve University. Students will form production teams and collaborate with using their talents and expertise to develop a working prototype computer game; having an interactive and immersive experience. Students will take on roles of game producers, developers, artists, programmers, and designers. You will learn to brainstorm, design documentation, assemble resources, create assets, implement the game design, and manage their individual tasks and collective project. The course introduces students to the contemporary challenges posed by the ever-changing technologies used to make and deliver video games on today’s sophisticated hardware. The course will bring together an interdisciplinary group of advanced undergraduate students to focus on the design and development of a complete, fully functioning computer game prototype. The student teams are given complete autonomy to design their own fully functional games from their original brainstormed concept and research to a playable finished prototype, i.e., from the initial idea through to the designed game brand. The student teams will experience the entire game development cycle as they execute their projects. An excerpt of example responsibilities include (but not limited to): creating a game idea, writing a story, developing the artwork, designing characters, implementing music and sound effects, programming and testing the game, and documenting the entire project with a formal “Design Document” and demonstration with oral presentation. Offered fall. 3 credits.

**Game Media Production IV**
GAME 421
The course is designed to act as a summative experience, designed to focus student attention on the continuing production development of your BFA Thesis game project. Advisement, lectures and demonstrations to help troubleshoot, solve and increase understanding of the game development and programming process will support student project outcomes. Game industry standards of debugging, game testing, risk assessment, and troubleshooting design issues through production development will be key for student understanding while developing their final game thesis project. The game project visualization and concept will be student driven; content needs to be determined by the student and research/collaboration with all faculty committee advisors. The choice of game concept, style, mechanics, re-playability and overall design/development will be evaluated in the course and in the final BFA Thesis exhibition and defense. This course serves to help the student with continued game production through advice/ment with faculty and appropriate demonstrations and game theory lectures as it relates to the appropriateness of the student games being developed. The faculty retains the right to supplement the course with additional readings, exams, and project exercises to increase understanding and awareness of game industry standards and preparedness. Offered spring. 3 credits.

**Special VFX/Simulation + Virtual Reality**
GAME 430
This course explores various aspects of special effects/simulation and virtual reality in game design and multimedia. The course aims to provide a critical vocabulary and historical context of the cutting edge of input and output technologies and their application as well as the underlying biology and psychology. Students will learn how to create robust and immersive experiences by combining the elements of graphics, animation, video, and audio using leading industry software. Students will complete various assignments and create projects that demonstrate their understanding of Special VFX, Simulation + Virtual Reality. Offered fall. 3 credits.
General Studies

Professional Practices
GEN 398
This course provides the student an overview of the environment surrounding the business of art and design, and the practice of the individual. A core lecture series covers self-promotion, networking, ethics, intellectual property, contracts, professional development, and guidance by practicing professionals. Students must select one of the breakout sections.

Industry section supports student preparation to become an integral part of a commercial organization by providing an understanding of corporate methods and practices.

Entrepreneur section transports the student through the key decisions required to establish a successful art/design business.

Studio to Gallery section focuses on the complexities of a professional artist’s studio practice by examining interactions with gallery directors, museum curators, preparators, conservators, and marketing professionals.

This course is a required for all academic majors and encouraged for students in their Junior year of study. Offered fall and spring. 3 credits.

Putting Artists in the Classroom: Intro to Teaching Art
GEN 400-400A
Students will have the opportunity to receive a general introduction to the world of Art Education. Students will have the opportunity to give back to their community by providing Art Education to a school that does not have an existing art program. Students will be working with a cooperating classroom teacher in order to have first hand teaching experience through the creation of the studio arts. Through this process students will be provided with the principles and practices of Art Education for grades K-8. Students will also be provided with curriculum construction and lesson planning to be used during their teaching of Art Education. 3 credits.

BFA Thesis Continuation
GEN 490
Option for students who have completed all course requirements but who require an additional semester to complete their BFA thesis exhibition. Permission of the major department chair required. $500 studio access fee charged. 0 credits.
Glass

Adv Glass Concepts: Casting
GLS 240-340-440
This course aims at advancing students’ knowledge and techniques in creative and intellectual ways as well as fostering new conceptual schemes. Students will be introduced to such methods as sand casting, Pate-de-verre, cold working and kiln casting in the course of pursuing their sculptural goals. In the meantime, students will also practice applying problem-solving skills to making art. By the end of this course, students will have a thorough knowledge and understanding of general kiln forming and acquire more advanced casting techniques. Ultimately, with this technical basis, the course will inspire students to shape and realize an individual visual voice. Hot glass will be possibly conducted as complement. Open to all students with one semester of glass. Course fee required. Prerequisite: One semester of Glass. 3 credits.

Adv Glass Concepts: Hot Sculpting
GLS 242-342-442
With emphasis on Hot Sculpting and students own voice and concepts using glass as a media for expression will be developed. Advancing skills in alternative methods for forming. Techniques is a goal. General studio operation. Safety in the studio. Enrollment priority to intermediate, advanced electives and majors first. Assignments given at an advanced prerequisite, one semester of hot glass. May be repeated. Course fee required. Prerequisite: One semester of hot Glass. 3 credits.

Glass Forming Survey: An Introduction
GLS 243
Introduction to fundamental techniques of glass working: blowing vessels based on the sphere; fusion/casting and annealing theory. Cutting, grinding, polishing, and general cold fabrication. Concepts and ideas for using glass in/as sculpture. Safety in the studio. Enrollment priority to beginners in Glass. Required of incoming 2nd year Glass majors. No Previous Experience necessary, course fee required. May be repeated. 3 credits.

Intro/Intermediate Hot Glassblowing + Forming Processes
GLS 243H-343H-443H
Emphasis on starting with glass as a molten liquid. Practice in traditional and nontraditional blowing techniques. Colored glass application and use of various hand tools and torches. Hot glass skill development at your level. Theory and use of annealing kilns, safety in the studio. Open to any skill level. Course fee required. 3 credits.

Glass: Major Day
GLS 243M-343M-443M
Required of all Glass majors. Assignments will be given at 200 and 300, Independently guided study at 400 level. Research in developing concepts using glass as a medium for expression, includes work on production practices, one of a kind vessel making to the use of glass to complete sculptural ideas. Assignments will build individual students voice. Team approach emphasized in hot shop, building on and from basic working fundamentals. Beginning and advanced practice in alternative methods for forming include casting, mold construction, cold joining, and cold glass techniques. Students will be involved with practical experience in applying to shows and exhibiting works. Majors are learn and are assigned responsibilities in studio operation. Safety in the studio. Enrollment priority to Glass Majors, advanced electives with one semester of hot glass. Course fee required. Prerequisites: One semester of hot Glass. 3 credits.

Intro/Intermediate Warm Glass, Kiln Forming + Fusion Processes
GLS 243W-343W-443W
Using the kiln to form glass from slumping to fusing to casting. Simple and complex moldmaking strategies. Theory and practice in the studio. Open to any skill level. Course fee required. 3 credits.

Glass: Major Day
GLS 244M-344M-444M
Required of all Glass majors. Assignments will be given at 200 and 300, Independently guided study at 400 level. Research in developing concepts using glass as a medium for expression, includes work on production practices, one of a kind vessel making to the use of glass to complete sculptural ideas. Assignments will build individual students voice. Team approach emphasized in hot shop, building on and from basic working fundamentals. Beginning and advanced practice in alternative methods for forming include casting, mold construction, cold joining, and cold glass techniques. Students will be involved with practical experience in applying to shows and exhibiting works. Majors are learn and are assigned responsibilities in studio operation. Safety in the studio. Enrollment priority to Glass Majors, advanced electives with one semester of hot glass. Course fee required. Prerequisites: One semester of hot Glass. 3 credits.
**Glass: Concept, Theory + Practice**  
**GLS 343-443**  
Assignments given at all levels 300 and above. Includes research and development of concepts using glass as a media for expression. Practice in hot glass working further advancing fundamentals of blowing off-hand to more advanced techniques surface decoration of vessels and use of hot glass for sculptural ideas. Cold joining using special adhesives; and in cold glass, cutting, grinding and finishing techniques. Emphasis on hot glass in the fall; casting and cold glass in the spring. Safety and General studio operation. Enrollment priority to Glass Majors, intermediate and advanced electives first. First time beginners if enrollment allows. Course fee required.  
3 credits.

**Advanced Hot Glass: Concept, Theory + Practice**  
**GLS 343A-443A**  
Assignments given at all levels 300 Independent projects at 400. Includes research and development of concepts using glass as a media for expression. Practice in advanced hot glass working further building on fundamentals of blowing off-hand to more advanced techniques surface decoration of vessels and use of hot glass for sculptural ideas. Advanced methods for forming, may include hot casting, mold blowing, using multiples; cold joining using special adhesives; and cold glass, cutting grinding and finishing techniques. Emphasis on Hot Glass. Safety and General studio operation.  
For Glass Majors and Advanced Electives. Course fee required. May be repeated.  
Prerequisites: One semester of hot glass.  
3 credits.

**Glass: Internship**  
**GLS 399-499**  
Elective credit can be given on a case-by-case basis for an internship developed by student through the career services office, with advance permission of instructor and head of department.
Graphic Design

Graphic Design for Non-Majors
GDS 200
This course is designed to teach the basics of graphic and communication design to non-Graphic Design majors. Students will be introduced to the key graphic elements of hierarchy, grid, typography, and organizing principles of design. While students learn these basics, they will also be introduced to the concepts of User Focus and User Experience design. The assignments are geared to help the students develop strategic thinking skills as they hone their graphic communication skills. 3 credits.

Typography I
GDS 203
This is one of the two central classes in the first year of study in Communication Design (alongside Design for Communication I). In the first semester, students become familiar with the broader discipline of the field through the construction of abstract design concepts, layout, symbols, and sequential systems. Conceptual thinking and the integration of typography with imagery are explored throughout the course. In the 2nd semester, students investigate projects that follow the various sub-fields of the profession; projects include Identity, Web/Interactive, Information and Wayfinding. Students will be assigned multiple projects throughout the year. Each project begins with a lecture and demonstration of techniques. Each week, students practice presentation to the larger group in formal and informal critique and brainstorming sessions. Faculty will work one on one with students to answer questions and assist in the process. Reviews will be held at key points during each project. Offered fall. 3 credits.

Typography II
GDS 204
Through the use of studied, well designed and competently executed design solutions, we will emphasize the effective and sensitive use of typeforms in complex and sustained communication projects. The attributes of rhythm, proportion, hierarchy, and progression will be investigated, emphasized, and practiced to produce excellent quality professional solutions. Projects are carried out in varying degrees of execution including sketchbook roughs, presentation sketches, laser comprehensives, and finished art. Thoughtful experimentation with the software and imaging equipment is encouraged to extend and challenge the process. The course objectives will be pursued through assigned projects, explanations, demonstrations, and group critiques. Prerequisite: GDS203 Typography I or equivalent. Offered spring. 3 credits.

Limited Edition Portfolio Publication
GDS 207-307-407
This course revolves around creation of a well designed, beautifully executed, printed and bound “leave behind” portfolio. Responsible experimentation with production tools and facilities is encouraged to expand and challenge the process. The course objectives will be pursued through explanations, demonstrations, and critiques. 3 credits.

Graphics for Design
GDS 237-238
This course is designed to teach graphic presentation skills for non-majors in the first semester, and to help students create an effective professional presentation package in the second. The first semester focuses on developing an understanding of key graphic elements, including; grid, type and hierarchy. The second semester focuses on students using these elements to develop their personal portfolios and professional presentation packages. The emphasis of the entire course is to teach effective visual presentation skills. All assignments are geared to help the students develop overall presentation abilities, while building a basic understanding the keys elements of graphic and communication design. Offered fall and spring. 3 credits.
Design for Communication I
GDS 265
This is one of the two central classes in the first year of study in Graphic Design (alongside Typography). In the first semester, students become familiar with the broader discipline of the field through the construction of abstract design concepts, layout, symbols, and sequential systems. Conceptual thinking and the integration of typography with imagery are explored throughout the course. In the 2nd semester, students investigate projects that follow the various sub-fields of the profession; projects include Identity, Web/Interactive, Information and Wayfinding.

Students will be assigned multiple projects throughout the year. Each project begins with a lecture and demonstration of techniques. Each week, students practice presentation to the larger group in formal and informal critique and brainstorming sessions. Faculty will work one on one with students to answer questions and assist in the process. Reviews will be held at key points during each project. Offered fall. 3 credits.

Design for Communication II
GDS 266
This is one of the two central classes in the first year of study in Graphic Design (alongside Typography). In this course, students investigate projects that follow the various sub-fields of the profession; projects include Identity, Web/Interactive, Information and Wayfinding. Students will be assigned multiple projects throughout the year. Each project begins with a lecture and demonstration of techniques. Each week, students practice presentation to the larger group in formal and informal critique and brainstorming sessions. Faculty will work one on one with students to answer questions and assist in the process. Reviews will be held at key points during each project. Prerequisites: GDS265 Design for Communication I or permission of spring instructor. Offered fall. 3 credits.

Web Design/Interactive I
GDS 305
Through this course, students will learn how to use different software tools to design, implement, and produce a Graphic User Interface. Our efforts will be mostly concentrated on creating web/internet/interactive projects, as these will allow for the exercise of ideas and tools across the entire design spectrum. Students will have a grasp of the essential technology used for web applications: the Hyper-Text Markup Language (including HTML 5) and Cascading Style Sheets (CSS). You will be introduced to several techniques that will allow you to begin making interactive applications, which include PHP, JQuery and Javascript, as well as looking at user experience and design of apps for smart phone and pads. The course will also include an introduction to designing and creating Epub formats. Prerequisites: GDS265 Design for Communication I or permission of instructor. Offered fall. 3 credits.

Web Design/Interactive II
GDS 305B
This class builds and expands the study begun in Web Design/Interactive 1 (Graphic User Interface 1). Students move to more advanced structures and interface ideas. Experimental possibilities are explored as students develop web and portable device designs, furthering the skills learned in the first section of the class. Prerequisites: CDS305 Web Design/Interactive I. Offered spring. 3 credits.

Hand-Made Book
GDS 309-409
This course will encompass an introduction to bookbinding tools and techniques. A hands on approach to the school’s production facilities to afford students the opportunity to work with the potentials and limitations of the reproduction process. Responsible experimentation with production tools and facilities is encouraged to expand and challenge the process. The course objectives will be pursued through explanations, demonstrations, and critiques. 3 credits.

Publication Design
GDS 35X-45X
This course covers contemporary issues in Publication Design. The aesthetic of type and image remains the most widespread media for graphic designers. Aspects of the printed word and image will be investigated and considered in this class by focusing on the process by which ideas are developed, conceived, written, edited, and ultimately presented. Publication Design will explore projects that will include exercises focused on working within a team, within budgets, with other professionals, and with key vendors. The sequence of the idea is stressed, including how these ideas are presented and revealed through a variety of publishing media. 3 credits.

Production Seminar
GDS 360
This required course begins with one simple question: What do you want to make? The rest of the course is devoted to learning how to “make things” in the vast array of facilities open to today’s designers. The process of making things is approached from a practical side (understanding materials and digital tools) and a theoretical side (social responsibility and sustainability). Students learn to form successful teams to define and produce projects. Prerequisites: Design for Communication and Typography or Permission of the Instructor. Offered fall. 3 credits.
Graphic Design: Advanced Studio
GDS 365
This is the core class for the second year (junior) of study in the major. The class works on client-based projects. All students work on the projects, all students present to clients, and one design is chosen to be realized. During the course, iterations and presentation skills are stressed as students learn how to navigate the crucial relationship with the client. Students work within realistic industry deadlines and adhere to specific current production requirements. Students will realize a number of presentations for clients throughout the year. They practice and realize both hard-copy and digital presentations. Research, empathy, and design skills are stressed. Prerequisites: GDS203 Typography I and GDS265 Design for Communication I are strongly recommended. Offered fall. 3 credits.

Graphic Design: Advanced Studio
GDS 366
This is the core class for the second year (junior) of study in the major. The class works on client-based projects. All students work on the projects, all students present to clients, and one design is chosen to be realized. During the course, iterations and presentation skills are stressed as students learn how to navigate the crucial relationship with the client. Students work within realistic industry deadlines and adhere to specific current production requirements. Students will realize a number of presentations for clients throughout the year. They practice and realize both hard-copy and digital presentations. Research, empathy, and design skills are stressed. Prerequisites: GDS203 Typography I and GDS265 Design for Communication I. Offered spring. 3 credits.

Contemporary Marketing + Art Direction
GDS 367
Focuses on using graphic design and visualization skills to communicate ideas in print and in new media. Heavy emphasis on conceptualization. Classroom discussions along with critiques set up to mimic actual creative department environment. Offered fall. 3 credits.

Graphic Design: Internship
GDS 399-499
Elective credit can be given on a case-by-case basis for an internship developed by the student through the Career Services Office with advance permission of the department head.

Graphic Design: BFA Thesis
GDS 465
This is the core class for the Senior year of study in the major. The class meets weekly for presentations and to develop research skills and strategic practice. This is the research and idea-phase of the BFA thesis presented in the spring. Presentation, research, and ideational skills are stressed. Offered fall. 3 credits.

Graphic Design: BFA Statement + Exhibit
GDS 466
This is the second half of core class for the Senior year of study in the major. This is the realization phase of the BFA thesis presented at the end of the semester. Prerequisites: Students must be working toward a BFA in one of the Design Environment departments. Other students may be admitted with permission of the instructor. Offered spring. 3 credits.
Creativity + Taoism  
**HCS 300**
This interdisciplinary course explores the ground from which, in the Chinese Taoist philosophic view, all great creativity springs. The purpose is two-fold: first, to investigate and achieve an understanding of the Taoist world view through readings of primary texts such as the "Tao Te Ching" and the "Chuangtzu," and selected works from the Ch'ean (Zen) tradition. Second, we proceed to examine Taoist and Ch'an perceptions are applied to and affect the creation of the art object in traditional China, primarily represented by selections from Chinese poetry. Appropriate attention will also be paid to intended relationships between painting and poetry, occurring when poems are inscribed directly on paintings to create an aesthetic whole. The notion that "visual" and "literary" experiences are somehow mutually exclusive will be challenged. We read such poets as T'so Ch'ien, Wang Wei, Su Tung-p'o and Han Shan, and we look at paintings by such artists as Mu Ch'i, Mi Fei, Shih T'ao and Ni Tsan. Students are encouraged to connect and contrast Taoist assumptions and themes with their own knowledge and experiences as developing artists. May be applied as Creative Writing Concentration course. 3 credits.

Survey of Contemporary Music  
**HCS 309**
This course will give an overview of avant-garde music written in the 20th (and 21st) centuries, with particular emphasis on the relationships between music and the visual arts. Discussions in class will focus on composers whose work helped define contemporary music while creating aesthetic parallels to the visual arts. Emphasis will be placed on listening to avant-garde and experimental music, and students will be expected to attend several recitals of contemporary music and write about their experiences. Students will also have to complete reading and listening assignments on a regular basis. May be applied as Visual Culture Emphasis course. 3 credits.

Avant-Garde Film  
**HCS 325**
Film, the quintessential art form of the 20th century, added time and relativity to the artist's palette. This course examines the abstract and non-narrative tradition: films that focus on manipulation of form, motion, and the collage-like collision of images in time (montage). Topics include early Soviet formalists, Dadaist and Surrealist films of the 1920s and 1930s, and American underground films of the 1960s and 1970s. Students keep a journal of their impressions of each film shown. COURSE FEE REQUIRED. May be applied as Visual Culture Emphasis course. 3 credits.

Japanese Expressions  
**HCS 328**
This course is an introduction to the culture of Japan as it is revealed in the Japanese literary and religious tradition and in modern literary and cinematic expression. Readings will include selections from early Japanese myth and poetry, the diary and early novel forms, and the literary and aesthetic response to influence from China. Appropriate attention will be paid to Noh drama and haiku poetry, writings in the samurai tradition, a modern novel and a Japanese film. The purpose of this course is not to survey the whole of the Japanese experience, but rather to read and view representative examples of Japanese expression with understanding and delight. May be applied as Creative Writing Concentration course. 3 credits.

Ways of Thought: Hinduism + Buddhism  
**HCS 366**
This two-semester course begins with an introduction to similarities and differences between Eastern and Western systems of belief and action. It proceeds with a critical cross-cultural comparison of Hinduism, Indian and Chinese schools of Buddhism, Taoism in China, and Zen Buddhism in Japan. It concludes with a comparison between two representative systems, one Eastern and one Western. The aim of this course is twofold: to explore traditional philosophical, religious, and psychological perceptions that have influenced life (ideal and otherwise) in India, China and Japan, and to provide a basis for understanding selected Asian cultures and, through perspectives gained, to reflect upon our own. 3 credits.

Ways of Thought: Confucianism, Tao, Zen  
**HCS 367**
This course is an introduction to systems of belief and action in China and Japan. It begins with a critical cross-cultural comparison of Confucianism, Taoism and Ch'an Buddhism in China and Zen Buddhism in Japan, concluding with a comparison between two representative systems, one Eastern and one Western. The aim of this course is twofold: to explore traditional philosophical, religious and psychological perceptions that have influenced life (ideal and otherwise) in China and Japan, and to provide a basis for understanding selected Asian cultures and, through perspectives gained, to reflect upon our own. 3 credits.

John Cage: His Life, Work + Influence  
**HCS 367X**
A course on the life and influence of John Cage. The class will detail his history and delve into his musical and artistic output, ideas, and influence on the creative arts today. Significant discussion will be given on his philosophies, aesthetics, innovations, and teachings. The course will also focus on Cage's connections to the visual arts, and how this connection impacted him artistically, while pushing him to formulate ideas that in turn were a significant and continuous influence on the visual arts community. The class will also touch on how Cage was able to make a living on the fringes of a capitalist society while maintaining the values of anarchy and hard work. Regular reading, writing, and listening assignments will be given in class, and students will be expected to create works of art or musical compositions which embody the legacy of John Cage, while pushing the boundaries of their own artistic processes. Visual Culture Emphasis course. 3 credits.
Censorship, Art + The Law
HCS 386
This course will cover the history of censorship in America. We will begin with the language of the First Amendment. We will then study the evolution of the definition of obscenity starting with the Comstock Laws and moving through the current Supreme Court test for determining whether an expression is obscene. We will look at the laws surrounding child pornography as well as hate speech and art that incites violence. For each of these categories of expression, we will discuss anecdotal applications of the First Amendment using artists such as Mapplethorpe, Serrano, Ligon, Zimmerman, Scott, Diana and Finley. While the primary focus of the class will be on government action, we will also look at examples of self censorship by the entertainment industry and public galleries. Finally, we will finish with an overview of the Patriot Act, its current applications and its implications for our future freedom of expression. The question underlying all of the historical context, anecdotal applications and the current law is why do we censor? Are there ever legitimate justifications for censorship and if so, how do we, as a society, draw those lines? In addressing these issues, we will study in depth the feminist anti-pornography movement, excerpts from Susan Sontag's On Photography, and the outcry over music lyrics post-Columbine. 3 credits.

Cinematic Landscapes of Asia
HCS 387X
This course is to explore contemporary films of Asia, focusing on India, China (Taiwan + Hong Kong), + Japan. The films serve as a window of global understanding in culture. Through assigned films, political, social, literary and visual aspects of these nations will be stressed in this course. Mini-lectures will also be provided occasionally to prepare the students in understanding the historical and cultural references in the contexts of contemporary Asian films. For writing assignments, each student is encouraged to self-express and self-identify through viewing the films and sophisticate responses in their writings/reports/critics of the films. The class is divided into two components: film viewing and discussion/lectures. 3 credits.

CIA: Our Creative Continuum
HCS 388X
Students will acquire a working knowledge of the history of the Cleveland Institute of Art—with an emphasis on the diversity of accomplishment among both historical and current CIA faculty and alumni—and will consider whether and, if so, how this information supports their own developing artistic identity and their membership in the CIA community, a “creative continuum” now spanning 130 years (1882-2012). Understanding the history of our school will involve some amount of attention to the history of Cleveland (especially post-1860) and its location in Northeast Ohio, as well as the school’s proximity to the Cleveland Museum of Art and other cultural institutions, once the school came to University Circle in 1905. The impact of major 20th-century events like the World Wars and the Great Depression on the school and its community will also be considered. May be applied as Creative Writing Concentration course. 3 credits.

From the Front Row: Cinema + Critical Writing
HCS 389
Does writing about a film mean something different from writing other things? What is cinematic representation? Cinema is a cultural phenomenon but what do we mean when we say such a thing? Is film a language? What is critical theory? The aim of the seminar is to encourage undergraduate students interested in cinema to develop better written and verbal skills within the context of a broader field of cinema studies. Students will debate the essence of cinema and acquire a framework for understanding its formal qualities. In the process, they will learn to experience film as a visual language, explore its similarities to other arts, and analyze its relation to critical dialogue. FROM THE FRONT ROW; Cinema and An Approach to Critical Writing is divided into three sections or thematic discussions with each section intended to follow one another to provide a cumulative sense of the field of study. Some cross-reference is required to initiate debate and discussion. May be applied as Visual Culture Emphasis course. 3 credits.

Sound Art + New Media
HCS 411
A course on how visual artists (and some composers) use sound in their works. Works discussed in class will include “stand alone” works of sound art, musique concrete, sound sculptures, installation works (using sound as a main component), radio art, film, and internet-based works. Students will be expected to identify differing qualities of sound, and there will be regular listening and reading assignments for each class. Students will also be given written assignments, and will have to compose a work of sound art or sound sculpture as a final project. May be applied as Visual Culture Emphasis course. 3 credits.

Liberal Arts classes can be found in the Course listing section of this catalog under:
ACD: Art/Craft/Design History+Theory
HCS: Humanities/Cultural Studies
LLC: Literature, Language + Composition
SNS: Science + Natural Studies

Topics in 20th-C US History
HCS 390X
As the title suggests, this is an entry-level survey course in modern American history, covering the period roughly from the end of Reconstruction to the late 20th century. In this course we will follow a chronological continuum. We will emphasize political, economic, cultural and social history. We will look at those in positions of power and those groups in society trying to acquire rights and power. In 15 weeks, we will be progressing from the period of steam engines and the American frontier to rock ’n roll and the Apollo moon landing—a vast amount of material. The choice of what to include and what to leave out is entirely subjective, and class feedback on those decisions is encouraged. Issues of international importance will be discussed, in some cases in depth, but the main emphasis of the course will be on the domestic transformation. 3 credits.
Illustration

Layout Rendering Techniques
ILL 260
This course is concerned with introducing students to techniques and materials used by professional illustrators. The emphasis will be on developing critical observation skills along with enhancing technical and rendering abilities to a professional level. Also, purpose and application of techniques for layout presentation, as well as refining finished art for reproduction. Emphasis will be on drawing, painting and other tactile techniques, as well as digital rendering techniques for the preparation of finished art for the final application of artwork created. Offered fall. 3 credits.

Fundamentals of Illustration
ILL 263
To prepare illustration students to become working professionals by providing them with the necessary skills and knowledge to advance through the courses provided at the Institute to develop a professional level of performance for future employment. The Department of Illustration emphasizes the understanding of contemporary themes and concepts as a basis for nurturing the student’s ability to translate this acquired thematic vocabulary into inventive visual solutions. The main objective is to motivate the student’s visual awareness to a professional level. For them to be aware that illustration is an applied art, a business, to satisfy the client needs, and should be executed in a professional business manner by experiencing classroom assignments prepared in a job like situation. Offered fall. 3 credits.

Principles of Illustration
ILL 264
This course assures the student the opportunity to develop a saleable skill, perform in a professional manner and demonstrating a good attitude and work habits that meet client needs and deadlines. Encounter a strong emphasis on different techniques, methods, styles and types of illustration that will further provide advancement towards future employment. Students will be introduced to past and present day illustrators to get a better comprehensive of what role an illustrator plays when dealing in the solutions of design/illustrations problems. Students will also acquire a better understanding of style and techniques used by Illustrators to solve these problems they may confront in the future as professionals. Offered spring. 3 credits.

Character Design + Development
ILL 265
This course will concentrate on the character creation process, focusing on all aspects of character concept and development. Students will learn to understand character types, body language and production techniques. In the fast growing gaming and animation industry, the ability to create characters is essential. Graphic novels/comics, children’s books and advertising also rely heavily on an illustrator’s ability to create characters that meet client demands/needs and make them part of a cohesive world. Offered spring. 3 credits.

Illustration for Publication
ILL 363
This course will focus on applications of digital and tactile processes, materials, and techniques from concept development through final reproduction. Offered fall. 3 credits.

Illustration II
ILL 364
This course will prepare illustration students to become working professionals within the marketing communications community. It will motivate the student’s visual awareness, teaching the student to conceptualize, design and execute on a professional level. Students learn to produce quality illustrations and to be responsible for the conceptual aspects of a project whenever necessary. This course encourages students to develop a confident knowledge of design in illustration, the thinking process, and production techniques necessary to compete in the field of applied arts. Prerequisite: ILL 263 Fundamentals of Illustration. Offered spring. 3 credits.

Storyboarding + Sequential Art
ILL 367
This course covers the areas of sequencing and storyboard development. This is a growing field within the traditional print illustration discipline. New techniques, ideas and concepts will be threads throughout the class as students explore character development, lighting and perspective and background concepts development. Offered spring. 3 credits.

Professional Standards in Illustration
ILL 370
Introduction for junior students in dealing with professional standards set by the Illustration market place. Concentration on the preparation of art work to meet the demands required for successful application for client needs. Students will gain an appreciation for deadlines, client expectations and business practices in collaboration of real-world scenarios. Offered fall and spring. 3 credits.

Visual Concepts in Illustration
ILL 371
This course encourages students to develop a confident knowledge of design in illustration, the thinking process, and production techniques necessary to compete in the field of applied arts and prepares illustration students to become working professionals within the marketing communications community. It will motivate the student’s visual awareness, teaching the student to conceptualize, design and execute on a professional level. Students become familiar with several techniques used in editorial illustrations, book illustrations, advertising illustrations, as well as many others using an extensive range of materials. Students learn to produce quality illustrations and to be responsible for the conceptual aspects of a project whenever necessary. Offered fall. 3 credits.
**Course Catalog**

**Illustration**

**Community Projects: Illustration + Product**
ILL 389
Students will illustrate and provide art and production services for individual clients as well as for organizations in a professional studio setting. The course emphasizes the student’s development of problem-solving, meeting client demands, communication skills, organization and effective time management, proper preparation of artwork for reproduction, teamwork and collaboration—all specific to the marketplace as an introduction to real-life challenges. Offered fall and spring. 3 credits.

**Community Projects**
ILL 390
Students will illustrate and provide art and production services for individual clients as well as for organizations in a professional studio setting. The course emphasizes the student’s development of problem-solving, meeting client demands, communication skills, organization and effective time management, proper preparation of artwork for reproduction, teamwork and collaboration—all specific to the marketplace as an introduction to real-life challenges. Required of junior Illustration majors. Open to electives with instructor’s permission. Offered fall and spring. 3 credits.

**Illustration: Internship**
ILL 399-499
Elective credit can be given on a case-by-case basis for an internship developed by the student through the Career Services Office with advance permission of the department head.

**Illustration: BFA Preparation**
ILL 463A
An independently initiated illustration thesis project is defined in a statement detailing the nature and purpose of the project, medium, and procedural timetable. A year-long project is created displaying the technical competence, solution-based ideas, responsibility to professional standards, self-reliance, determination and perseverance learned throughout a student’s years of education. Offered fall. 3 credits.

**Illustration: Advanced Illustration Studio Projects**
ILL 463B
Students are required to begin thinking of their upcoming BFA thesis project over the summer. On the first day of class students will be expected to present their thesis’ central idea and have first iterations for visual expression of that idea. The beginning of the thesis project consists of research, discussion and tightening up of the central idea. Offered fall. 3 credits.

**Illustration: BFA Thesis + Exhibition**
ILL 464A
Students will develop saleable skill and perform in a professional manner, demonstrating good attitude and work habits. The artwork produced for the BFA Thesis Exhibition emphasizes clarity of concepts, professional responsibilities and developmental procedures necessary to work in the field. Offered spring. 3 credits.

**Illustration: Final Project: Illustration Portfolio**
ILL 464B
The illustration department emphasizes the understanding of contemporary themes and concepts as a basis for nurturing the student’s ability to translate this acquired thematic vocabulary into inventive visual solutions. The main objective is to motivate student’s visual awareness to a professional level to meet market place needs. Offered spring. 3 credits.
Industrial Design

Industrial Design 1.1
IND 235
This course will focus on basic processes and principles of industrial design and product development. An emphasis will be placed on user-centered problems solving and methods for achieving innovative results. Multiple semester projects are structured around key design concepts and individual career interests. Projects are structured to reinforce research, concept generation and refinement, resulting in solutions that address functional and aesthetic issues. Regular formal reviews will enable individuals to develop verbal and visual presentation skills, and formal lectures will be balanced against one-on-one in-studio instruction. Offered sophomore fall. 3 credits.

Transportation Design
IND 235A-335A-435A
This is an introductory course exposing students to the basic knowledge, skills and qualities that are important for a career in transportation design. CIA faculty and practicing transportation designers will demonstrate methods for creating context, inspiring designs, ideation through sketching/rendering and verbal and visual communication. Specific project themes will be driven by industry sponsors while deliverables will be determined by the individual aptitude and experience. Regular formal reviews will enable individuals to develop verbal and visual presentation skills, and formal lectures will be balanced against one-on-one in-studio instruction. Professional designers, both staff level and management, in addition to guests with specialized industry expertise will visit throughout the semester. Offered sophomore fall. 3 credits.

Industrial Design 1.2
IND 236
This course is an extension of Industrial Design 1.1, with a focus on advanced industrial design and product development processes and principles. Emphasis will be placed on in-depth analysis and synthesis, in addition to market-driven exploration. One semester project will focus on problem solving based on systematic ergonomic testing, while the other is a sponsored project that involves interaction with design, marketing and engineering professionals. Regular formal reviews with enable individuals to develop verbal and visual presentation skills, and formal lectures will be balanced against one-on-one in-studio instruction (prerequisite: Industrial Design 1.1). Offered sophomore spring. 3 credits.

Materials + Processes
IND 239
This course provides an overview of contemporary manufacturing methods used in industry, in addition to the material selections used to support them. Lectures will provide an overview of the generally accepted design practices for selected manufacturing processes and materials, along with a framework to make cost-based decisions for selecting a specific process. Each student is required to disassemble and evaluate the manufacturing methods used in an electro-mechanical consumer device and attend factory visits. Each class will include lectures and exercises, and will be supplemented with assigned readings and regular performance opportunities. Offered sophomore fall. 1.5 credits.

Transportation Design
IND 236A-336A-436A
This course is focused on exposing students to the basic knowledge, skills and qualities that are important for a career in transportation design. CIA faculty and practicing transportation designers will demonstrate methods for creating context, inspiring designs, ideation through sketching/rendering, verbal and visual communication, and understanding the fundamental architecture of an automobile. Specific project themes will be driven by industry sponsors, while deliverables will be determined by the individual aptitude and experience. Regular formal reviews will enable individuals to develop verbal and visual presentation skills, and formal lectures will be balanced against one-on-one in-studio instruction. Professional designers, both staff level and management, in addition to guests with specialized industry expertise will visit throughout the semester. Offered sophomore spring. 3 credits.

Materials + Processes
IND 240
Continuation of fall semester. This course provides an overview of contemporary manufacturing methods used in industry, in addition to the material selections used to support them. Lectures will provide an overview of the generally accepted design practices for selected manufacturing processes and materials, along with a framework to make cost-based decisions for selecting a specific process. Each student is required to disassemble and evaluate the manufacturing methods used in an electro-mechanical consumer device and attend factory visits. Each class will include lectures and exercises, and will be supplemented with assigned readings and regular performance opportunities. Offered sophomore spring. 1.5 credits.

Ergonomics + Design
IND 280
This course focuses the process of designing for human use. Anthropometrics, task analysis, user experience, research and safety are explored. Course content is aligned with projects in Industrial Design 1.2. Each class will include lectures and exercises, and will be supplemented with assigned readings and regular performance opportunities. Offered sophomore spring. 3 credits.
Industrial Design

Communication Skills
IND 285
This course will focus on the development of effective visual communication for product design. An emphasis will be placed on exploring and communicating ideas through manual sketching, rendering, orthographic drawing, modeling and verbal/visual presentation. Studio time will include demos, one-day assignments, work time and one-on-one instruction. Coursework is designed to align with projects in Industrial Design 1.1. Offered sophomore fall. 
3 credits.

Communication Skills
IND 286
This course is an extension of Fall Communication Skills and will focus on the development of effective visual communication for product design. An emphasis will be placed on exploring and communicating ideas through sketching, rendering, orthographic drawing, modeling and verbal/visual presentation. Digital communication tools and techniques will be introduced, including the use of digital drawing tablets. Studio time will include demos, one-day assignments, work time and one-on-one instruction. Coursework is designed to align with projects in Industrial Design 1.2 (prerequisite: Communications Skills 1.1). Offered sophomore spring. 3 credits.

3D Modeling 1.1
IND 303
This course focused on introducing students to 3D digital modeling for the industrial design profession. It employs a surface modeling approach using Auto Desk Alias Design software to create multiple class driven projects. Study consists of a lecture demo format in a computer lab environment. In class work will emphasize key modeling concepts and will be supplemented with student-driven projects intended to develop practical application strategies and skills. Junior standing is required for registration of this class. Offered junior fall. 3 credits.

3D Modeling 1.2
IND 304
This course is a continuation of the fall 3D Modeling course with an emphasis on an expanded knowledge of surface modeling techniques. An emphasis will be placed on surface continuity and transition, in addition to exploration of organic forms. Students will acquaint themselves with the process of preparing and exporting files for output. Rapid prototyping will be introduced with an opportunity to create physical parts using an on-site three-dimensional printer. Additional methods and resources for rapid prototyping will also be introduced. Prerequisite: 3D Modeling 1.1. Offered junior spring. 3 credits.

Industrial Design 2.1
IND 335
This course will focus on in-depth design exploration, placing an emphasis on high-level research, innovative concept generation and refinement focused on problem solving and manufacturability. Projects will focus on sustainability and furniture, the latter project requiring a full-size functional prototype. Project themes are intended to cover key critical information, while tailoring material to individual interests. Regular formal reviews with enable individuals to develop verbal and visual presentation skills, and formal lectures will be balanced against one-on-one instruction. Prerequisite: Industrial Design 1.2. Offered junior fall. 3 credits.

Industrial Design 2.2
IND 336B
This course is an extension of Industrial Design 2.1, with a focus on strategic aspects of design. Further emphasis will be placed on research, concept generation and refinement focused on problem solving. Semester projects will focus on design in the context of business objectives and a broader product development environment. Project work will involve teamwork and direct interaction with outside design and marketing professionals. Regular formal reviews with enable individuals to develop verbal and visual presentation skills, and formal lectures will be balanced against one-on-one instruction. Prerequisite: Industrial Design 2.1. Offered junior spring. 3 credits.

Industrial Design 2.2
IND 336C
This course is an extension of Industrial Design 2.1, with a focus on strategic aspects of design. Further emphasis will be placed on research, concept generation and refinement focused on problem solving. Semester projects will focus on design in the context of business objectives and a broader product development environment. Project work will involve teamwork and direct interaction with outside design and marketing professionals. Regular formal reviews with enable individuals to develop verbal and visual presentation skills, and formal lectures will be balanced against one-on-one instruction. Prerequisite: Industrial Design 2.1. Offered junior spring. 3 credits.

Marketing + Design
IND 375
This course exposes students to the relationship between design and marketing, specifically addressing social/ethical responsibility, research, strategic marketing, branding, distribution, advertising and pricing. Each class will include lectures and exercises, and will be supplemented with assigned readings and regular performance opportunities. Individuals will be required to develop a marketing plan for a product created in the Industrial Design studio. Offered junior fall. 3 credits.

Industrial Design: Internship
IND 399-499
Elective credit can be given on a case-by-case basis for an internship developed by student through the career services office, with advance permission of instructor and head of department.
Course Catalog
Industrial Design

3D Modeling 2.1
IND 403
This advanced digital modeling course offers the option to continue with surface modeling using Auto Desk ALIAS Automotive (for automotive design) or Solid Works for those interested in gaining exposure to solid modeling (for product design). The ALIAS option will include advanced methods for exterior surfacing, while the Solid Works option will focus on the user interface and basic solid modeling procedures. Prerequisite: 3D Modeling 1.2. Offered senior fall. 3 credits.

3D Modeling 2.2
IND 404
This is a continuation of the fall 3D Modeling course with an option to continue Auto Desk ALIAS Automotive (for automotive design) or Solid works (for product design). The Auto Desk ALIAS Automotive option will focus on advanced rendering techniques for automotive design presentations, including Key Shot animation and rendering procedures. Projects will culminate in fully modeled exterior or interior design presented as a finished animation of student’s own design. The Solid Works option will focus on surface modeling techniques and the differences and advantages of combining solids with surface modeling techniques. Areas of study will include surfacing tools loft and boundary and continuity options for curvature and 3D sketching. Additionally, advanced rendering techniques will be explored. Prerequisite: 3D Modeling 2.1. Offers senior fall. 3 credits.

Design Center Learning
IND 417
This course functions as a professional design studio, placing an emphasis on client-based projects and interdisciplinary teamwork. All companies/organizations who are participating in the course make a financial commitment to CIA and intern team members are compensated. Compensation varies, but is based on the project budget, time commitment and individual contributions. The faculty, who will oversee the process, deliverables and schedule for each project, will determine studio responsibilities. Prerequisites for Industrial Design majors: one year of industrial design training and approval of the course faculty. Prerequisite for non-Industrial Design majors: approval of the course faculty. Offered fall and spring. 3 credits.

Industrial Design 3.1
IND 435B
This course focuses on the semester-long thesis project. Individuals will define the project theme and work with faculty to identify key problems and opportunities. In-depth research will inform concept develop, ultimately resulting in a refined solutions that considers functional needs, aesthetics and manufacturing. Additionally, individuals are expected to create compelling visual, verbal and written presentations that create context for the project and effectively communicate the validity of the project and outcomes. In order to gain exposure in the design community, individuals will be required to submit their final design to a design competition. Formal reviews will be balanced against weekly one-on-one studio discussion. Prerequisite: Industrial Design 2.2. Offered senior fall. 3 credits.

Industrial Design 3.1
IND 435C
This course focuses on the semester-long thesis project. Individuals will define the project theme and work with faculty to identify key problems and opportunities. In-depth research will inform concept develop, ultimately resulting in a refined solutions that considers functional needs, aesthetics and manufacturing. Additionally, individuals are expected to create compelling visual, verbal and written presentations that create context for the project and effectively communicate the validity of the project and outcomes. In order to gain exposure in the design community, individuals will be required to submit their final design to a design competition. Formal reviews will be balanced against weekly one-on-one studio discussion (prerequisite: Industrial Design 2.2). Offered senior fall. 3 credits.

Industrial Design 3.2
IND 436
This course will focus on planning/preparation and execution of work for three primary milestones, including Employment search, BFA and Spring Show. Individuals will be responsible for determining what work will be accomplished based on career objectives and for an overall work schedule which will serve as a guide for the semester. Faculty will be available in studio to provide advice on organization, project work, portfolio development and networking. Offered senior spring. 3 credits.
Integrated Media

Sound Design
IME 211-311
This class is focused on aspects of sound design related to the practice of sonic arts. Sound art is flourishing in museums and galleries, on networks, and performed at festivals and performance venues around the world. Like many genres of contemporary art, sound art is interdisciplinary with investigations in: digital manipulation of sound, sound synthesis, sound installation, sound sculpture, psychoacoustics, field recording, noise composition, integrated sound and image works for pre-recorded presentation or performed live. The influence of these forms on popular music, television and cinema scores will also be explored.
3 credits.

BFA Thesis + Exhibition
IME 402
These courses provide a platform for senior Animation, Biomedical Art, Game Design, Illustration, and Photography students who are BFA candidates. The course is structured to support the individual in shaping her/his own project and the production of all elements of the BFA Thesis, strong conceptual skills developed through a professional planning and a good researched idea are core to this process. Offered spring. 3 credits.
Interior Architecture

Space + Planning Fundamentals
INTA 231A
This course will cover the basic understanding of space planning and documentation, floor planning and elevations material selection, sample and presentation boards, space and lighting relationships, furniture and mechanical layouts, flow and movement. Open elective, sophomore and above. Offered fall. 3 credits.

Architectural Drawing + Document
INTA 231B
This course is an introduction to hand drafting and documentation including drawing, lettering and historic referencing as well as ADA topics, historic vernacular, and space planning. Field trips may be included. Mandatory for all Sophomore Interior Architecture majors. Open elective, sophomore and above. Offered fall. 3 credits.

Retail, Restaurant + Store Design
INTA 232A
Course includes several retail design problems covering various problem-solving methods including: retail fixture/specialty retail project working with a local Cleveland-based company and retail storefront design. Students will participate in formal critiques using presentation methods and skills. Mandatory for all Sophomore Interior Architecture majors. Open elective, sophomore and above. Offered spring. 3 credits.

Materials, Research + Space Plan
INTA 232B
Space planning projects based on special programming and research including furniture design, finishes and furnishings, material presentations from the manufacturing industry and field trips. Students will participate in formal critiques using presentation methods and skills. Final project is group collaboration. Mandatory for all Sophomore Interior Architecture majors. Open elective, sophomore and above. Offered spring. 3 credits.

INTA Communication Skills 1
INTA 285
The basics of perspective drawing are taught in twelve assignment modules covering all forms of measured perspective drawing. The final design project will include drawing and renderings as a requirement. Mandatory for all Sophomore Interior Architecture majors. Offered fall. 3 credits.

INTA Communication Skills 2
INTA 286
Intermediate Level drawing and rendering including perspective drawing from several viewpoints, rendering techniques in several styles media and design projects throughout course. Mandatory for all Sophomore Interior Architecture majors. Open elective, sophomore and above. Prerequisites for Interior Architecture majors: INTA285. No prerequisites for electives. Offered spring. 3 credits.

Retail Design + Brand Design
INTA 332
Course includes brand-focused projects including a retail design project hosted at client location with the final presentation to their design team and an advance design problem with industry interaction or competition with a potential summer internship. Mandatory for all Junior Interior Design Majors. Open elective, sophomore and above. Prerequisites for Interior Architecture majors: INTA232A and INTA331. No prerequisites for electives. Offered spring. 3 credits.

Interior Architecture: AutoCAD
INTA 333
A series of modules covering the basics of AutoCAD with a final project. Mandatory for all Junior Interior Architecture majors. Open elective, sophomore and above. Offered fall. 3 credits.

Architecture + Communication Skills
INTA 385
Advanced level drawing and rendering, focusing on traditional and digital media. Mandatory for all Junior Interior Architecture majors. Open elective, sophomore and above. Prerequisites: INTA285 and INTA286 required for Interior Architecture majors. No prerequisites for elective students. Offered fall. 3 credits.

Interior Architecture: Internship
INTA 399-499
Elective to Interior Architecture juniors who have an internship opportunity with the approval from the Department Head
**INTA: Senior Thesis Problem**
INTA 431A
A semester-long self-defined intense problem, involving a research document, several advisors, and two major presentations. The final presentation is given in a gallery environment and is open to the general public. The thesis encompasses all aspects of the student’s previous course work and is their most thorough project. Mandatory for all Senior Interior Architecture majors. Senior Students outside Interior Architecture may petition to take this course with Department Head approval. Offered fall. 6 credits for Interior Architecture majors. 3 credits for electives.

**INTA: Senior Thesis Problem**
INTA 431B
A semester-long self-defined intense problem, involving a research document, several advisors, and two major presentations. The final presentation is given in a gallery environment and is open to the general public. The thesis encompasses all aspects of the student’s previous course work and is their most thorough project. Mandatory for all Senior Interior Architecture majors. Senior Students outside Interior Architecture may petition to take this course with Department Head approval. Offered fall. 6 credits for Interior Architecture majors. 3 credits for electives.

**Interior Architecture**
INTA 432
Advanced brand and market driven projects one internally and the other hosted by and presented at a major design firm who provides awards to top students. Offered spring. 3 credits.

**INTA: BFA Survey**
INTA 432A
Final Preparation for Senior BFA. Faculty work with seniors to prepare + plan their final BFA Exhibition + Presentation for spring. Preparation for career search and interviewing skills will be a part of the course. Prerequisites: All sophomore and junior major studio courses must be completed. Offered spring. 3 credits.

**INTA: Advanced Problems**
INTA 432B
A Senior level advanced Design problem will be assigned to the students with a final review with an industry professional. Prerequisites: All sophomore and junior major studio courses must be completed. Senior students from outside the department may petition to enroll in the course with major department chair’s approval. Offered spring. 3 credits.
Jewelry+Metals: Thesis/Professional Portfolio
MET 093A
The thesis book project was established in the Jewelry + Metals department and has been required course work since 1965. The development of the thesis book allows each major to write about a range of experiences from their work, and document the development of a body of work in text, photos, and renderings. Each thesis becomes part of an important collection that dates back to the earliest BFA degrees. Essay subjects are presented to challenge students to conduct research and examine their own position. Discussions and presentations vary to recognize the direction of the group. The first half of a two-semester course. Open to graduating Jewelry + Metals majors and all electives who are seniors. Required of 4th year graduating Jewelry + Metals majors. Offered fall. 1.5 credits.

Jewelry+Metals Thesis
MET 093B
The second half of a two-semester course, the completion of the thesis book allows each major to conduct research, develop work, write about a range of experiences from their work, and document the development of a body of work in text, photos, and renderings. Each completed thesis becomes part of an important collection that dates back to the earliest BFA degrees beginning in 1965. Subjects and questions are presented to challenge students to further their research and refine their own positions. Discussions and presentations vary to recognize the direction of the group. The course culminates in creating two copies of the book—one that is included in the department archive, and the other that serves as a powerful professional portfolio for the graduate. Open to graduating Jewelry + Metals majors and all electives who are seniors. Required of 4th year graduating Jewelry + Metals majors. Offered spring. 1.5 credits.

Jewelry+Metals: Fabrication
MET 206-306-406
Emphasis in the studio is placed on fabrication techniques, from pattern work to cold connection, soldering on larger scale and hollow construction. Independent work is encouraged. Visiting artists, field trips, and slide presentations supplement the class. Open to sophomore Jewelry+Metals majors and all electives. Prerequisites: MET249 Introduction to Jewelry + Metals. 3 credits.

Enamel: Image, Surface, Relief
MET 245
Fused glass (enamel) to metal is the focus of this course. Drawing and painting skills will transcend graphite, paper, oil and canvas to molten glass on metal. Transparent, opaque, liquid and dry enamels will be introduced. Experimental to traditional processes in the medium will be covered. Photographic and digitally produced images are options for resists for the acid etching process. The linear aspects of cloisonné will be considered through the fusion of formed silver and copper wires into the enamel surface. 3 credits.

Multiples in Enamel
MET 246-346-446
This course will focus on the use of enamel through the use of multiples: series, limited edition and production. Beginning through advanced level students will explore the medium through these models of studio production. Processes covered will be those easily adapted to working in multiples and not exclude any techniques. Prerequisite: MET245 Enamel: Image, Surface, Relief. 3 credits.

The Printed Image in Enamel
MET 248-348-448
The focus of this course will be on the use of the printed image with the medium of enamel. Photographs, photocopies and digitally produced and enhanced images will be transferred to the medium through acid etching, silk-screening, decals and photographic transfers. The emphasis will be on the use of enamel on the two-dimensional surface, although those with metal forming experience may explore three-dimensional forms in combination with the processes above. 3 credits.

Intro to Jewelry and Metals
MET 249
Work in this studio involves the field of jewelry and metalsmithing, its history, contemporary issues and activities, and the use and understanding of materials and processes. As a medium, metal presents more variables and potential than any other material. It can serve to produce sound, light, heat, motion, to present color, texture, and form, to store and release energy, and provide strength, and durability, all of which increase the options in your work. An introduction to the field of jewelry and metals includes the foundation techniques, skills, and technologies necessary to create jewelry and objects of material culture. The course includes extensive presentations, demonstrations, technical exercises and assignments, discussions, and critiques. Throughout the semester we explore the use of metal as a medium for artistic expression. A strong emphasis is placed on your ability to address and apply design principles, aesthetic considerations, and conceptual content to achieve a visual statement. Required of first semester Jewelry + Metals majors. Open to all electives. Offered fall and spring. 3 credits.

Three-Dimensional Forms in Enamel
MET 247-347-447
The emphasis of this course will be applications of enamel on the three-dimensional form. Enamel used in functional, decorative, jewelry or sculptural context may be explored. Metal forming and fabrication techniques that apply specifically to the use of enamel will be introduced. Beginning enameling skills required for three-dimensional forms will be covered. 3 credits.
Enamel in the Public Realm
MET 250-350-450
The use of enamel for public, community based, collaborative, or interactive art is the focus of this course. Demonstrations will support beginning to advanced level students and will vary based on needs to complete individual projects. The emphasis for beginning students will be on the use of enamel on the two-dimensional surface. Students with metal forming experience may explore three-dimensional forms in combination with enamel. 3 credits.

Jewelry+Metals: Mechanisms
MET 251-351-451
Throughout the history of jewelry and metalwork mechanisms have served physical, aesthetic, and conceptual functions, from movement to closure, ornament to interaction. This course is designed as a project-based curriculum to offer experiences to learn to design and make mechanisms, catches, latches, and hinges for movement and closure of jewelry and objects, as well as linkage systems, findings for jewelry, and mechanical objects. Each student has the opportunity to complete technical exercises, samples, and finished work for your portfolio. Slides, demonstrations and samples supplement the course. Open to sophomore Jewelry + Metals majors and all electives. Prerequisites: MET249 Introduction to Jewelry + Metals. 3 credits.

Jewelry+Metals: Advanced Projects
MET 253-353-453
The course is designed to examine concepts and technologies of the field, and pursue work of individual direction. Various advanced studio practices and techniques will supplement the course to challenge conceptual growth, facilitate design, and present new means of fabrication. Subjects are presented to direct students to conduct research and examine their own position. The course includes demonstrations and presentations to support individual directions. Ongoing discussions and readings are an integral part of the course. Open to sophomore Jewelry + Metals majors and electives with instructor’s permission. 3 credits.

Jewelry+Metals: Jewelry Concepts
MET 254-354-454
Why is jewelry worn? How is jewelry worn? This course will focus on the motivations behind why we make jewelry, and how jewelry functions in our contemporary culture, and others. The question of the boundaries of what defines jewelry, and the exploration of concepts guide the work. Self initiated projects as well as assignments relating to jewelry concepts are presented throughout the semester. Readings, research, and dialogue are an integral part of class. Slides and actual contemporary and historic pieces supplement the course. Open to sophomore Jewelry + Metals majors and all electives. 3 credits.

Jewelry+Metals: Art + Machine
MET 255-355-455
An intermediate and advanced level course designed to provide new opportunities to discuss and explore the historical and contemporary role of tools, machines, and technology in art and design. New technologies and materials provide an exciting range of possibilities in models, molds, and parts for jewelry and object making. The course will address the practices, concepts and technologies of tool making, machine tool processes, 3D modeling and 3D printing. Students develop and apply new skill sets to develop and create work of individual direction. The course includes 3D modeling, rendering, and output to the department’s (2) devices, (CNC—computer numerical control) milling machine, Solidscape 3D wax printer, FDM fused deposition modeling – 3D printing) and printing through service bureaus provide new opportunities in the presentation and creation of new work right here in our studio. Readings, essays, and discussion offer the integrated seminar experience. Visiting artists, field trips, and presentations supplement the activity in the department. Open to sophomore Jewelry + Metals majors. Recommended as an elective for Craft + Design majors, sculpture, ID, Interior Design, biomedical art, and other students with 3D modeling interest. 3 credits.

Jewelry+Metals: Modeling
MET 256-356-456
Modeling explores the changing role of 3D modeling and 3D printing in art and design. A rapidly expanding range of technologies and materials provides new and exciting possibilities for models, molds, and parts for jewelry and object making. The course will address and apply concepts and technologies of 3D modeling, CAD/CAM + RP (computer aided design / computer aided manufacturing / rapid prototyping), 3D printing, and fabrication processes. Through a project-based curriculum, the course will challenge each student to apply these technologies to create work that remains unique to their individual vision. 3D modeling and rendering with Rhino, and output to the CNC (computer numerical control) milling machine, Solidscape 3D wax printer, FDM fused deposition modeling – 3D printing) and printing through service bureaus provide new opportunities in the presentation and creation of new work right here in our studio. Readings, essays, and discussion offer the integrated seminar experience. Visiting artists, field trips, and presentations supplement the activity in the department. Open to sophomore Jewelry + Metals majors. Recommended as an elective for Craft + Design majors, sculpture, ID, Interior Design, biomedical art, and other students with 3D modeling interest. 3 credits.
Jewelry+Metals: Recycling + Renovation
MET 257-357-457
This course is more relevant in the world today than ever before. We explore the concepts of recycling and up-cycling as means of design development and expression through artwork. Various discarded materials, used or found objects that have been previously created to serve some other purpose will be reused to create work. Students will also revisit ideas through existing objects within our culture and re-address an individual’s previous work. Formats of the work in this course may take the shape of jewelry, wearables, or objects. Students must come prepared during the semester with found objects, thrift store or flea market finds, thrown away materials and be willing to alter them. Research and concept development are part of the weekly dialog. Slides and samples will supplement the course. Demonstrations will be provided as needed. Open to sophomore Jewelry + Metals majors and all electives. No previous metalworking skills are needed. 3 credits.

Jewelry+Metals Surface
MET 258-358-458
This course explores various techniques for affecting and embellishing the surface of non-ferrous metals. An emphasis on technical exercises throughout the semester runs concurrently with self directed work. Experimentation is encouraged and students complete the course with finished works. Slides, videos, demonstrations, samples and actual exemplary pieces supplement the course. Open to sophomore Jewelry + Metals majors and all electives. Prerequisites: MET249 Introduction to Jewelry + Metals. 3 credits.

Jewelry+Metals: Forming + Fabrication
MET 259-359-459
This course is designed to develop skills in forming nonferrous metal through the various metalsmithing processes of raising, stretching, seaming, snarling, crimping, and pitch work used to create volumetric forms for functional and nonfunctional objects as well as jewelry. Problems are presented to challenge all levels of students, recognize singular object-driven problems, along with discussion of formal and conceptual issues. Presentations, visiting artists, slides, and actual objects supplement the course. Open to sophomore Jewelry + Metals majors and all electives. 3 credits.

Jewelry+Metals: Color
MET 260-360-460
The use of color in jewelry and metals presents great possibilities. This course will explore a range of approaches to the use of color and colored materials in the creation of jewelry, functional objects, and small sculpture. Beyond the classic greens and browns, we will develop and apply chemical patinas to produce a range of effects in colors and patterns. In aluminum, the electro-chemical process of anodization will allow pigment dyes to be deposited in the surface of the metal. Plastics will be presented to allow for fabrication with stock materials, casting of resins and polymers, and laminations. Other pigments such as colored-pencils, paints, and powder coating are also addressed. Extensive samples and slides supplement the course. Open to sophomore Jewelry + Metals majors and all electives. 3 credits.

Jewelry+Metals: Alternative Materials
MET 263-363-463
The limitless possibilities of materials are investigated and applied to create wearable objects. These materials are explored for their conceptual potential and the capacity they hold as related to design elements for production. Students reinterpret and remake materials. Self-directed work and projects relating to the topic are presented throughout the semester. Reading, research, and critiques are an integral part of the class. Slides, images, and actual works supplement the course. Open to sophomore Jewelry + Metals majors and all electives. 3 credits.

Jewelry+Metals: Ceremony + Ritual
MET 261-361-461
Consider the importance of the objects we use in specialized events, ceremonies, and our daily rituals. How does ceremony and ritual fit into the context of the 21st century and our society? We explore historic and worldwide references to ceremonial and ritual objects through the slide presentations, videos, and actual works. Students create objects based on individual exploration and interest relevant to the subject. Additional independent work is also required. Open to sophomore Jewelry + Metals majors and all electives. 3 credits.

Jewelry+Metals: Settings
MET 262-362-462
This course will examine the subject and techniques of settings. Exploration of basic stone setting procedures are addressed. The ‘stones’ being set during the course of the semester will be precious or semi-precious gems, minerals, found or handmade objects created from a variety of materials. Individual investigations result in several pieces of jewelry or objects created as they are addressed by assignments in the class. The course addresses multiple sources for gems, and includes assistance with acquisitions. Demonstrations, samples and a visiting artist will supplement the course. Open to sophomore Jewelry + Metals majors, intermediate and advanced electives. Prerequisites: MET249 Introduction to Jewelry + Metals. 3 credits.
Jewelry+Metals: Production
MET 264-364-464
Jewelry and object production is a complex and demanding avenue that can be navigated by many strategies. We explore a full range of production design, concepts, and technologies with a focus on wearable jewelry and functional objects. We address research, trends and concepts, ideation, design + redesign, production techniques + technologies, marketing, presentation, packaging, time management, pricing, and artist/gallery relationships. Challenges include short and long term projects based on demonstrations, research, and readings. The course is supplemented with presentations, examples of actual works, and visiting artists who make their living as production artists/designers. Ultimately you will conceptualize, design, and create one or more lines. The course includes preparation for shows and galleries, and participation in the Student Art Sale in December. Open to sophomore Jewelry + Metals majors and all electives. One course in Jewelry + Metals recommended. 3 credits.

Jewelry+Metals: Settings–Advanced + Basic
MET 265-365-465
This course extends the subject as well as the processes of setting by revisiting some of the basics and presenting more advanced setting techniques including bead, reverse, flush, and tension. Basic-level techniques and materials are presented for novices. Individual investigations result in several pieces of jewelry or objects. The course addresses multiple sources for gems, and includes assistance with acquisitions. Demonstrations, samples and a visiting artist supplement the course. Open to sophomore Jewelry + Metals majors and all electives. Prerequisite: MET262 Jewelry + Metals: Settings. 3 credits.

Jewelry+Metals: Flatware
MET 266-366-466
Flatware is an exploration of utensils for preparing, serving, and eating food. Emphasis is placed on function, related concepts, and use of materials. Independent work is also encouraged. This is an intermediate and advanced level course designed to challenge students’ conceptual and design skills. The exploration of advanced studio processes will be encouraged to help facilitate the projects’ design and fabrication. Problems are presented to challenge all levels of students. Visiting artists, field trips, and slide presentations supplement the class. Open to sophomore Jewelry + Metals majors all electives. Prerequisites: MET249 Introduction to Jewelry + Metals. 3 credits.

Jewelry+Metals: Casting + Modeling
MET 267-367-467
Casting and Modeling is a hybrid course designed to address the connection of modeling and casting. As a basic technology in the jewelry and metals field, casting provides the opportunity to explore complex and dynamic form, surface and texture, the organic and geometric language. Technologies and materials from ancient to cutting-edge provide new and exciting possibilities for models, molds, and parts. The course will address concepts and technologies of basic waxwork and model making, CAD/CAM, and casting processes to challenge students to apply new techniques and technologies to create work that remains unique to their direction. From fundamental wax carving and found objects to 3D modeling and output to the Solidscape™ 3D wax printer and the CNC milling machine, the course will cultivate new skills and opportunities for the creation of new work. Vacuum, centrifugal, gravity, and rubber mold casting are addressed to provide a range of opportunities for tangible objects. A wide variety of metals, plastic resins, and rubber provide endless possibilities. Readings, essays, and discussion offer the integrated seminar experience. Visiting artists, field trips, and presentations will supplement the activity in the department. Open to sophomore Jewelry + Metals majors and all electives. 3 credits.

Jewelry+Metals: Casting
MET 268-368-468
As a basic technology in the jewelry and metals field, casting provides the opportunity to explore complex and dynamic form, surface and texture, the organic and geometric language. Technologies and materials from ancient to cutting-edge provide new and exciting possibilities for models, molds, and parts. The course will address concepts and technologies of basic waxwork and model making, CAD/CAM, and casting processes to challenge students to apply new techniques and technologies to create work that remains unique to their direction. From fundamental wax carving and found objects to 3D modeling and output to the Solidscape™ 3D wax printer and the CNC milling machine, the course will cultivate new skills and opportunities for the creation of new work. Vacuum, centrifugal, gravity, and rubber mold casting are addressed to provide a range of opportunities for tangible objects. A wide variety of metals, plastic resins, and rubber provide endless possibilities. Readings, essays, and discussion offer the integrated seminar experience. Visiting artists, field trips, and presentations will supplement the activity in the department. Open to sophomore Jewelry + Metals majors and all electives. 3 credits.
Jewelry+Metals: Pewter
MET 270-370-470
Pewter is a material that lies somewhere between metal and clay. It is an extremely versatile metal, beautiful for functional objects, jewelry, and sculpture. Pewter affords dynamic, intuitive, and direct work in metal. The course includes pattern making, fabrication, casting, slumping, forging, spinning, and other forming methods. Additional materials and techniques from self-directed applications to advanced studio technologies, including CAD for pattern making and design will supplement the course to provide new challenges, facilitate design, and present new means of fabrication. Readings, essays, and discussion offer the integrated seminar experience. Projects recognize the direction of the group and include singular object-driven problems, formal issues, and conceptual challenges. Open to sophomore Jewelry + Metals majors and all electives. 3 credits.

Fashion-Jewelry-Accessories
MET 271-371-471
Fashion has the power to transcend the mundane, to offer new and novel experiences, to transform the wearer, to empower and provoke, and to reflect and record the times in which we live. As artists and designers we live in a culture of unprecedented access to information, new ideas, materials, and technologies. Fashion-Jewelry-Accessories is designed to focus on the changing landscape of art and design, where we will examine history, concepts, design practices, materials and technologies toward fashion jewelry and accessories. Varied materials and techniques from self-directed exploration to advanced studio technologies will supplement the course to challenge conceptual growth, facilitate design, and present new means of fabrication. “Challenges” are presented to afford students the opportunity to conduct research and explore their own directions. Readings, essays, and discussion offer the integrated seminar experience. The course includes visiting artists/designers, a field trip, presentations, and demonstrations to support individual directions. Open to sophomore Jewelry + Metals majors and all electives. 3 credits.

Advanced Enamel Process
MET 352-452
This course will focus on advanced and experimental processes with enamel. Processes may include but are not limited to: torchfiring, electroforming, grissaille, plique-a-jour, enameling on silver and gold. Advanced students are expected to continue their exploration of the medium, focusing on enamel techniques not covered in the beginning course. Students are encouraged to explore 3-dimensional formats and large-scale applications at the same time as mastering their skills in the processes previously learned. Graduating students are generally working independently on research and production of work for the BFA exhibit. Technical demonstrations will be based on the skill level of the students enrolled each semester. Prerequisites: MET245 Enamel: Image, Surface, Relief. 3 credits.

Metals: Internship
MET 399-499
Majors are encouraged to have an internship in the jewelry, metals, and related fields. They may carry up to 3 elective credits. Majors have interned with Liz Claiborne, Juicy Couture, Kraftmaid, Nine West, Albert Paley Studios, Thomas Mann, Heather B. Moore, and others. Available to junior Jewelry + Metals majors. 3 credits.

Jewelry+Metals: BFA Statement + Exhibition
MET 450M
The seminar is designed to focus on the changing landscape of art, where we will examine concepts and technologies of the field, and pursue work of individual direction. Advanced studio technologies and computer applications will supplement the course to challenge conceptual growth, facilitate design, and present new means of fabrication. Subjects are presented to challenge students to conduct research and examine their own position. Discussions and presentations vary to recognize the direction of the group and include singular object-driven problems, formal issues, and conceptual challenges. The course includes larger group discussion with all majors, demonstrations to support individual directions, visiting artists, field trips and presentations. The completion of work and preparation for the presentation of the BFA Exhibition will take place. Required of 4th year graduating Jewelry+Metals majors. 3 credits.
Literature, Language + Composition

Writing + Inquiry I: Basic Composition + Contemporary Ideas
LLC 101
A composition-intensive course that emphasizes basic composition skills, while introducing basic research and documentation skills. Along with cultivating the concomitant skills in critical reading and thinking, this course also introduces an explicitly theoretical approach to contemporary culture. Twenty pages of student expository writing will be required. Offered fall. 3 credits.

Writing + Inquiry II: Research + Intellectual Traditions
LLC 102
An intermediate writing and research course based in readings on the western intellectual and cultural heritage and their global contexts. The course will emphasize the basic research skills involved in both academic writing and studio processes. Twenty pages of student expository writing will be required. Prerequisite LLC 101. Offered spring. 3 credits.

Writing + Inquiry III: Narrative Forms
LLC 203
This course continues to build students’ skills in writing, research, critical thinking, and argument, while introducing a survey of narrative forms and critical methods based in narratology to be used in the analysis and understanding of narrative. Offered fall and spring. Prerequisite LLC 101. 3 credits.

Writing for the Art + Design Career
LLC 204W
This course offers students the opportunity to develop strong writing skills for the types of writing involved in art and design careers. The first and biggest part of this course is devoted to these career-related forms and is predicated on an exploration of the relationship between the rhetorical and the design arts. The culminating project for this section of the course, therefore, will be a portfolio containing the final versions of each of the writing assignments, designed to showcase visually the collected written works, and thus also to demonstrate the extent to which the student has pursued the relationship between rhetoric and design. Each student’s portfolio will contain the types of career documents relevant to her/his own particular emphases or goals within the art/design fields represented by the particular group of students in the class. A later, smaller part of the course will explore the theories and argument strategies of art critical essays and reviews as models for the students’ own assignments in critical writing. These assignments will include one art or design show review and one critical essay on an art or design subject selected by the student for the relevance of its subject to his/her own studio work. Class work will focus on writing, tutorials, and peer editing/critique, allowing students ample opportunity to become comfortable with, and even accomplished in, the kinds of writing necessary for self-presentation and critical engagement in visual arts careers. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

Arts Journalism
LLC 205WX
In this elective course, students will study various forms and stages of writing about art for publication. In addition to reading and discussing effective examples of published writings on art, students will produce a total of 20 pages of writing throughout the semester in the form of reviews, interviews, profiles, and feature stories. Students will alternately function as writers and editors as they produce written work that is expressly conceived and shaped for publication. 3 credits.

Hybrid Writing
LLC 206W
Sophomore level writing seminar focusing on intergenre hybrid writing, with an emphasis on the New Narrative movement, open to all students, of special interest to students interested in writing adventurously and creatively about their chosen art and design forms. The method of instruction for this class will combine short lectures with class discussion, workshops, and in-class writing experiments. The class will be structured around the idea of creative research, and will potentially involve research days utilizing the museum or the library. Peer feedback sessions and a final short critical paper are designed to assist students in developing a constructive, original vocabulary to critically assess both their own creative work and that of others. (H/CS) CWC. 3 credits.

Autobiographical Narratives
LLC 207W
This course consists of six first-person accounts, which highlight the socio-historical and psychological significance of the autobiographical narrative in the black experience. The autobiographical mode is one of the predominant forms of literary expression in black literature, dating back to the “slave narrative” of the eighteenth century, just as it is in the hands of African artists a prominent literary form that is characterized by its predominantly collective and communal narrative voice. The course will focus on the interface between individual life-story and collective (social) history. It will also consider in the postmodernist sense the thin line between fiction and history (art and life), while exploring individual consciousness as an art of rhetorical self-definition and subjectivity. The last two books include two generational responses to womanist issues; and both of them problematize the autobiographical art-form. There are six videos primarily to provide socio-historical background to the course. The videos, as visual texts, are also meant to create a critical interface with the 6 literary socio-constructs, with a view to stimulating your deep insights into the course. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.
Science Fiction + Fantasy
LLC 210W

The genre (or sub-genre) of science fiction may, on one level, be seen as a variety of Romanticism, as an extended collective response to features of modernity, specifically scientific discoveries and innovations, as well as elements of the Industrial and technological revolutions. Science fiction, in its astonishing number of permutations, has filled a vast canvas of imaginative possibility, discovering a range of responses and forms that range from the dystopian, pessimistic, even nihilistic, to the utopian. We hear and see, in the voices and imaginations of different science fiction writers and artists, warnings and celebrations, but at the bottom, questionings of what it means to be human and of what kinds of possibilities may lay before us. Science fiction is also a remarkably popular genre: it’s vitally manifested in books, television shows, films, toys, games. In this class we will investigate some of the space(s), both literal and metaphorical, that science fiction (and popular ideas of science) offer to the imagination. The course’s center, however, is the students’ own writing and their own ideas, and will be conducted in workshop format, with relatively brief lectures by the instructor presenting relevant literary, historical, theoretical and biographical backgrounds and contexts. During the semester, students will present two to three original works-in-progress (either creative or critical) to the class, distributing photocopies of their work a week in advance to the members of the class and to the instructor. 3 credits.

Writing about Material Culture
LLC 212WX

How is the material world understood in human culture? What do “things” mean—and why? Students will investigate various disciplinary approaches to material culture, through Freudian, semiotic, sociological, Marxist, and archaeological studies. Interdisciplinary approaches will be emphasized. In addition, the course will illuminate our personal attachments, the hidden history of things, our experience of material consciousness (as artists and designers), and the scholarly “packaging” of objects in support of cultural/art history. 3 credits.

Writing for the Sciences
LLC 213X

This course introduces the basic written discourse forms of the sciences. It gives an overview and rationale of scientific reports describing the results of original research. It provides students with an opportunity to develop competency in the discourse model that has evolved over centuries of scientific practice. Students will learn the specific lexical, grammatical, and stylistic conventions that comprise the accepted written format, in addition to the components of a scientific report; i.e., the Introduction (including the Literature Review), the Methods, the Results (including their display and documentation), the Discussion, and the References. The term project for each student will be focused on the preparation of a full written report of that student’s individual inquiry into an area of scientific research relevant to their particular studio work and/or interests. Class meetings will center on discussion of readings, research, and on class critique of written drafts that students prepare as they work toward the final versions of their reports. Offered yearly. Fulfills writing-intensive requirement. 3 credits.

Screenwriting
LLC 318

What is a spec script, a slugline, a smash cut? What’s the difference between montage and a series of shots, and why does the screenwriter need to know? One script page averages how many minutes of onscreen film time? In addition to the demands of just plain good storytelling, writing for film entails expressing everything about the story visually, which gives visual artists an advantage in adapting to the demands of the form. It is the screenwriter’s job to put all of the sights, sounds and speeches on the page, while still leaving room for interpretation by the filmmakers. In this course we will discuss the elements of good storytelling, study the screenplays of Pulp Fiction and Chocolat, and write a short screenplay formatted to conform to industry standards. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

Spies
LLC 309X

In this seminar we will discuss spying in its many manifestations including the reasons and justifications offered for spying; the different types of spying; the means by which spying is conducted; and whether or not spying is a necessary evil. We will use a variety of texts in the class, non-fiction historical works as well as fictional works. Through a variety of media including film, hypertext, popular culture essays, fiction, and radio programs, we will explore the fascination with spies and what spies represent culturally and historically. Our object is that by the end of the semester we will be better readers of texts and more knowledgeable about issues of identity, deception, and information gathering. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.
Today a good deal of Third-World literature written texts, in both print and online media, will examine how this literature re-engages while this course offers valuable knowledge to any developing artist, it is particularly suitable for students studying in the visual communications majors; i.e., Graphic Design, Illustration, Biomedical Art, Photography/Video, Digital Arts. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

Contemporary African + African-American Literature LLC 359
Today a good deal of Third-World literature in particular expressed in many vital respects postmodern historical awareness of the paramountcy of the power relations hidden behind political, economic and social institutions and structures both nationally and internationally. With particular emphasis on political economy, this course will examine how this literature re-contextualizes such critical sociological questions as: What’s traditionalism? What’s modernization? The African-American texts highlight African-American socio-economic challenges today, dating back to Emancipation/Reconstruction, alongside their efforts at socio-cultural self-definitions. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

Art of the Personal Essay LLC 373W
In this workshop course we will work on developing an understanding of the personal essay as a distinct yet flexible nonfictional genre, one possessing its own characteristics and contours that distinguish it from other literary forms. You will also work in this course on the craft of writing and revising your own personal essays. To these ends, we will be reading a number of works that demonstrate the essay’s protean adaptability. Texts will be drawn from Phillip Lopate’s anthology The Art of the Personal Essay, as well as from other sources, including selected blogs, nonfictional texts by visual artists, as well as the online compilation Quadratana. (H/CS)(CWC) 3 credits.

Jazz: Contemporary African-American Writers LLC 374X
This course will deal with a very select number of contemporary female and male African-American writers who have won outstanding awards from various national literary awards to The Nobel Prize. The selected authors are Toni Morrison, Patricia Raybon, John Edward Wideman and Edward P. Jones. The central drift of this course will be concerned with today’s multifarious significance of the complex black experience. It will therefore look into how all these writers combine a keen historical sense with a discerning aesthetic sensibility to explore afresh in a postmodernist sense the intriguing black experience with deep intellectual reflections. It will also examine how in relation to their individual subject-matters they all artistically problematize the aesthetic and philosophical questions about the thin line between fact and fiction, historical veracity and imaginative truth, and art and artifice. Our class selection will consist of four books published between 1984 and 2003. A number of videos will be shown for visual elucidation of the books’ underlying concerns. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

Children’s Literature LLC 390X
Many adults feel they are familiar with the classic children’s books covered in this course, but actually know only sanitized versions, most produced for the movie screen. This class will examine the original texts of several well-known titles as literature and the fascinating and sometimes disturbing stories behind them. Critical reading, thought, research and writing on these texts will be among the key skills covered. Students will read extensively and discuss what they have read in class, create and deliver peer-evaluated presentations, and write a semester research paper related to the topics of the course. They will view several related films during the semester as well. 3 credits.
**Creative Writing Workshop: Dialogue + Story**  
LLC 391  
In this course, we concentrate first on writing dialogues, looking at the ways in which conversation establishes character, creates and resolves conflict, and advances plot. We’ll see how these dialogues “play” first when we stage them, and then we put them back on the page and wrap stories around them. In-class, team-writing exercises are designed to jump start your ideas and provide our working material. We’ll also take a look at excerpts from narratives by master storytellers, experiment with re-telling the story just through dialogue, and see how these artistic choices inevitably shape the content itself.  
3 credits.

**Fiction Writing**  
LLC 392  
Fiction is the sustained application of the literary artist’s imagination to the observation of life, and writing it well requires a vision of what’s true in the story before it ever reaches the page. Fiction Writing provides the student with the opportunity to write short fiction, discuss technique, study master storytellers, and critique one another’s work. Some weekly topics in writing technique take up the issues of narrative structure, clear meaning, turning story into plot, scene content and scene break, dialogue, conflict and tension, the power of point of view, the revelation of character, and rewriting. Over the course of the term, students work on three pieces of fiction. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

**Intro to African + African-American Literature**  
LLC 411  
This course will focus on traditional Africa up to the threshold of the European colonization of the continent. The African texts as a whole offer a brief introduction to traditional African thoughts and ways of life and also to the growing incursion of colonialism. The course highlights the paramountcy of kinship care, communal life, and individual fulfillment in harmony with society. It also stresses a social thinking underlain by a collective unconscious of the inseparableness of the living and the dead, the physical and the metaphysical. The African-American texts taken all together highlight, notably from Harlem Renaissance, significant stages of the African-American cultural-literary expressions of their socio-historical experience and an attendant sense of religion manifested particularly through the Black Church. The subtext of this course is to see if traditional life, an example of which is traditional Africa, still has any value for the technological world of today. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

**Creative Writing**  
LLC 393  
This course will give students the opportunity to explore the three essential genres of creative writing in a practicum setting. Study and practice will center on basic analytic methods for reading and basic inventive methods for writing short fiction, poetry, and dramatic narratives. Course assignments will include exercises in writing the short story, including the short graphic narrative; various poetic forms such as the sonnet, the villanelle, and the free verse poem; and variants of the short dramatic narrative such as the screen treatment, the story board, and the short film script. Creative Writing can be taken to satisfy either required Junior/Senior Writing-Intensive credit or Open Elective Liberal Arts credit. It will allow students who are planning visual arts careers involving writing (i.e., illustration, film, and video) to develop the basic critical and writing performance skills necessary for their professional advancement. Students who may be considering the Creative Writing Concentration program are strongly urged to take this course during their Sophomore year. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

**Writing Concentration: Body of Work Continuation**  
LLC 415C  
Required of seniors pursuing the Creative Writing Concentration. Not open as an elective. Fall and spring semesters required. 1.5 credits each semester.

**Graphic Narratives**  
LLC 419  
Are you fascinated by the graphic novel (or nonfiction)? In this class, we will investigate a variety of ways that texts and images (specifically illustrations and photographs) interact to tell stories: how the visual and the verbal engage and catalyze each other, how they can reflect and inflect, reinforce, strengthen and gesture to each other in compelling, powerful and meaningful ways. To this end, the class will examine and practice different methods used in telling both personal and fictional stories. The course will also involve working at understanding different ways that graphic narratives have been, and may be, theorized. Assignments will include critical responses to our readings and a creative project involving an integration of writing and visual media. Primary readings are likely to include, but are not limited to, work by: Art Spiegelman, Marjane Satrapi, Alan Moore, Craig Thompson, and others. Films we watch may include Spirited Away, The Dangerous Lives of Altar Boys, and Rashomon. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course or Visual Culture Emphasis course. 3 credits.
Women's Words
LLC 424
This course is designed to outline the contributions of women to the origins and development of the novel genre in English and American literature from 1688 to the present time. It will focus on discovery of the relationships between the earliest women's literary production and the literature written by the women of this moment. It will inquire into the areas of race and social class as they are directly relevant to (or feature as tropes within) the literature comprising our reading list. It also introduces some of the basic theoretical questions that feminist scholarship has raised in connection with women's writing during these periods. Through selected readings, research, and critical discussion, members of this class will become familiar with modern women's literature, its social/historical contexts, and some of the feminist critical approaches through which it has been considered. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

Culture, Conflict, + Syncretism in African + African-American Literature
LLC 441
This course is primarily concerned with the dialectic of multiculturality and multidimensionality. Africans under colonialism, like most of the Third World at one time or the other, were confronted with the overwhelming encroachment of European/Western/Christian ways of life and thought alien to them. Yet Africa still struggles up till today to preserve its integrity, its intrinsic identity, notably in the form of neotraditionalism. This vortex of cultural interplay in Africa has led to socio-cultural phenomenon described as deracination or “the crisis in the soul” (Achebe) or “triple heritage/cultural accommodation” (Ali Mazrui). In postmodernist terms, it has led to syncretism. The course will also explore analogies from the multidimensional art, mainly from the interchange between visual and literary arts. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

Narrative Art + Mythic Patterns in African + African-American Literature
LLC 471
This course will focus on the various artistic ways African and African-American imaginative writers create a narrative interlock of mythic and contemporary materials to formulate in postcolonial and postmodernist terms an essentialist condition of their people's experience, while a number of them explore the interface of classical and African myths for an informed global vision. Their works are largely structured with images and symbols endowed with dynamic moral and spiritual significance. They problematize the African thinking underlain by the inseparableness of the natural world and the supernatural realm, the human and the divine, the animate and the inanimate, just as this inseparableness also aesthetically underlies the relationship between the naturalistic and the abstract in both African visual art and Harlem Renaissance. There is in postcolonial African literature, and in many ‘Third World’ countries, a new narrative art-form which can be called ‘animist realism.’ It is critically regarded as contesting the dominant protocol of conventional (Western) realist narrative which is predicated on knowability and linearity. We will also look at how the interface between oral art (free text) and written art (fixed text) mediates between fiction and history in this new form of narrative realism. And there will be an ample number of videos for visual elucidation. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

Chinese Poetry
LLC 477
The purpose of this course is two-fold: first, to determine, through intensive readings in translation from the work of representative poets, what characterizes Chinese poetic achievement and, second, to articulate our own informed response to these poems. Primary emphasis will be placed on the lyric mode as it develops from its origins in the Book of Songs (compiled c. 600BCE) through its golden age in the T'ang and Sung dynasties. Continuing attention will be paid to the tension between public and private commitment expressed by poets who choose between, attempt to resolve, or transcend these commitments. Topics for special consideration include the classical Chinese language as a vehicle for poetic expression and Chinese calligraphy as an exercise in dynamic proportions, the technical requirements of two major lyric forms, nature as a source of both inspiration and poetic metaphor, and the didactic and individualist traditions of Chinese literary criticism. Fulfills Humanities/Cultural Studies distribution requirement. Creative Writing Concentration course. 3 credits.

Liberal Arts classes can be found in the Course listing section of this catalog under:
ACD: Art/Craft/Design History+Theory
HCS: Humanities/Cultural Studies
LLC: Literature, Language + Composition
SNS: Science + Natural Studies
Painting

The Tactile + The Digital: Painting in the New Century
PTG 21X-31X-41X
The focus of this course is the role of Painting in the digital age. Students will use varied media and subjects, traditional and non-traditional, to further develop analytical and expressive means in their painting and creative practices. Students are encouraged to draw from personal interests and from many disciplines to develop projects that will be presented to the class for group critiques. Through slide presentations, gallery visits museum shows, and readings, information will be presented relating to the current art scene in order to further the student's personal vision, help clarify directions, and explore a variety of formal, conceptual, and technical approaches to painting and image-making. Projects will address, among others, ideas and forms of light and space, color relationships, means and meanings of representation, text and texture, and gender, social and political issues. This course is open to all students with the prerequisite of Intro to Painting or with the permission of the instructor. 3 credits.

Painted Bodies: The Contemporary Figure
PTG 220-320-420
This course deals with the position of the figure within contemporary painting. Figurative painting represents the continuation of a tradition that extends back before history and is yet poised to reach into any foreseeable future. Class discussions will be based on readings that deal with critical and historical issues surrounding the figure in painting and on the work of contemporary artists dealing with the figure from a painting perspective. By the end of the semester students will be expected to develop a cohesive body of work dealing with the figure as its subject. The student will also be required to articulate a statement that situates their work within a contemporary practice of figurative painting. This course is open to all students with the prerequisite of Intro to Painting or with the permission of the instructor. 3 credits.

Intro to Painting: Painting History
PTG 221
This is a beginning painting course. It is a prerequisite for painting electives and all advanced painting courses. This course introduces students to painting through historic painting practices and conventions using oil-based paint as the primary material. Students are asked to approach painting pre-photographically (as if the year were 1828). Students are introduced to the fundamentals of a traditional painting practice with an emphasis on observational rendering and applied color theory beginning with Newton. Students will learn about color mixing, brush types, support construction and general canvas preparation. Students will paint from life learning how to capture the three-dimensional world on a two-dimensional surface as well as how to use material working through shape, form, texture, and mark to create an illusion of space and mass. Through critiques, discussions, readings, slide presentations, and museum visits, students will develop vocabulary and critical thinking skills essential to their studio practice as well as a sense of the history of painting leading to contemporary practices. Offered fall. 3 credits.

Popular Culture + Imagery: A Painting Course
PTG 227-327-427
This course will explore the symbiotic relationship of art and culture, and the particular ways in which popular material culture influence the visual arts and vice versa NOW (if there are indeed any particular ways that stand out in this particular time as opposed to a different time in history). Students will learn to discern both the overt and covert affects/effects of culture on contemporary artists as well as on their own work and that of their peers. Students in order to take part in relevant class room conversation/discussion need a working knowledge of current events/history/popular culture and will need to be ready to read and do research, etc. Open to all Students. 3 credits.

Painting: Framing the Subject + Construction of Meaning
PTG 229-329-429
This course focuses on the further development of the subject of the student’s work. Emphasis is on strategies of meaning construction from the perspective of the artist’s intention. Students will develop and discuss intention embodied in a work through critiques and discourse and will explore the relation of means to meaning. Students are expected to engage in critical discourse surrounding the work of fellow students, established artists and in relation to their own work. The goal is to develop an understanding of the criteria, standards and values promoted by the artist and how these come to be understood by the audience. In addition students will be expected to demonstrate a personal commitment to a student practice and the willingness and ability to make work. Required for all 4th year Painting majors and open as an elective to any senior from regardless of major or with the permission of the instructor or Painting Head. 3 credits.
Painting Beyond Observation
PTG 232-332-432
Continued emphasis on material, color, and skill-building. Students will work primarily with acrylic paint. This class moves beyond observational rendering and focuses on other approaches to developing content for work.
Class topics focus on contemporary issues in Painting including: “What makes a Contemporary Painter? What is Painting? What is a studio practice? What does it mean to be a professional?” Some of the topics to be considered: abstraction, representation, perception, mimicry, conceptual, subject, reality, expressive, authorship, and interpretation.
A few of the artists that will be looked at: Kandinsky, Duchamp, Arshile Gorky, Jackson Pollock, Ad Reinhardt, Gerhard Richter, Jack Whitten, Peter Saul, Agnes Martin, Pippili Rist, Lisa Hoke, Jessica Stockholder, Jenny Saville, et. al. This course is open to all non-Painting major students as an elective with the prerequisite of Intro to Painting or with the permission of the faculty.
It is required of all Painting Major Sophomores. 3 credits.

Painting After the Photograph: Painting in the Age of Mechanical Reproduction
PTG 233-333-433
Painters going back as far as the Renaissance have been using devices such as the camera obscura to produce a two-dimensional verisimilitude. With the invention of photography in 1839, artists were liberated from the demands of reproducing naturalistic appearances. This course will explore the relationship between the photographic and painting; the effect that the birth of photography has had on the history and current state of painting. A primary question to be considered will be: What are the strategies of Painting in the Age of Mechanical Reproduction? How has photography and mechanical reproduction influenced painting functions? We will look at artists as varied as Delacroix, Courbet, Warhol, Rosenquist, Tyumen’s, and Richter among others. Readings will include Walter Benjamin’s “Art in the Age of Mechanical Reproduction.” 3 credits.

Painting: The Medium Is the Message
PTG 234-334-434
Careful selection and control of the medium enables us to express ideas clearly. In this class students will explore and consider how various materials, methods, and processes operate, function, and ultimately how they impact meaning. Class demonstrations and lectures will introduce students to basic traditional and nontraditional painting materials and processes including safe handling and use. The class will function as a lab where through the process of trial and error, students will conduct ‘tests’, keep notes, and ultimately catalogue their findings in an archive. Students are expected to explore these ‘findings’ in their own studio practice, as they further develop the practical and conceptual skills necessary for their work. This course is open to all students with the prerequisite of Intro to Painting or with the permission of the instructor. 3 credits.

Painting: Constructing Narratives
PTG 235-335-435
Every painting implies a narrative, whether it is a story being told through the images or the story of how the painting itself was made. This class is focused on what constitutes a narrative and the creation of content and strategies in painting. Students will consider implied, explicit, rhizomatic and linear narratives. Through studio practice, lecture and discussion students will engage in producing visual and conceptual narratives within their work. Through investing narrative students will move beyond the fundamentals of Painting and focus on the development of a personal practice as framed by contemporary standards. Students will be expected to do research and generate a project reflecting their personal interests. By the end of the semester students will have identified a subject and created a group of works focused on this subject. Further students will be asked to work toward an artist statement to accompany their work. This course is open to all non-Painting major students as an elective with the prerequisite of Intro to Painting or with the permission of the faculty. Required for Junior Painting Majors. 3 credits.

Painting: Mechanics of Meaning: Subject, Form + Content
PTG 236-336-436
The goal of this course is to develop an understanding of the criteria, standards, and values promoted by artists and how these come to be understood by their audience through exploring the relationships that exist between subject, form and content. Through discussion, assignments and studio critiques the class will attempt to make explicit the role that our assumptions about the component parts of an art work plays in the construction of a work and how it is understood by its audience. 3 credits.

Painting Lab: Explorations in Representation + Figuration
PTG 23X-33X-43X
This course identifies the components of traditional figurative painting such as space, composition, point of view, color, and scale. Using this as a platform each of these will serve as the subject of a sustained investigation. This approach will function to establish an understanding of these elements in a conventional context as well as the object of experimentation. This course will be useful to students in all areas who are interested in working figuratively in two-dimensions.
This course is open to all students with the prerequisite of Intro to Painting or with the permission of the instructor. 3 credits.

Water+: An Exploration of Water-Based Media
PTG 240-340-440
This course explores the different materials and processes used in various water-based media such as acrylic, gouache, watercolor, ink, and other natural substances that can be used to make colors/washes. Various historical models will be examined such as Chinese scroll painting and watercolor from the Song dynasty to Renaissance architecture and figure studies to post-impressionist use of color and mark which will put contemporary use of water-based media into focus. The work of artists as varied as William Blake, Vincent Van Gogh, Charles Burchfield, and Paul Klee to more recent artists such as Francesco Clemente,
Painting: Color, Scale, Mark, + Form
PTG 241-341-441
“Figurative”, “abstract”, “conceptual”, “non-objective”, “romantic landscape”, “post-modern”, “Bob Ross-ian”, paintings all have an underlying structure. This studio course examines how the specificity of color, scale, mark and shape form and affect a painting’s content. Students will be encouraged to focus on their own body of work while exploring issues of content within the themes of the class through the investigation of their own studio practice, as well as looking at and analyzing the work of other painters and artists throughout history. This course will be of particular interest to students in painting, drawing, + printmaking. This course is open to all students with the prerequisite of Intro to Painting or with the permission of the instructor. 3 credits.

On Painters + Painting: Aura and Author
PTG 251-251-451
With an emphasis on the practice of Painting, this class examines the role subjectivity plays in contemporary art. The position of the artist and the frame of the canvas will be traced from the modernist notion of individual expressiveness, to post-modernist practices characterized by the end of the author’s authority and finally to contemporary practices in which the artist’s hand reemerges in dialogue with mechanized and digital processes. Students will be asked to grapple with these complex issues in relationship to what they paint and how they paint. Class discussions will address a variety of critical essays dealing with these topics and the practice of painting as treated by artists and critics. This course is open to all students with the prerequisite of Intro to Painting or with the permission of the instructor. 3 credits.

Painting: Internship
PTG 399-499
Students will submit a written proposal for a semester’s long course of work. This work should have three primary components: a written paper, studio work, and work in the field (e.g.: working for a gallery or artist). A timeline for the completion and review of these components are also required. The proposal must be sponsored by the supervising faculty meaning that the proposal must be vetted and accepted by the faculty who will oversee the project before it is submitted to the department head. This course is open to all Painting majors. 3 credits.

Senior Studio: BFA Research
PTG 421M
Required for all 4th year Painting majors and open as an elective to any senior-level student with a prerequisite of Intro to Painting or permission of the instructor or Painting Chair. This course focuses on developing the student’s individual work as it relates to their subject and their means of making work. Emphasis will be on the strategies for constructing the meaning of the work in terms of materials and the way the work is read by a viewer. Students will read work, develop and discuss intention through critiques and discourse. The goal is to develop an understanding of the criteria, standards and values promoted by the artist and how these come to be understood by their audience by exploring the relationship between subject, form, material and process as they relate to content. Offered fall. 3 credits.

Painting Seminar: Contemporary Issues in Painting
PTG 422M
In preparation for the student’s final BFA defense and for working beyond an undergraduate level, this course focuses in an advanced manner on the seminal issues covered over the course of the student’s visual arts education. Questions of style, aesthetics, concept, meaning, and context are addressed. Particular emphasis is given to issues concerned with presentation, “framing,” audience and reception. Students are expected to engage in critical discourse surrounding the work of fellow students, established artists and their own work. By the end of the term students are expected to clearly identify the subject of their work, defend their choices in relation to this subject as well as discuss reasonable expectations of audience reception. Course readings will be given in relation to these topics as well as the maintenance of a professional studio practice. Required for all 4th year Painting majors and open as an elective to any senior or with the permission of the instructor or Painting Head. Offered spring. 3 credits.

Painting: Image + Narrative
PTG 430
This course examines the nature of Painting as it relates to other visual arts media. The source of the “image” and the narrative it suggests will be closely examined. Students will be asked to examine the way an artist goes about making work influences our understanding or read of that work. Alternative painting practices will be examined as well as the approaches of many non-painters. Such artists include: Sol Lewitt, Marcel Duchamp, Survival Research Laboratories, Vito Acconci, Fischli + Weiss, Chuck Close, Alfred Jensen, Jackson Pollock, and Mel Bochner just to name a few. Reading relevant texts, looking at work, research/special projects, studio work, group and individual critiques are an integral part of this course. Open to all students above the freshman level. 3 credits.
Photography

Digital Photo Imaging I for Non-Majors
PHV 201-301-401
This course is an introduction to the technical and aesthetic fundamentals of digital photographic imaging for creative application. Students use the computer to modify, manipulate, or to enhance photographic images. Emphasis is placed on consideration of the hardware and software tools required for successfully capturing, manipulating, and exporting images, as well as an understanding of the technical issues involved in each step of the production process. Students gain proficiency in the use of Adobe Photoshop CC, Adobe Bridge, Camera Raw and Lightroom 5 and are made aware of creative options this software facilitates. Open Studio elective. Prerequisites: PHV 201 Digital Color, FND104 Digital Synthesis, or instructor signature. 3 credits.

Photo Major 2.2 Digital Photo Imaging I
PHV 201M
This is an advanced studio course directed for the photography major that provides the technical and aesthetic fundamentals of digital photographic imaging for creative application. Students gain experience and skill working through each step of the production process, from image capture to computer modification, manipulations, and enhancement of images. This course fosters an engagement in a comprehensive digital workflow focused toward the production and presentation of professional quality work for portfolio and exhibition. Students gain proficiency in the use of Adobe Photoshop CC, Adobe Bridge, Camera Raw and Lightroom 5 to make use of the creative options this software facilitates. Required for sophomore Photography majors. Offered spring. 3 credits.

Contemporary Color Photography: Theory + Practice
PHV 225-325-425
This course is designed to investigate the contemporary applications of color in photography while developing a working knowledge of color theory in relationship to photographic practice. The course includes a wide range of color-based techniques and an exploration of subtractive and additive color as they pertain to digital and chemical photographic processes. The interaction between light, pigmentation, and photographic materials will also be covered and realized in production of an in-depth color technical notebook. Required for photography majors in the photo track. Open Elective. 3 credits.

Installation + Constructed Objects
PHV 226-326-426
This course is a special topic course designed to cover the design, construction and lighting of installations, stage sets, and performance spaces. Students will investigate contemporary applications and approaches to subjects specifically composed for the camera and document installations that exist outside of the studio environment, with an emphasis on the genre’s relationship to historical and contemporary theatre. Workshops include cameras, studio lighting, basic electricity and carpentry, with an emphasis on scenery design. Students will plan and create small-scale models of stage designs; scale up these designs, and document their design. This course is designed for the photography major and any students working in installation or industrial design but is open to all majors. This course is cross-listed with Visual Arts. Open Studio Elective. Prerequisite: PHV 201 Digital Color, FND104 Digital Synthesis, or instructor signature. 3 credits.

The Contemporary Portrait
PHV 228-328-428
This course is an exploration of contemporary approaches to portraiture and its relation to the historical photographic portrait. Analysis of both simple and complex photographic identities and real and invented realities are investigated. Photographic assignments, readings and discussions lead to a better understanding of the student’s individual approach to the portrait and their unique relationship with the subject. Practical applications of Photographic portraiture will also be discussed. Open Studio elective. 3 credits. Prerequisites: PHV 295 Photo I: Mechanics of Digital + Film Photography; PHV 292 Fundamentals of Studio lighting, or instructor’s signature.

Publication Photography
PHV 229-329-429
This course introduces students to careers as photographers in the advertising and editorial fields. Students will learn approaches for meeting the expectations of art directors and photo editors while providing creative input of their own. Emphasis is placed on networking, negotiating, understanding and producing contracts and invoices, as well as building a professional portfolio and developing professional marketing strategies. Field trips will be taken to professional photography studios and businesses. Assignments are designed to simulate practical work experiences. Open elective. Prerequisites: PHV 295 Photo I: Mechanics of Digital + Film Photography; PHV 292 Fundamentals of Studio Lighting, or Instructor signature. 3 credits.
**Acting + Directing**  
PHV 231-331-431  
Acting + Directing is an intense production course designed for aspiring art directors, screenwriters, and actors who wish to pursue a career in film and/or animation. The course requires both performance and cinematic practice. Directors will create and produce short scenes taking on the full responsibility of creating clear communication using the audio/visual language of cinema and focusing on the development and execution of performance on screen. Beyond just holding the responsibility of successful execution of a project, directors will also switch roles with the actor, working from the other side of the lens to better understand the acting process and what kind of specific direction an actor needs to perform according to another director’s vision. Open elective. 3 credits.

**Introduction to Photojournalism**  
PHV 235-335-435  
This course investigates photojournalism’s history and significance in contemporary culture. Concepts covered include vocabulary and components of visual expression, avenues for dissemination, and issues of communication through publication. Investigation techniques and editorial practices are explored. An introduction to photojournalistic techniques and tools, is included in the course work. Prerequisites: PHV 295 Photo I: Mechanics of Digital + Film Photography or instructor signature. Open Studio Elective. 3 credits.

**Experimental Film + Video Art**  
PHV 240-340-440  
This is an advanced video course, investigating the scope of symbolic and improvisatory cinematic storytelling. Students will explore unconventional methods of video acquisition, manipulation, processing, editing and display. Students will be able to delve into media hybrids, and rather than established narrative forms, underscoring metaphorical poetic styles that inform the structure of the work. Emphasis is on the development of acute observational skills and innovative visualization techniques and encourages divergent thinking and cognitive flexibility. This course is for students who have a sustained interest in using video and digital cinema’s technologies as part of their art-making. Required of Photo Majors in the Video track. Open Elective. Prerequisites: PHV267 Video/Digital Cinema I or signature of instructor. 3 credits.

**Documentary Video**  
PHV 241-341-441  
This is an advanced elective video course: This course is designed to improve observational, analytical, organizational, creative and production skills. Students will explore the ways in which digital technology can transform contemporary visual culture, and fracture the predictable. Students will be encouraged to experiment with new presentation methods, and develop innovative techniques for combining sight and sound, light and word. Required of Photo Majors in the Video track. Open Elective. Prerequisites: PHV 297 Video/Digital Cinema I or permission of the faculty. 3 credits.

**Cinematography: 16mm Filmmaking**  
PHV 261-361-461  
This course is an introduction to the craft of filmmaking and appreciation of film as a pioneering medium of communication, entertainment, and art. The course introduces technical and aesthetic fundamentals of 16mm filmmaking where students work on individual and group projects. Students learn the camera, support systems, lighting techniques, metering systems and sound recording. Students are introduced to equipment used for production and post-production. Coursework includes visualization, pre-production planning, operation of equipment, and group collaboration. Students are exposed to the major movements in film history and important aesthetic approaches to film art. Students execute several exercises in 16mm film. They are responsible to purchase and process a minimum of three 100ft rolls (approximately 3.5 minutes each) of 16mm film stock. Open Studio Elective. Prerequisite: PHV 295 Photo I: Mechanics of Digital + Film Photography or instructor’s signature. 3 credits.

**Photo Major 2.1: Narrative Structures**  
PHV 267  
Narrative Structures is an intensive study in visual thinking for the photography major designed to utilize the creative potentials for both single and multiple image narrative. In this course, students investigate visual narrative constructs for linear and nonlinear storytelling with both digital and film-based media. The course encourages interdisciplinary experimentation to examine methods of production for traditional, digital and diverse media to communicate both idea and process. Required for sophomore Photography majors. Offered fall. 3 credits.

**The Fine Art of Silver Print**  
PHV 270-370-470  
This is an advanced level black and white silver printing class. We will investigate advanced film exposure and archival printing techniques, fine art printing papers, developer combinations and toning procedures to produce full tonal range darkroom prints. Medium and large format cameras will be demonstrated and utilized. Projects for this class include an in-depth self-assignment finalized in a portfolio of archival Silver prints. We will also view master fine art prints at local galleries, museums and collections. Required for sophomore photography majors. Open Elective. Prerequisites: PHV 295 Photo I: The Mechanics of Digital + Film Photography or instructor signature. Offered spring. 3 credits.

**Alternative Photographic Processes**  
PHV 291-391-491  
This course investigates the historical processes, contemporary practices, and concepts of alternative photography. This includes non-silver techniques, hand-applied emulsions, chemical, digital and hybrid processes for photographic imaging. Processes demonstrated may include Cyanotype, Van Dyke Brown, Wet Plate Collodion, Platinum-Palladium, Liquid Emulsion and silver and non-silver toning options. Large format negatives for non-silver processes are generated using conventional film cameras, paper and digital negatives as well as photogram and pinhole photography. This course is project-based,
includes research and experimentation, and is conducted through hands-on demos and instructional workshops. Open Studio Elective. Recommended for Photography majors. Prerequisites: PHV 295 Photo I: Mechanics of Digital + Film Photography; PHV301/PHV221 Digital Photo Imaging I, or instructor signature. 3 credits.

Fundamentals of Studio Lighting
PHV 292-392-492
This course will cover fundamentals of Studio Lighting, equipment and techniques for Fine Art and Commercial Photography and Video. Faculty provides a balance of assignments, demonstrations lectures, critiques, visiting artist lectures and workshops. Students are provided access to the Photography + Video Department's Lighting Studio and Digital Print Lab. Materials required are based on processes pertaining to projects. Projects include: Technical and conceptual skills, problem solving for tabletop, product, location, and large-scale studio photography. Required for sophomore photography majors. Open Elective. Prerequisites: PHV 295 Photo I: The Mechanics of Digital + Film Photography or instructor signature. Offered spring. 3 credits.

Editorial Photography
PHV 294-394-494
This course prepares students to work as an editorial photographer. This is a project-based course. Students begin with the project proposal, conduct research and produce editorial photography projects and photo essays while gaining experience working within a professional collaborative environment. Students are exposed to the inner workings of this profession and prepare their portfolio as a means to market and promote this work with emphasis on professional business practices. Editorial Photography equips students with skills required to work confidently in partnership with editors, art directors, designers and writers. Open Studio Elective. Prerequisites: PHV 295 Photo I: The Mechanics of Digital + Film Photography; PHV 292 Fundamentals of Studio Lighting, or instructor's signature. 3 credits.

Photo I: Mechanics of Digital + Film Photography
PHV 295
This class will cover the fundamentals of film and digital 35mm SLR cameras, optics, exposure ratio, black and white film processing and basic silver and digital printing techniques. Lectures address black and white darkroom processes, digital workflow, file archiving, and output for various applications. Introductory lighting tools and documentation of artwork for professional applications is covered. Required for Sophomore Photography majors. Open Studio Elective. Offered fall. 3 credits.

Video/Digital Cinema I: Screen Grammar
PHV 297
This course is designed as an introduction, both to the craft of digital filmmaking and to the appreciation of film as a premiere medium of communication, entertainment, and art. Using the tools of digital cinema, computer graphics, audio and other electronic media, this course focuses on the design elements and thought processes inherent in effective audio/visual communications. Hands-on features work in digital cinematography, lighting, audio production and mixing, and non-linear editing, as well as support activities such as scripting, research, brainstorming and storyboarding. Emphasis is placed on creative thinking and problem solving, with both group and individual projects required. This course is intended to be an introduction to a very broad area, rather than an in-depth concentration in one subject. Required of Photography majors. Open Elective. 3 credits.

Digital Photo Imaging II: Advanced Projects
PHV 321-421
Digital Imaging II is an advanced studio art course in digital image-making concepts and techniques, allowing in-depth exploration of extended computer-based photo, large format and compositing projects. Digital imaging skills are advanced working with Adobe Creative Cloud’s latest advancements to Photoshop, Adobe Bridge, Camera Raw, and Lightroom. Aesthetic issues are balanced with technical aspects of production, promoted through research into both artistic concerns and specific skill sets tailored to individual projects. Class structure combines demonstration and tutorials with hands-on, project-based activities applying acquired techniques, and provides opportunity for in-class discussion, critiques and presentations. Students are expected to demonstrate time management skills, work independently and meet deadlines.

Editorial Elective
PHV 300
This course examines contemporary practices, which have emerged with respect toward photography, and hybrid digital media that transmute photographic theories, concepts, forms, and processes. The course will investigate the ways in which photography continues to affect (visual) culture and the way one perceives and understands. The work of selected photographers will provide a framework for comparing photographic philosophies. Required for Photography majors. Open studio elective with instructor’s signature. Offered spring. 3 credits.

Photo Major 3.2: Visual Thinking in Contemporary Photography
PHV 330
In this course, photographic theories, modes and structures will be examined through the issues of narrative and aesthetics. Students will examine contemporary practices, which have emerged with respect toward photography, and hybrid digital media that transmute photographic theories, concepts, forms, and processes. The course will investigate the ways in which photography continues to affect (visual) culture and the way one perceives and understands. The work of selected photographers will provide a framework for comparing photographic philosophies. Required for Photography majors. Open studio elective with instructor’s signature. Offered spring. 3 credits.
**Course Catalog**  
**Photography**

---

**Photo Archive, Book + Portfolio**  
**PHV 350**  
This course advances the student’s knowledge of professional practice standards for archival media, emphasizing the photographic book and photographic portfolio. Work is project-based, focused on production of portfolios and books that incorporate the photographic image as an essential element. The photographic image is considered in context relevant to its function as primary artwork, documentation, as record of process or used in reference to concepts. Portfolios and photographic books are explored as an individualized expression of one’s professional work. Required for Photography majors in the Photo track. Open elective. Prerequisite: Digital Photo Imaging I or instructor’s signature. Offered spring.  
*3 credits.*

---

**Video/Digital Cinema II: Sculpting in Time**  
**PHV 397-497**  
This advanced studio course expands upon the knowledge of students who have successfully completed the Video/Digital Cinema I and Studio Lighting Fundamentals coursework. A working knowledge of Final Cut Pro or Adobe Premiere is requisite. This class is designed for further exploring the use of digital cinema as a cinematic tool, method of artistic expression and communication. Topics include continuity, discontinuity, montage style editing, color grading, compositing, special effects and composition within the frame. Emphasizing the relationship between image and sound, students examine the concept of sound as a material with basic structural properties that may be manipulated, layered and edited. Students explore methods of composition using various sound materials in assigned projects. Required of photography majors in the video track. Open Elective. Prerequisites: PHV267 Video/Dig Cinema I or signature of the faculty.  
*3 credits.*

---

**Photography: Internship**  
**PHV 399-499**  
Elective credit can be given on a case-by-case basis for student internships developed through the career services office, with advance permission of instructor and department Chair.

---

**Photo Major 4.1: BFA Thesis + Research**  
**PHV 495M**  
This course will provide a framework for developing a conceptual photographic philosophy and written BFA Thesis. Students develop a thesis proposal and written Thesis in conjunction with work they will present in their BFA exhibition and final portfolio. Students hone critical and theoretical skills in photography by examining historical and contemporary practices that have emerged with respect toward concepts and processes. Students investigate these ideas through critical readings, discussions, writing, and field trips. Portfolio, exhibition, professional presentation, and writing skills are fine-tuned in this semester of study. The course format maximizes the potential for dynamic group interaction and facilitates essential one-on-one exchange with faculty and individual students. Senior Photo majors are presented with many opportunities to present work to gain the confidence and skills necessary to communicate to a broad range of audiences. Projects include a Thesis exhibition proposal, written Thesis, and calendar dates for all phases of work to be completed. Individual projects working towards their BFA exhibition are contracted with each student. Required of Senior Photography majors. Offered fall.  
*3 credits.*
Printmaking

Intro Printmaking: Image Construct I: Line + Sequence PRI 200
Printmaking grows out of an experimental approach to image construction closely aligned to both the kinetic practice of drawing and the mechanical possibilities inherent in the crafting of a matrix for reproduction. Students participating in this course will interrogate what defines a “print,” using line and sequence as the visual language allowing introspection and clarification of ideological concepts. Course exploration includes intaglio and relief processes, an introduction to the history of the field, printing of a matrix supporting discoveries of the limited edition and narrative aspects of multiple impressions. The body of work students produce in this course will be informed by the history of printmaking, the critical dialogue surrounding contemporary art and print media in particular, and should reveal students’ development of skill and sensitivity to the printed impression quality visually articulating the individual’s aesthetic voice. Open to all students as an introductory level course. Encouraged for Second and Third year students with a drawing emphasis as an Elective Studio. Required for Second Year Print Majors. Offered spring. 3 credits.

Collaboration through a Printed Experience PRI 210-310-410
Collaboration is defined by the interaction of two or more people. This studio course supports the student in the development of a body of work while offering an opportunity to experience collaboration by bringing together idea generation, image making and production. Through a series of projects students will use a variety of traditional and experimental processes to define the parameters of collaboration. Moving beyond the opening platform, students will redefine collaboration as they develop projects informed by course objectives through the inclusion of their personal aspirations. (Collaboration could suggest projects between students, artist and author, student and faculty, student and individual in the community, etc.) Note: This course is open to all, and fulfills an introductory, intermediate and advanced level elective course. 3 credits.

Intro Printmaking: Image Construction II: Color + Form PRI 201
Drawing is what connects all of the art and design fields together; it is oldest of all arts. Using printmaking to expand drawing practices will be the challenge of this course. From mark making to multiple layered prints, this course will challenge image building to address form and color generating multiple and unique impressions. This lithography and experimental studio enables the student to develop a body of work while meeting the technical and conceptual challenges of the lithographic process. Students build matrices through drawing, painting, stencils, toner transfers and digital files, on stone, aluminum plates and polyester pates. This allows the student to work with a variety of process that can be intertwined to create multiply possibilities. Open to all students as an introductory level course. Encouraged for Second and Third year students with a drawing emphasis as an Elective Studio. Required for Second Year Print Majors. Offered spring. 3 credits.

Artist’s Book Narrative + Form PRI 232-332-432
This studio course is for students interested in producing sequentially developed imagery via linear book structures. Historical examples and contemporary developments regarding the evolution of the artist book are examined through texts, through the use of our library’s artist book collection, in discussion, and during critiques. Due to technological advancements over the last century artists now have a variety of media with which to explore output of book projects. The class will expose students to the nature and potential of different book structures as well as a variety of materials. The course will heighten the student’s ability to utilize the interaction of sequenced content -- the act of turning pages-- to express the continuity of an idea flowing through a continuum. Students realize the potential of narrative, sequence, and pacing, together with the importance of combining word and image. Open Elective. One semester required for Print majors for graduation. 3 credits.

Propaganda: Media, Dissemination, Technique PRI 240-340-440
From punk bands to political rallies, different techniques have been used to create attention- grabbing graphics. Through a variety of projects in this course, students will explore a range of techniques including approaches to screen-printing from simple stencil making methods; direct drawing on the screens; to a variety of ways to use photo emulsion, including the integration of digital imaging software. The emphasis of this class is the development of rich personal imagery and the relationship of form working with content to effectively communicate ideas. This course is for students from all levels and majors. Notes: Open Elective. Encouraged for Third/Fourth year students as an Elective Studio. Required for Fourth Year Print Majors. 3 credits.
Expanded Print: New Imaging
PRI 276-276-476
This intermediate/advanced studio course offers an exploration in printmaking, considering the digital matrix for computer aided and hand pulled prints through processes redefined in the digital age, scrutinizing decisions for information in and information out, and the relationship to those decisions. Students will be challenged to work in the territory of digital media in relationship to and combination with traditional print medium. Students have the opportunity to create files for output which are hand drawn, digitally generated, of a photographic nature, or a combination of all three. Topics include; transfer methods, digital production of plates, color management for a wide-format digital printer, photolithography and exploration of media choices to project ideas. Technical and critical discussion in this course will be informed by the presentation of processes that have been developed over the past few decades, and how these developments relate and affect print culture today. Open Elective. Encouraged for third and fourth year students with a painting and drawing emphasis as an Elective Studio. Required for Third Year Print Majors. 3 credits.

Collaboration Through a Printed Experience
PRI 310-410
Collaboration is defined by the interaction of two or more people. This studio course supports the student in the development of a body of work while offering an opportunity to experience collaboration by bringing together idea generation, image making and production. Through a series of projects students will use a variety of traditional and experimental processes to define the parameters of collaboration. Moving beyond the opening platform, students will redefine collaboration as they develop projects informed by course objectives through the inclusion of their personal aspirations. (Collaboration could suggest projects between students, artist and author, student and faculty, student and individual in the community, etc.) Note: This course is open to all, and fulfills an introductory, intermediate and advanced level elective course. 3 credits.

The Liberated Print:
Investigation of Alternative Methods
PRI 277-377-477
This course creates a context for students to negotiate the challenging and complex issues embedded in the making of contemporary printed images. Projects and techniques complement and extend methods of traditional processes, allowing students room to invent, arrange, analyze and create connections through more immediate printmaking methods to their major fields of study. This class will concentrate on the intuitive, spontaneous and fluid approaches in printmaking such as; monoprint, collagraph, transfer drawing, Xerox litho, and wood intaglio, instigating the dialog between the limited edition vs. singular print, and the original vs. a copy. We will consider formats that bridge other disciplines working with color, installation and three-dimensional/sculptural constructions with considerations to work on paper. The course will offer experiences that provide the tools to understand print media within a contemporary framework. Open elective. Encouraged for third and fourth year students with a painting and drawing emphasis as an Elective Studio. Required for Third Year Print Majors. 3 credits.

Printmaking: Advanced Topics
PRI 350-450
This is an advanced studio supporting the student in the refinement of their visual voice and skill level as realized in the production of prints and supporting studio work. Faculty and students develop the outline of course work for the semester through individual and group critiques encouraging the cultivation of their visual erudition and assisting in the student’s development. Possible combinations of the various techniques for single or multiple impressions are addressed. The student develops the ability to discern qualities unique to the field through material presented in lectures and hands-on demonstrations of technical processes and procedures. As the student engages in the production of a body of work, they become informed of the particular characteristics and advantages of print as a medium and develop the ability to critically respond to aesthetics and concepts both within and beyond the field. Offered fall. 3 credits.

Printmaking: Internship
PRI 399-499
Elective credit can be given on a case-by-case basis for an internship developed by the student through the Career Services Office with advance permission of the department head.
Sculpture + Expanded Media

Moving Images in Space: Media Installation
SEM 206-306-406
This class serves as an introduction to and exploration of media installation including the use of video, sound, light, and electronic media when combined with space and various media. Lectures will cover concepts and presentations of artists working in various capacities with installation and electronic media. Course work will be hands-on practice of techniques and concepts presented in lecture, discussion of readings, and critique of student projects. This class will involve doing media/electronic media assignments centered around the idea of the 'media as a message' and 'interactivity'. Students will work with different material and media and use video, sound and light to prepare installations. We will use FinalCut Pro, GarageBand, Flash, and other tools to support elements in installations that use images, text and sound. **3 credits.**

On the Body
SEM 221-321-421
Experimental fashion, object-generated performance and costume. This course will teach pattern making and a variety of fabrication processes relevant to building three-dimensional forms from pliant and mutable materials, including but not restricted to cloth. It will also include casting methods that are useful for designing patterns to cover a body or act as the skin of an object. The techniques have a wide range of applications. In the past students have applied these skills to experimental fashion, sculpture, social sculpture and performance. In addition class material will address our social and cultural understanding of the body as a source for making work. We will draw on theory and contemporary research from the fields of fashion, the hard sciences and the social sciences. **3 credits.**

Installation: Light + Sound
SEM 230A-330A-430A
Sculptural installation is a condition of space that is neither object bound nor object-centric in its existence but rather presents a condition that is often identified as immersive and intentionally organized to produce a spatially dependent experience beyond that of the “Everyday”. This course will investigate various applications and approaches to subject of installation with an emphasis on contemporary practices using light and sound as a means of constructing space and form. Primary to this course are the understandings of light (lighting) as both a material and structural element with regard to organization and presentation and the combined relationship of sound as an immersive component in the production of installation-based works. **3 credits.**

Intro Sculpture+Expanded Media
SEM 231
This course provides an introduction to Sculpture and Expanded Media by examining the methodologies, materials, history, traditions, and cultural context of sculpture and expanded media in contemporary art. The class will include wood construction and textile-based fabrication processes, moldmaking and casting relevant to a range of materials, basic metalworking techniques such as cutting and welding, and will introduce the student to the use of time-based media present in contemporary sculpture. Required for sophomore Sculpture + Expanded Media majors. Open to all students as an elective. Offered fall. **3 credits.**

Intro Sculpture Fabrication
SEM 232
The goal of this course is to expose students to the qualitative nature of materiality at a fundamental level and to provide them with a formative understanding of the various aesthetic qualities that materials possess. In other words this course introduces how materials influence the meaning of a work of art. This course addresses how the qualities of material act as determine aesthetic organization and conditions of conveyance within a work. The course focuses on both the physicality of material condition(s) of state-change, intensive material exploration and experimentation as a function of structure, and its affect on aesthetic production. Required at the sophomore level for all Sculpture majors and open to all other students. Offered fall. **3 credits.**

Time-Based Strategies
SEM 236
This course will provide students with an opportunity to investigate the concepts and practices of various time-based media arts. A basic introduction to the processes of video art, sound art, and media installation will serve as the basis for the production of several projects. Assignments will be grounded in the development of media literacy, media ethics, dissemination techniques, and teamwork. Offered fall. **3 credits.**

Installation: Empire of the Senses
SEM 250-350-450
Working with materials and methods not traditionally associated with the visual arts, installation breaks away from the singular object, the pedestal, the detached viewer. Visual lectures and presentations on recent work will include discussion on the nature of the work and its context. Studio work and additional presentations will focus on perception—how we understand the world through touch, sight, smell/taste, the sense of hearing and kinesthetic cues from muscles of the body. The information presented, student research and studio research will provide an environment of concepts and ideas to support and challenge each student’s work. Students will develop installations in line with their interests. **3 credits.**

Performance Art
SEM 255-355-455
Performance art is and has been an open genre, a place to experiment with ideas, materials and time. For this course, the working definition of “performance art” is – a piece which uses a live body, exists in time, and is non-linear. This class is an introduction to performance art designed for students who are shy and apprehensive about performing and students who are extroverted and at ease in front of groups.
Workshops include: developing a language of movement, gesture, and stance; developing a range of low-tech sound, lighting and video; juxtaposing activity, image, sound and text; structuring or building a piece; and documentation. We will consider singular actions, interventions and other strategies for generating and developing ideas for performance work. Student work for this class has been diverse and has included costume-based work, work using endurance as a central tactic, collaborative work, public intervention, interactive and site-specific work. Skills in editing video and sound, installation, animation are useful, but not required. 3 credits.

**String, Felt and Thread**  
**SEM 267-367-467**  
This is an introduction to Fiber and Material Studies. Students will follow materials from the raw state to the finished form, learning how to manipulate them at every stage. Material and process are often bound together...so a wide variety of techniques of making form from string, thread and fiber will be covered. Students will learn to make informed material choices based on an understanding of the history and associations of each material. Students will be introduced to contemporary criticism, and questions surrounding craft and the history of art. Open elective. 3 credits.

**Sewing + Fabrication Process**  
**SEM 268-368-468**  
The course will center on the problem of using a two dimensional flexible plane to build a three-dimensional form. The class will emphasize skills in machine sewing, using both domestic and specialized industrial machines and proceed to other fabrication methods.

The course will include the basic pattern making skills required to construct the skin of a three-dimensional object. These processes are relevant to garment making, however this class is structured to apply these skills to a wider range of fabricated objects. The materials used are central to the meaning of the work and the class will include an investigation of the formal and physical potentials of materials and will consider the metaphoric, symbolic and cultural information carried by those materials. 3 credits.

**Digital Images, Patterns + Structures**  
**SEM 271-371-471**  
In this class students will learn to design repeat patterns and structures for weaving, printing, and other digitally controlled output systems. Participants will be introduced to methods of analog and digital repeat generation while gaining fluency in ProWeave, and furthering their knowledge of Illustrator and Photoshop. Arrangements with affiliated institutions will allow students to have their designs digitally printed, die-cut, or industrially woven, expanding the opportunity for fulfillment of their concepts on a scale and complexity previously unrealized. Classroom discussion will examine the impact of historical, cultural, industrial, and contemporary factors on pattern design. No Prerequisites. 3 credits.

**Weaving Patterns: Collective Activity**  
**SEM 275-375-475**  
Students will learn to weave and explore the possibilities of the process on traditional floor looms (floor, tapestry, Computer-assisted Dobby) and alternative weaving devices (constructed from found objects or using architectural influences). Technical vocabulary and conceptual focus will be developed through an investigation of process, material, tools and the many and varied histories of weaving. The intersection between weaving and collaboration will be explored in discussions on the development of pattern/structure as a form of communication; looms built in situ; implication of globalization on craft production; traditional and contemporary practice of gifting; and social participation. 3 credits.

**The Artist + Social Practice**  
**SEM 280-380-480**  
This course explores a realm of artistic endeavor usually apart from the gallery system and the art market, where the artist applies his/her talents to questions directly related to community, social responsibility, and political activism. While looking critically at recent manifestations in relational and participatory practices—as well as learning about their historical context and interdependence with other fields—students will work within a greater social context, applying their skills to pressing issues (such as ecology, urban decay, poverty, discrimination, violence, and global abuses of the military-industrial complex, to name a few). The pedagogical approach will be to present projects realized by other artists who have worked in these areas, and to be able to contextualize these practices as the result/reflection of our current economic, political, and cultural situation(s)—both nationally and internationally.

Students will research issues that are of greater concern to them individually, and present them to the whole class. This will be followed by in-depth discussion around problem-solving, efficacy of action, and aesthetic materialization. Projects will then be developed and implemented throughout the semester. 3 credits.
**Course Catalog**  
**Sculpture + Expanded Media**  

**Experiments in Electronic Arts**  
SEM 316  
This is a seminar class that guides students in the development and realization of a semester long research project in electronic arts. Projects can be in a wide range of areas, hybrid thinking and intermedia approaches are strongly encouraged. Topics in the theory and history of contemporary art related to current and emerging practices will also be discussed. The class is designed to allow for synthesis of content from earlier studies into significant finished work that will be shown in an exhibition planned, managed and coordinated by the students under the direction of the instructor.  
3 credits.

**Sonic Arts**  
SEM 318  
This class is focused on aspects of sound related to the practice of sonic arts. Sound art is flourishing in museums and galleries, on media networks, and performed at festivals and performance venues around the world. Like many genres of contemporary art, sound art is interdisciplinary. This course will reflect that hybridity with investigations in: digital manipulations of sound, sound synthesis, sound installation, sound sculpture, psychoacoustics, field recording, noise composition, integrated sound and image works for pre-recorded presentation or performed live, popular music, and cinematic scores.  
3 credits.

**Topics in Sculpture+Expanded Media**  
SEM 333  
This course focuses on student intent with regard to artistic production and their ability to allow for audience entry into a dialogue concerning the conceptual issues forwarded by their work. Students are expected to identify the content of the work they would like to explore via a rhetorical method that embraces an interconnected relationship between practice and theory as part of a project-based approach for the production of self-directed work. Required at the junior level for all Sculpture + Expanded Media majors and open to all junior and senior level students.  
Prerequisites: SEM231-232. Offered fall.  
3 credits.

**Creative Resistance: Media Art in the Social Sphere**  
SEM 340-440  
This studio course will introduce students to the process and strategies of integrating social activism with media art. Through reading and discussion, the course will establish the historical and theoretical context of tactical media, hacktivism, and other media-based protest arts. We’ll look at artists’ use of a variety of media—including the news media, the internet, locative media, surveillance technologies, genetic modification, gaming and more — to implement social commentary and criticism. Offered fall.  
3 credits.

**Sculpture + Expanded Media: Internship**  
SEM 399-499  
Elective credit can be given on a case-by-case basis for an internship developed by the student through the Career Services Office with advance permission of the department head.

**Sculpture + Expanded Media: BFA Research**  
SEM 429  
As an extension of the Visual Arts and Technology Environment’s goal that students develop the ability to generate self-directed work, the Department of Sculpture seeks to provide each student with opportunity to develop the skills and knowledge to identify and sustain an independent practice. This course is designed to increase student awareness of the current art discourse and the ability to use that knowledge as a means of awareness within the production of their own work. This educational process embraces a variety of approaches to basic problem-solving skills measured against the contemporary practices of the discipline. In cooperation with a major-day faculty, students are expected to develop what is often their first significant independent work. For BFA students the focus of this course centers on artistic production, conditions of conveyance and Presentation. Required at the senior level for all sculpture majors for BFA development. Offered fall.  
3 credits.

**Sculpture+Expanded Media: BFA Research + Exhibition**  
SEM 430  
Required for all senior Sculpture+Expanded Media majors. Offered spring. 3 credits.
Social + Natural Science

Basic Theories of Psychology
SNS 308
This course will offer an overview of the basic theories of psychology and how they apply to human development. We will explore the questions of what motivates people to do what they do. How and why do people change as they grow from infants to adults? How do we develop in our ability to play, to work, to love and to be ethical human beings? The course will cover the major personality theories of Freud and his understanding of the unconscious, Erickson, Jung with his description of the shadows and archetypes in the human mind and Rogers’ humanistic psychology as well as learning theories and systems of moral development. The course will also cover the major feminist critiques of these systems. There will be a brief overview of psychological problems such as major depression, schizophrenia, phobias, etc., as well as some methods of treatment. 3 credits.

Abnormal Psychology
SNS 309
Visual anthropology is an important growing subfield of cultural anthropology. The course focuses on how anthropologists have used visual media of various kinds, especially ethnographic film, to record, document and study human cultural and social diversity worldwide. A series of ethnographic films, readings and class discussion will explore this method of anthropological data collecting and analysis. As a counterpoint to earlier, popular, western cultural biases in visually “representing” non-western, non-industrial peoples as “romantic,” “noble,” “savage,” “enigmatic,” “curiosity,” anthropology’s film studies sought a stronger objectivity. Did they succeed? Worldwide, indigenous peoples now make extensive use of visual media/communication to reflect on their “contested identities.” How has visual anthropology helped in that effort? From the 19th century’s still photographs to today’s cyberspace, visible culture and visual media interface. The course reviews ethnographic film as part of that communication process. $15 course fee required. 3 credits.

Visual Anthropology
SNS 321
Visual anthropology is an important growing subfield of cultural anthropology. The course focuses on how anthropologists have used visual media of various kinds, especially ethnographic film, to record, document and study human cultural and social diversity worldwide. A series of ethnographic films, readings and class discussion will explore this method of anthropological data collecting and analysis. As a counterpoint to earlier, popular, western cultural biases in visually “representing” non-western, non-industrial peoples as “romantic,” “noble,” “savage,” “enigmatic,” “curiosity,” anthropology’s film studies sought a stronger objectivity. Did they succeed? Worldwide, indigenous peoples now make extensive use of visual media/communication to reflect on their “contested identities.” How has visual anthropology helped in that effort? From the 19th century’s still photographs to today’s cyberspace, visible culture and visual media interface. The course reviews ethnographic film as part of that communication process. $15 course fee required. 3 credits.

Traditional Tribal Art
SNS 357
Specific cultures of sub-Saharan Africa are reviewed through their visual arts and ritual. The goal is to understand how each group’s history and cultural context influence the creative process (use of symbols, style, media, and technique) and shape the aesthetic response. Some comparative materials from Oceania, India, and North America are also examined. 3 credits.

PreHispanic Civilizations: The Aztec, the Maya, the Inca
SNS 360X
This will be a lecture based, Anthropology course that focuses on the three major civilizations of Prehispanic Latin America; the Aztec, Maya, and Inca. We will study the three civilizations to understand the complexity of New World cultures, and to understand what their legacy to the Americas is today. 3 credits.
Human Antiquity
SNS 381
The anthropological study of human evolution, from human origins through the formation of major early civilizations. Course emphasis is on understanding the changing nature of the relationship between human biology, the environment and adaptation of culture as a way of life. Slides and films help describe archaeological sites and the paleoanthropological theories and methods used in studying human prehistory. $20 course fee required which allows for a course visit to the Cleveland Museum of Natural History’s Hamann-Todd Osteological Collection. This is one of the world’s largest and most thoroughly documented collections of primate skeletons, with all major groups represented including humans, apes, prosimians, and New and Old World monkeys. 3 credits.

Topics in Environmental Science
SNS 390X
This course explores a broad range of topics that come under the heading of Environmental Science. It will focus on humans and the environment, taking in populations and health, earth resources, water management, food and hunger, biodiversity and sustainable living systems. Applications of these topics to various problems in design such as the design of sustainable cities will be emphasized through term research projects. Fulfills Social or Natural Science liberal arts distribution elective. No prerequisites. 3 credits.

Tribe vs. Nation
SNS 479
The course is an anthropological examination of the impact of technology and “western” industrial development on indigenous populations worldwide. Assumptions posed in the concepts “progress” and “development” are examined by in-depth review of traditional society and culture change among, for instance, the Balinese, ethnic groups in Mali, West Africa and Native American in the United States. Bali’s traditional arts, rituals and water temple system of irrigation, Bambara society in Mali and Native American traditional cultures are juxtaposed against the culture change these groups experience with increased global, commercial interdependence. In the 21st century, humankind continues to experience problems of world hunger, population growth, resource depletion, pollution and war. Films, slides and reading review these issues, and peoples, worldwide, to try to consider potential solutions which acknowledge human cultural diversity within the modernization process. An emphasis in the course is a consideration of technological determinism and social choices. 3 credits.

Jung + Creativity
SNS 484
This course will combine a theoretical introduction to Jung with experiential participation in a dream workshop/small group. The theoretical component of the course will provide an overview of Jung’s understanding of the human psyche with an emphasis on use of symbols and dreams as the “royal road to the unconscious.” Work from the dream workshops is intended to inform the artist’s work. Students will be expected (in addition to the usual preparatory reading) to bring dreams weekly and to be willing to apply material from those dreams to their own creative process. 3 credits.

Liberal Arts classes can be found in the Course listing section of this catalog under:
ACD: Art/Craft/Design History+Theory
HCS: Humanities/Cultural Studies
LLC: Literature, Language + Composition
SNS: Science + Natural Studies
Visual Arts

Image + Form I
VAT 200
Image/Form promotes a general understanding how images work and are developed, which is a fundamental aspect of the Visual Arts. The course introduces the students to the various means by which images can be rendered, such as by drawing, painting, carving, embroidering, etching, etc., as well as by digital means, by appropriation, and by the use of ready-mades. The students are also introduced to the diverse ways in which images and forms can be manipulated, or manifested conceptually and materially by exploring the inter-relation between 2 and 3 dimensions, as well as in time-based media by the use of collage or assemblage. In doing this, we introduce them to the concept that an image’s “form,” consisting of its physical and spatial qualities, as well as the technical qualities of their chosen mode of production, is part of its content. By these means they are introduced to practical and semiotic nature of images and their production in the context of the contemporary by means of assignments, readings, discussions, and studio critiques. Open as elective to all majors. This course is required for all sophomore students in Visual Arts. Offered spring. 3 credits.

Image + Form II: Reproducibility
VAT 202
Reproducibility (offered with an emphasis on either 2D or 3D production) introduces the student to the idea that the uniqueness of the work of art is not an intrinsic or inherent quality of the work itself, but the result of the choice of media. Consequently since the Renaissance and the advent of Printmaking, the printing press, and bronze casting, multiplicity and reproduction have been a part of western culture. The machine age, photo-reproduction, lithography, industrial standardization, modularity, fabrication, and multiplicity became part of artistic practice. Prints, posters, ready-mades, objects, books, comix, and designed utilitarian objects editions, multiples, modules, and reproductions are now a significant aspect of contemporary art making which abandons the notion of the unique work Making works of this kind requires the artist to take into consideration the how the act of reproduction, or replication constitutes part their work’s form and content. Open as elective to all majors. This course is required for all sophomore students in Visual Arts. Offered spring. 3 credits.

Collage + Assemblage
VAT 212-312-412
Collage and Assemblage are among the most radical innovations of the early 20th century and these forms remain relevant today as sources for innovation and experimentation. Each of these forms acknowledges the fracture of contemporary life and the ongoing need for new means of expression. This course will explore the relationship between collage and assemblage and various disciplines within the visual arts including Painting, Print, and Drawing. Students will learn to discern the significantly different effects and content of the wide range of strategies these approaches encompass. Through classroom discussion, lectures, readings, critiques and studio work students will explore the possibilities available through collage and assemblage. Emphasis will be given to the historical and contemporary studio practices associated with collage and assemblage. This course is open to all students from all majors. Students will be encouraged to apply their area of expertise to the studio work. 3 credits.

Criticism as Studio Practice
VAT 241-341-441
This course will be of interest to all students maintaining a studio practice and focuses on the role of critical dialogue in forming and informing studio production. Through modern and contemporary models, students will be asked to consider the relationship between what is critically said about a work of art and how that frame effects the work’s standing in the world. Examples to be considered will include: Apollinaire and Picasso; Pollock and Greenberg; Andy Warhol’s practice; Andre Serrano’s Piss Christ; Robert Mapplethorpe’s work; Chris Ofili and the Young British Artists; and the television show “Work of Art.” Students will develop and participate in projects extending from these models as well as giving an intensive look at their own practices and how what they make is changed by the critical dialogue which surrounds making in an academic environment. This course is open to all students. 3 credits.

Silkscreen
VAT 270-370-470
Students will investigate surface, mark, and materiality from both a technical and conceptual point of view. The silkscreen can accept a wide variety of printing substances (pigments, dyes, mud, talc, honey, etcetera...), and can be applied to an equally diverse range of surfaces. Lectures, readings, and critiques will help students understand the historical role of the screen-print and how it relates to their own work. Open elective. 3 credits.

Aesthetics, Style, + Content
VAT 300
Aesthetics Style and Content focuses primarily on the acquisition of creative and technical skills in the context of the development of original ideas and personal style. Studio work will consist of the practical exploration of the relationship between formal, technical, aesthetic, and stylistic issues relative to the personal, and thematic subjects of the students own choosing. Relative to this, in the seminar portion of the course the students are given critical, theoretical, philosophical background to issues surrounding the subjects of style, aesthetics and content. In the studio the students are encouraged to think of their work as an integrative whole consisting of these various components. In this context they are required to engage in independent critical research on topics relevant to their work. Their research takes the form of both archival and studio work and is presented in both visual and written form. This course is required for all junior students in Visual Arts. Offered spring. 3 credits.
Critical Issues in Art in Theory + Practice
VAT 316-416
This class will focus on how the relationship between the visual and the verbal, images, and ideas play out in artist’s work. Emphasis will be placed on artist statements, writings by artists, student peer reviews, and written statements. Students will be expected to hone their abilities to think critically about visual art through weekly readings and writing assignments. This course is open to majors from all disciplines and students will be encouraged to work in their area of expertise. 3 credits.

Installation + The Constructed Object
VAT 326-426-526
This course is a special topic course designed to cover the design, construction and lighting of installations, stage sets, and performance spaces. Students will investigate contemporary applications and approaches to subjects specifically composed for the camera, and document installations that exist outside of the studio environment, with an emphasis on the genre’s relationship to historical and contemporary theatre. Workshops include traditional camera formats, digital cameras, advanced studio lighting, basic electricity and carpentry, with an emphasis on scenery design. Students will plan and create small-scale models of stage designs; scale up these designs, and document their design. This course will be of special interest to students working in both installation and industrial design. Open to all students. 3 credits.

Hybrid Approaches to Drawing + Painting: Digital Media
VAT 327-427
Emphasis is on integrating digital processes into studio practice and production. The class deals with a spectrum of digital applications in a studio practice including straight forward digital output, using digital as a means of producing source material as well as actually integrating digital processes into the production of work. Through slide presentations, viewing actual work, discussions and readings, students will be introduced to the place of the digital in contemporary studio practice. In studio production, students will use varied media and subjects, both traditional and non-traditional, to further develop their analytical and expressive means in their creative practice. Students are encouraged to draw from many disciplines incorporating them in the projects presented to the class for group critiques. Open to all Students – required of Print and Drawing Juniors. Offered fall. 3 credits.

Working Collaboratively + Group Dynamics
VAT 354-454
Though the image of the artist is that of the solitary individual striving to express their vision – the contemporary practice of art is peppered with numerous examples of artists collaborating. This course will focus on how the presentations of images, and objects have been effected by changing social and cultural perspectives and the technologies of reproduction. These extend form something as simple as organizing a group exhibition, to the type of social interventions practiced by the Guerrilla Girls or the work of such entities as Gilbert and George, or the collective N55. This course through projects, readings, and critiques will explore the dynamic of working collaboratively.

Each exercise will address different processes, skill-sets and interpersonal relationships. Through classroom discussion, lectures, and studio assignments the social, historical, cultural, technological context that gave rise to the current practices of collage, assemblage and installation will be elaborated. This course is open to majors from all disciplines and students will be encouraged to apply their area of expertise to assignments and classroom readings and discussion. This course is open to students from all disciplines and is not media specific. 3 credits.

Role of the Artist as Producer
VAT 400
Contemporary artists have a multitude of ways they can engage with the larger world, beyond the realm of the gallery or museum. Students enrolled in this course will explore various models of artistic production including, but not limited to, performer, activist, curator and provocateur. The relationship between method of creation and idea, or the handmade versus the industrial, will be investigated. Additionally, assignments will challenge students to analyze the content of their artwork within local, national, and global contexts. Coursework will include studio work, readings, discussion, and critiques. Required for VAT seniors in all majors. Open as an elective with approval of instructor. Offered fall. 3 credits.

BFA Statement + Exhibition
VAT 493
This course is designed to assist the student in preparing their short exhibition statement, BFA Thesis Paper and in general prepare for their final BFA Exhibition and Defense. In the BFA Thesis Paper, students are asked to examine their work and thinking within varied frameworks. This paper is meant to prepare the student for their BFA Oral Defense and provide the foundation for professional proposals beyond graduation. It is an opportunity for an in-depth consideration of work and personal studio practice. The length of the Thesis Statement Paper varies but excluding endnotes, bibliography, illustrations and other addenda, the paper should be no fewer than 1500 words and no more than 2500 words. Within the paper and among other questions, students are expected to address: “What is the work? What is the reasonable expectation for how it will be received by a given audience? What is the work’s historical and contemporary context? What are the sources for the work? What choices were made in realizing the work and how to they contribute to the reception of the work?” This course is open to all seniors regardless of major and is required by all Visual Arts Seniors. Offered
