

Opulence

CRYSTAL MILLER
★ PAINTING & SEM ★
BFE EXHIBITION

Take a step into an imaginative and futuristic world through the lens of blackness. The glittering gems, sparkling rhinestones, and shimmering glitter shine amongst each other. A celebration of beauty and richness of black culture.

This space revisits the past and predicts the future through a Black cultural lens. Take a moment to escape from the harsh realities on earth and enjoy this utopia where we can imagine a freer expression of blackness. An experience for my community that can instill hope into their hearts, that there is a future for us, by us.
